Today

Two Kinds of Power Hiram Johnson Suggests Weather in the Desert Precious Gold, Keep It

By ARTHUR BRISBANE

HODGE, CAL., Feb. 11—Today, third anniversary of the Lateran treaty, which recognizes the Pope's temporal power, Mussolini will visit the Vatican and see the Pope for the second time in his life. On the first occasion, 10 years ago, Mussolini saw Pope Pius at a distance, when the Pontiff appeared in public, on a high balcony.

Future historians will regret that no competent reporter could see that meeting. The Pope, in white, his keen eyes blazing in his scholarly face, pale for lack of the mountain climbing exercise to which he had always been accustomed, will see the ruler of Italy, in formal black, his powerful chin and high forehead telling the story of his rise to power.

What a picture for a great artist to paint. Mussolini, representing power as brief as the life of the individual, the Pope, representing power based on the religious faith of millions, and marvelous, world wide organization. Popes will be in the Vatican, negotiating, planning, looking far ahead, building up strongholds of faith East and West when Mussolini shall have become a memory in history. The one, in white, represents persistent force, the other, in black, is a meteor, its brilliant path of light soon to be forgotten, but which alone is important, ITS EFFECT ON MEN AND HISTORY, PERMANENT.

France declined to pay what she owed this country and Andrew Jackson said a debtor, refusing to pay, should have his property seized. France ultimately paid. We cannot seize International property for debt, and Senator Hiram Johnson suggests an excellent substitute. He offers a bill strictly forbidding the sale here of any securities, by any nation that has defaulted on its obligations to the United States. Foreigners would not like to be cut off from this financial sugar bowl. Will Rogers, back from a tour around the world, says, "In Europe, when you're introduced to somebody, they say, 'Glad to meet you, cancel the debts.'" Hiram Johnson's suggestions might cure that.

This, as the date line tells you, is written on the Mohave Desert, 60 miles east of the Pacific ocean, and 2000 feet above that wide surface. It does not seem like a desert now, in this winter of strange weather. The Mohave river, which flows normally out of sight below the desert floor, supplying ranch wells with water, a long row of cottonwood trees now in leaf, of course, is now a wide torrent, undermining bridges, washing away big trees that it has nourished.

The high mountains on the west are covered with snow more than 20 feet deep, and the wind sweeping over them from the ocean is full of oxygen and life. This is a good place to stop, on your way to the coast. Barstow or Victorville will provide accommodations. But do not come to stay unless you have money to leave with, when you go, and maintain yourself and his family. Mussolini here. It is a place to live, not to earn or make profits. This is mentioned, again, because chambers of commerce from west and southwest fear that traffic and money may be diverted here from more promising sections of the coast.

Ecuador abandons the gold basis with a good excuse. It has no gold. The International Bank, established by the League of Nations, will help weak nations to maintain the gold standard, so it says. More interesting to us are the shipments of small strongly built barrels, filled with United States gold coins, pouring steadily into the Bank of France vaults.

The way to keep your gold standard is to keep your gold. This country should realize that in time and forbid gold exportation on any pretext. The supplies of quinine or digitalis were threatened we should forbid their exportation. What gold tells us that gold is as important for prosperity as quinine for malaria, or digitalis for weak hearts. You may ask why, with the world's greatest gold supply, something seems to have gone wrong with our prosperity. High finance says the question is not pertinent.

The price of raw sugar yesterday dropped below three cents a pound, lowest prices in history were recorded. There is opportunity to use profitably the great crops of fruit that this rainy season makes certain. The farmer also is interested, for his family and his stock. Mr. Babst, head of the big sugar company, should advertise special low prices for molasses by the barrel. Mixed with chopped or shredded cornstalks, molasses is a food of greatest value for horses and cattle.

POPE PAYS MUSSOLINI REGAL TRIBUTE

PONTIFF AND DUCE MEET, FIRST TIME

Pontiff's Reception Marked by All the Pomp Accorded Kings or Emperors

By GUGLIELMO EMANUEL
International News Correspondent

Vatican City, Feb. 11 (INS)—Amid a display of regal honors, Pope Pius XI received Premier Benito Mussolini of Italy in audience at the Vatican today.

It marked the first time Il Duce and the Pontiff of the Catholic church had met, and the first time since 1870 that the head of the Vatican had received an Italian premier.

Arranged to observe the third anniversary of the signing of the Lateran treaties, the visit of Mussolini to the Vatican more especially marked the end of the long-drawn out strife between state and church which was fanned when Mussolini ordered the Catholic Action Societies dissolved.

Il Duce arrived at 10:35 a. m., surprising everybody, including the troops lining the route, who were unable to render a salute which had been planned.

Four motor cars preceded the premier's vehicle, which was flanked by platoons of mounted carabineers.

Mussolini was accompanied by members of the papal staff to the door of the library, where the audience with the Pope took place. The meeting was entirely private and lasted an hour.

Mussolini bowed deeply and kissed the hand of the Pontiff. The Pope, in turn presented the Premier several gold medals for himself and his family. Mussolini

Favor Taxi Licenses to Youths 18 to 21

A bill giving the Public Utilities Commission discretionary power to grant youths from 18 to 21 licenses to drive taxicabs and buses met with general favor today at a hearing held by the legislative committees on highways and motor vehicles.

Michael F. Shaw of Revere, representing the Service Bus Co., said drivers between 18 and 25 had fewer accidents than those over 25.

Attorney Is Freed in Larceny Case

D. Leslie Di Cicco of Kenmere rd., Medford, Boston attorney, was found not guilty today in Suffolk Court by sealed verdict of a jury that heard two counts each of larceny and forgery in automobile insurance cases.

The complaints were brought by the Aetna Life Insurance Co., on claims of Albert J. Beatrice and Charles Venciguars, both of Malden.

Congress Should Remake Tax System to Revive Trade

By Merryle Stanley Rukeyser

THE Hoover administration is indulging in extremely dangerous thinking regarding taxation.

At a time when business is already discouraged to an inordinate degree, Acting Secretary Mills revises upwards the Treasury recommendations for tax increases.

The mere threat of punitive taxation serves to deepen the depression and to throw additional men out of employment.

The administration tax plan is not only vulnerable from a strategic standpoint, but is likely to prove ineffective from a revenue standpoint. It is impossible to increase tax proceeds proportionately by raising the rate. The Mellon-Mills-Hoover delusion is that the country can raise necessary revenues by hypothetical increases of rates on hypothetical income.

As a matter of fact, the national income has shrunken enormously as a result of sub-normal business conditions.

THE sound objective of economic statesmanship at this time should be to AUGMENT THE SOCIAL INCOME.

This entails a vigorous, consistent and thoroughgoing campaign of counter deflation.

The Hoover reconstruction drive is half-hearted. The President seeks feebly to fight deflation through the Reconstruction Finance Corporation and other agencies, and yet would feed deflation by adding greatly to the tax burden.

As long as expediency rules at Washington and one move offsets the effect of another, hope of planned economic relief will continue to be frustrated.

This week Mr. Mills tells Congress that taxes must be boosted $1,241,000,000 to carry out the Treasury's budget-balancing plan. A month ago the

SCORES HURT, 1 KILLED, IN ICY STREETS

Broken Legs, and Many Other Severe Injuries From Slippery Pavements

List of Injured on Page 3
Picture on Page 9

Slippery streets and sidewalks, glares of ice in all sections, making the most dangerous conditions Greater Boston has seen in years, claimed scores of accident victims today, while the week's total of deaths due to ice and snow mounted to six.

James P. Arthur, 25, of 7 Eden st., Chelsea, was crushed to death when his truck skidded into a railroad bridge support on Pope's Hill rd., Dorchester. This was the third fatality in less than 24 hours.

The most seriously injured in the many other accidents today was Louis Lund, 49 378 Main st., Everett, brakeman, who slipped from the top of a freight car in the Boston & Albany yards, South End, and suffered a fractured spine. His name is on the danger list at Massachusetts General Hospital.

5 HAVE BROKEN LEGS

Pedestrians on their way to street cars and trains in all parts of the city and suburbs found it almost impossible to walk, while auto drivers could hardly bring their machines to a stop without skidding in a circle. Many of the injured were school children and aged persons.

The large total of accident cases treated at the Haymarket Relief Hospital and other first-aid stations yesterday was completely eclipsed at an early hour today.

Broken bones and severe sprains were found in many instances, and at City Hospital a record was set when eight persons, six of them women, arrived with broken legs in less than two hours, during the night.

With ice thick on Boston streets, despite the extra force of 500 workmen put to work on orders of Acting Mayor Edward M. Gallagher, traffic was only creeping along. Demands for sand for streets and sidewalks poured into City Hall and the city yards and found officials two or three days behind the weather conditions.

Continued cloudiness with some rain and slightly higher temperatures was the weather man's forecast.

King George Visits Premier in Hospital

London, Feb. 11 (AP)—Prime Minister Ramsay MacDonald, recovering in a hospital from an operation on his eye, had a distinguished visitor today. It was King George himself, who had driven over from Buckingham Palace.

Only a few persons saw the King walk up the hospital steps, wearing a top hat and a heavy black overcoat.

Wife Is Too Slow, Husband Kills Six

Agen, France, Feb. 11 (AP)—Police today said Pierre Delafe had confessed that he murdered his wife and five other members of his family Monday because Mrs. Delafe was slow in opening a door for him.

The five victims ranged from a grandmother to a baby.

Gibbons in Direct Line of Fire Sees Chinese Pepper Warships

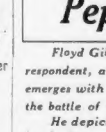
Floyd Gibbons, Universal Service's famous war correspondent, after being silent for almost two days, emerges with a brilliant account of the latest stages of the battle of Woosung.

He depicts the shelling of the Woosung village and fort by Japanese warships, and the stubborn defense put up by the Chinese in the accompanying article, in which he pays high tribute to the valor of the defenders.

By FLOYD GIBBONS

Copyright, 1932, by Universal Service

With the Japanese Army Before the Woosung Forts, Shanghai, Feb. 11 (Thursday)—Hello Everybody!



Floyd Gibbons

I don't know whether you shout "banzai," "hoot mon" or "vive" when you want to cheer Chinese soldiers for putting up a swell fight, but, whatever the expression, I here broadcast my compliments and admiration for the stubborn, courageous resistance those babies are making against terrific odds of numbers and materials in their defense of the Woosung village and fort.

I have already paid my respects to the Japanese fliers for the nifty job they have been doing in their low-flying bombing expeditions in dirty weather. Now here's my bouquet for the Chinese defenders who have been on the receiving end of those same bombs for 48 hours, and who are still sticking to what ruins remain of their posts in the face of repeated heavy bombardments from land and sea.

Other War News on Pages 2, 3 and 6

BULLETIN

Shanghai, Feb. 11 (INS)—A formal apology for the bombing of the Wingon cotton mill by a Japanese airplane, causing the death of six Chinese and endangering the lives of 100 United States Marines, was delivered to United States Consul-General Edin R. Cunningham by the Japanese consul-general today.

By JOHN GOETTE

In the United States marine outpost in the bombed Wingon Cotton Mill

Shanghai, Feb. 11 (3:27 p. m.) (INS)—The courtyard of the billet of U. S. marines still is filled with bleeding women and children who were victims of this morning's Japanese aerial bombs. The list of victims almost included 19 American marines with Chinese mill hands.

The marines narrowly missed death as American, French and British consular authorities were believed to be making a last-minute attempt to effect peace on the eve of what promised to be the most severe onslaught Shanghai has seen during

SHARP RALLY IN WALL STREET

New York, Feb. 11—Active short covering based on overnight Washington news rallied stocks sharply today. Leaders rushed up 2 to 6 points, reacted moderately on profit-taking, and then resumed the advance.

Auburn soared more than 12 points, while Coca Cola and Du Pont gained 6. American Telephone was a strong feature with a 5-point jump and U. S. Steel was up nearly as much.

American Can, Atchison, Eastman, Consolidated Gas, Case, Union Pacific and Norfolk & Western were among the leaders showing advances of 4 points or more.

General Motors and General Electric gained 2. Call money renewed at 2½ per cent.

Caruso, Jr., Accused of Shooting Two

London, Feb. 11 (INS)—Rodolfo Caruso, 20, son of the opera singer, has been arrested in Bologna, Italy, charged with wounding two peasants with intent to endanger their lives, according to a dispatch from Rome today.

The United States has refused extradition of Rodolfo's brother, Enrico, who is a naturalized American, his report stated. The two were charged jointly with attacking the peasants when their car blocked a road near Bologna.

HOSPITAL CUTS PAY OF 1000

The entire staff of Massachusetts General Hospital, aggregating about 1000 men and women, were forced to accept a salary reduction on February 1, it was learned today.

Their pay cut was by a vote of the board of directors, and affects everyone on the hospital payroll, from janitors and orderlies up to the highest-paid executives.

On salaries of $1000 and under, a five per cent slash was put into effect. Those receiving between $1000 and $1500 a year, took a seven and a half per cent reduction, while all those receiving more than $1500 annually were slashed at the rate of 10 per cent.

It was reported at the hospital that at least two other hospitals have put pay cuts into effect.

Ex-Fiance of Ann Nichols Kills Self

Hollywood, Feb. 11 (INS)—Illness and financial worries caused William De Lignanare, 42, one-time fiance of Ann Nichols, noted playwright, to commit suicide by hanging himself with a leather strap to a door in his small Hollywood apartment, detectives reported today.

In De Lignare's apartment Detective P. C. Wilson found letters indicating that Miss Nichols had been contributing to his support since he became ill.

"L" BANDIT IS IDENTIFIED

Other Details on Page 13

Harry Morgan, escaped Deer Island prisoner and confessed holdup man, was identified today in a police headquarters lineup as one of the bandits who held up and robbed an Elevated paymaster of a $9500 payroll in South Boston last week.

Identification of the bandaged, cut and bruised Morgan, who was badly beaten in being captured yesterday by police at a Belvidere st. apartment house, was made by Thomas McGinn, driver of the pay truck.

McGinn declared positively that Morgan was the man who placed a pistol in the driver's ribs, and told him to turn around. Then the cash box was taken from him.

F. I. Howe, the elderly paymaster, and seven other witnesses, failed to identify Morgan in the lineup, however.

Many Dead as Bitter Blizzard Hits Europe

London, Feb. 11 (AP)—There were many deaths as a cold wave swept over Europe as far south as Marseilles, France, today. Gales and snow storms delayed railway traffic, forced suspension of service by many air lines and brought shipping in the English Channel almost to a standstill.

Former King Alfonso of Spain and other passengers for France embarked at Folkestone because Dover harbor was closed. Six persons died in Belgium.

M'CRAY GETS 2 YRS. HARD LABOR

Lawrence, Feb. 11.—James Gordon McCray, Lynn department store manager, was sentenced to two years at hard labor in Salem jail today after the had interrupted his trial to plead guilty to assault upon two Salem girls. He was also fined $1000.

McCray pleaded guilty to three counts of two indictments and was sentenced for assaulting Margaret M. T. Richards.

The charge of assault with intent on Ines Smith, 20, and simple assault on Mary K. Ajootian were filed.

McCray is 30, married and the father of two children. His home is in Swampscott.

A conference of 90 minutes between Judge Gibbs, District Attorney Gregg, defense counsel, and the defendant preceded the change of pleas.

Although spectators were barred from the courtroom, eight girls "crashed the gate" and were present when sentence was imposed.

Drinkwater Is Better

London, Feb. 11 (AP)—John Drinkwater, the playwright, ill with bronchial influenza, was described today as much better.

Balances and Receipts

Washington, Feb. 11—Today's Treasury balance, $580,021,258; U. S. Customs receipts, $7,288,584.

GIBBONS RISKS LIFE SCOUTING BATTIE FROM RIVER

WRITER CAUGHT BETWEEN TWO FIRES IN TINY CRAFT

By FLOYD GIBBONS

Continued From First Page

Believe me, boys and girls, this Oriental jamboree at the corner of Woosung creek and the Whangpoo river is a battle.

I have been down here for the last 40 hours and it's getting hotter hourly. This afternoon, with a motor speedboat of Detroit make and two Chinese boys, I pushed off from alongside the U. S. destroyer Barker and dropped downstream.

The up and down parade of Japanese destroyers was still in progress, with its terrible pounding and blasting away at the homes and entrenchments of Woosung village.

Rain was falling and a light mist merged with the darker smoke from burning buildings. Heavy, big bombing Japanese seaplanes with enormous projectiles, that looked like aerial torpedoes suspended between their pontoons, droned and wheeled continually at an altitude of approximately 300 to 400 feet.

RAIN OF BOMBS

Repeatedly they drove downward at sharp angles on the ruins of Woosung village, releasing their bombs to speed away in a hail of Chinese machine gun bullets poured out of the defenses.

Every plane was met with a riveting fusillade from the Chinese machine guns.

Right in the middle of the Whangpoo, opposite the mouth of Woosung creek, is a stationary lightship. It has a high bow and stern all painted red and its sides are comfortably steel-plated. The Chinese crew scrambled over the side and made for shore when the first bullets began to fall on its deck.

Those bullets were coming from the defenses of Woosung village. They were not directed against the lightship, but against the Japanese destroyers steaming in between the lightship and the shore to deliver their heavy salvos on the village waterfront entrenchments.

SANDBAGS ON DECKS

The lightship offered good protection and a vantage point for neutral observation so we moored our small speedboat under the shelter of its steel plates.

Up the river from the direction of its confluence with the Yangtze steamed a large destroyer of the flotilla leader type. She loomed dark and grey against the yellow waters of the Whangpoo, her bridge and conning tower were bandaged and muffled with white splinter-proof mats, looking for all the world like a hundred mattresses and pillows being given an airing by a thrifty housewife.

And say, it was a mighty strange sight to see the navy using sandbags on board ship, but that's what they were doing. Hundreds of sandbags protected the destroyer's crew on the exposed parts of the deck and super-structure.

GUNS SWING ABOUT

I have no doubt that Japanese boat had made several trips up and down the river past Woosung village and had a very good, if not painful, idea of the intensity of that machine gun fire from the shore.

I watched the long gray muzzles of the destroyer's four six-inch guns swing slowly into the broadside position as they brought them to bear on the shoreline. The gun crews, blue-uniformed sailors, huddled close to their pieces behind armor-plate shields.

WALL SHATTERED

Of course, these armor screens protect only from the direction in which the gun is firing, leaving the gunners quite open and exposed to fire from the rear. But apparently there was no danger of bullets from that direction as the river shore opposite Woosung is unoccupied, although Japanese airplanes skimmed that shore, watchful every time the destroyers attacked.

Then the guns spoke—salvos of hot metal fired pointblank at 50 yards range, right smack bang into the stone water wall at the river's edge. I could see the heavy projectiles hit. Exploded fragments of rock and splinters of steel flew in all directions. The range was so close that it would not surprise me if steel splinters did not fly backwards striking the very ship that fired the shell.

Eight, twelve, sixteen salvos were slammed in hot as the destroyer steamed slowly up stream, but the surprise of all surprises came to me when I realized that between each thundering salvo the machine guns of the village waterfront defenses pecked back at the ship like hordes of hungry woodpeckers. Their bullets rattling against the steel plates of the destroyer and the gun screens sounded like somebody dumping a load of gravel on a tin roof.

FIRE RETURNED

That's why I opened this broadcast with a word of admiration for those Chinese machine gunners. It is the first time in my experience in war that I have seen men receive heavy cannon fire at 50 yards point-blank range and stick to their posts to answer with machine guns.

Of course this fighting is one-sided with all the advantages in armaments on the Japanese side. But there is nobody engaged in this conflict who has given a higher exhibition of courage than these Chinese defenders of Woosung village.

And the Japanese are much surprised to encounter this unexpected resistance after the easy work they had in Manchuria. They are now giving full credit to their formerly despised egemy.

There is one curious sidelight to this Woosung conflict and the Japanese now realize it. You see, the Japanese army before the World War was trained and instructed by German military officers and advisers and the Japanese have consistently employed German methods in offensive action.

METHODS SIMILAR

But during the 12 years since the World War the Chinese army has been continually advised and instructed by the highest type of unemployed German general staff officers, and all that the German military machine learned on the defense has been placed at the disposal of the Chinese forces and officers.

It now appears that the defensive positions at Woosung are strongly constructed subterranean affairs—a sort of transported "Hindenburg line" made in Germany and laid down here in China with the result that the neutral military observers here have an opportunity of witnessing how the German-Chinese defenses stack up against German-Japanese offenses.

At intervals during the day, the duel between the warships and land defenses had been called off, apparently by mutual consent to permit the passage of neutral shipping up and down this international waterway, because, of course, we must always remember that no war has been declared by either side so things must go on as though there were peace.

Taking advantage of one of these lulls,I started downstream from the shelter of the lightship in the hope that I could reach the mouth of the Yangtze and observe the destroyed forts.

NARROW ESCAPE

With one Chinese boy piloting and the other nursing the motor, our little speedboat shot forward in an attempt to get by the danger spot before the next round of the battle was resumed.

No luck. I had gauged the time wrong. We had passed the entire length of the Chinese defenses, standing 200 yards off shore, in the direction of the opposite side and not a shot had been fired in our direction when into full view, steaming upstream, came another Japanese destroyer firing at the shore with her forward guns as she came.

I signalled the Chinese boy to turn about and speed upstream. We did, and just in time to get out of the line of the withering blast of machine gun bullets with which the Chinese shore defenses greeted a Japanese destroyer, whose course lay between us and that shore.

BULLETS FLY NEAR

Once more I heard that rattle of leaden bullets against the sides of the destroyer. It made me realize what a small chance the thin wooden shell of our frail craft would have against such a blast.

Joe, the Chinese boy piloting, turned a full-face grateful grin in my direction as we reached a zone of safety in the shelter of the stationary lightship.

"Joe," I asked, "why the warship all time go boom, boom against Woosung people."

With a shrug of his shoulders in Oriental resignation, Joe replied:

"Maybe some Japan man want sell goods to Chinaman."

Joe smiled blandly, then explained:

"Chinaman no buy. Japan-man go boom, boom."

Gosh, this yarn's gone too long already for my allotted space and I haven't yet told you about the land fight of the Japanese on Woosung creek, but that will be coming right through in the next broadcast and if this message gets through O. K. to Shanghai.

Jobless Man Ends Life Under Train

Hartford, Ct., Feb. 11 (US)—Albert Klinger, 36, lay across the New York, New Haven & Hartford railroad track last night and was killed by a New York-bound express. Police said he had been without work.

Passengers were thrown from their seats and a coupling snapped as the engineer put the locomotive in reverse in an attempt to stop.

Malden Man Saved From Auto Gas Death

Louis Mazzuli, 27, narrowly escaped death last night when he was overcome by carbon monoxide gas in the garage in the rear of his home at 589 Lynn st., Malden.

Persons in the house heard Mazzuli fall on the veranda. Dr. Daniel T. Driscoll and Patrolmen Charles T. Ferguson and J. Edward Mahoney revived him.

U. S. TROOPS IN FRONT LINE

Shanghai, Feb. 11 (AP)—United States soldiers moved into the front line of International Settlement defenses today, to relieve the Shanghai volunteer corps, as both Chinese and Japanese rushed their preparations for a new onslaught along the Chapei-Woosung battleground.

The 31st Infantry which arrived from Manila a few days ago was safe in the center of the most difficult sectors on the settlement boundary, relieving three companies of volunteers, one of which was composed of American business men.

The American soldiers will guard the settlement from the gas works on Soochow Creek northward along the boundary to within a city block of north railroad station in Chapei, one of the focal points in the nearly two-weeks-long battle in the native quarter.

The American line joins the Japanese on range road on the border of the settlement.

Theater Entered 3 Times in Week

Salem, Feb. 11—Three times in seven days prowlers have broken into the Salem theater here. The safe in the office was tampered with last week, while last night the box office door was jimmied. Nothing was stolen.

BOMBS MENACE MARINES; JUST MISTAKE, JAPS SAY

Continued From First Page

the last two weeks of the Sino-Japanese fighting.

The marines, an officer and 18 men, were in billet in a Chinese-owned cotton mill on Soochow Creek when, marine authorities said, two Japanese planes flew over the building and released bombs, one of which hit and completely wrecked the mill, blowing out one whole side of it.

A number of other American Marines were on duty at sandbag emplacements in front of the building. None of the Americans was hurt, but five Chinese women and young children, workers in the mill, were killed and scores injured. About 1500 Chinese employes were in the mill at the time.

U. S. TO PROTEST

Edwin S. Cunningham, United States consul-general at Shanghai, was understood to be preparing a protest to Japanese authorities. Japanese consular officials said it was "obviously an accident."

The mill was within the settlement boundaries and the Japanese officials said their airmen were instructed to drop no bombs in this area.

Japanese Consul-General Murai late in the afternoon handed an expression of regret to United States Consul-General Cunningham over the incident of the bombing of the mill. It was understood that the Japanese believed the aviator mistook the mill for property across the creek from the Settlement.

TELLS OF ESCAPE

That the American marines escaped death or injury was a little short of a miracle.

"I was sitting in the guard room reading about this 'war' in the newspapers," said Bugler Mayfield of Columbia, South Carolina, "when the room shook so hard I thought it was coming down on my head.

"I grabbed my automatic and rushed into the courtyard. I hadn't gone far when the first of the wounded were dragged out. One poor fellow had his head all twisted around. I could see his brain exposed. Gosh, it was dreadful!"

Most of the workers in the mill were at luncheon at the time of the bombing, only a skeleton force working the machines.

Fragments of the bombs dropped were found in the headquarters of Col. R. S. Hooker, marine commander, for examination. On the white painted casing of the explosive bomb were printed Japanese characters and the Imperial navy anchor.

A truce between the Chinese and Japanese forces to permit the evacuation of non-combatants in the Chapei war zone will go into effect at 8 a. m. tomorrow (7 p. m. tonight, E. S. T.), it was announced tonight by Rear Admiral Shimada of the Japanese flagship Idzumo.

TO FREE CIVILIANS

The arrangements for the truce, Admiral Shimada said, were made by officials of the Shanghai volunteer corps as mediators between the Chinese and Japanese authorities.

Both sides agreed to cease all hostilities in the area from 8 o'clock until noon. The truce applies only on a front of a mile and a half along the Shanghai-Woosung railway north from the International Settlement boundary. The search is to be made by 30 foreigners carrying white flags.

The party will start from the foreign settlement and be escorted through the Japanese lines by a Japanese officer. A thorough search will be made of all buildings in the "no man's land" for non-combatant men, women and children and for wounded soldiers. These will be escorted to safety through the Japanese lines. The belief has been expressed here that many civilians have been trapped in their homes in the Chapei sector since the start of hostilities two weeks ago.

READY FOR BIG SMASH

The Japanese indicated today they had been marking time for some hours in preparation for a new drive and that they had strengthened their forces in Shanghai and Woosung, where additional soldiers and bluejackets were landed.

To back up the indication that they were ready to fight it out to a finish, the greatest concentration of guns, manpower and ammunition seen since the beginning of hostilities here was in progress. Forty Japanese warships and transports were jammed into the Yangtze estuary.

There was a brief but terrific bombardment of some part of Chapei during the day which caused fresh fires. Afterward Japanese airplanes carried out their daily bombing of Chinese positions.

Shells, supposedly from Chinese anti-aircraft guns, continued to fall within the settlement and Chinese said they could not be responsible for them as long as Japanese planes were permitted to fly over the settlement while bombing Chapei. They had to defend themselves, they said.

When the cotton mill was bombed this afternoon another misdirected shell fell in the heart of the settlement's business district and wounded an Indian sikh watchman. Panic reigned among the thousands of Chinese workers around the bombed mill. Mill employes said the high explosive fell through the roof of a spinning room occupied by 200 workers.

Although there was no official comment on this incident, reports were circulated that anti-aircraft guns might possibly be erected within the settlement as a precautionary move.

MODERN TRENCHES

As the Chinese prepared to defend themselves against the continued Japanese attack apparently in preparation, their trench system along the north side of Woosung creek was built in the style of the famous "Hindenburg line" during the World War. There were deep dugouts, barb-wire entanglements and machine gun nests capable of delivering a blistering flanki fire on an attacking party. Military experts said unless a heavy artillery barrage were laid down such positions could not be captured without heavy loss of life.

In recent days the Sino-Japanese front has been extended northward from Shanghai as far as Klangwan, half-way to Woosung. Both the Chinese and Japanese were digging in all along this front.

Chinese intelligence officers informed the Associated Press the Chinese are well equipped with airplanes, including bombers and pursuit planes, which are being held in readiness at Hungjao airdrome, on the outskirts of Shanghai, and in other secret places.

WILL REJECT TRUCE

If the wishes of the Chinese army here are respected, any truce proposal involving the withdrawal of the Chinese soldiers from a single square foot of Chinese territory will be promptly rejected by the government. This impression was unmistakably conveyed to the Associated Press correspondent during a visit to the headquarters of the young Chinese poet-commander, Gen. Tsai Ting-Kai.

The general himself was out on an inspection trip, but his aides said that although the army is controlled from the capital at Loyang, the government was sure to support the army in its determination.

Congress Should Remake Tax System to Revive Trade

Continued From First Page

Treasury estimated that $920,000,000 additional would be needed.

THAT IS A SAMPLE OF THE INEVITABLE CONSEQUENCES OF ECONOMICALLY UNSOUND FISCAL POLICIES.

UNTIL something fundamental is done to arrest the deflation, the government will never be able to catch up with growing deficits.

The way out for public finance is to USE THE FULL CREDIT OF THE GOVERNMENT TO CHECK THE DEPRESSION and to inaugurate impulses for recovery.

Forty-six scientific economists have recommended a prosperity loan of $5,000,000,000 to finance useful public works and to re-employ idle labor.

Such a wholehearted offensive against the depression will initiate a spiral of forces MAKING FOR PROGRESSIVE RECOVERY.

The fountains and springs from which taxes are drawn would again be refilled.

IN order to strengthen the campaign for economic recuperation, Congress should avoid defeating the larger objective by a narrow-minded tax policy.

One obvious remedy, which was suggested by the late Paul M. Warburg, would be to stop sinking fund payments for Federal debt retirement until normal conditions are restored.

Prior to the depression, the Government properly retired debt twice as fast as originally contemplated. But under present conditions the policy of creating new debt to retire old debt is an economic absurdity.

Secondly, as E. R. A. Seligman, Columbia University economist and tax authority, has pointed out, economic stability can be promoted under existing conditions by borrowing more heavily and taxing more leniently.

FAILURE TO DO SO WILL ADD TO THE VICIOUS CYCLE OF DEPRESSION.

SCIENTIFIC economists believe that in time of depression governments should spend freely, tax lightly and go into debt, whereas in boom times, it should spend lightly, tax heavily and reduce debt.

Thirdly, by abolishing so-called prohibition, a billion dollars in taxes would open up for the Federal Government, and half a billion for the States and local subdivisions.

Fourthly, Congress should vote AGAINST THE ADMINISTRATION RECOMMENDATION TO INCREASE THE TAX RATE ON PERSONAL AND CORPORATE INCOMES which, in the last analysis, depend on the variable element of business profits.

British experience shows the utter folly of taxing the spirit of initiative and enterprise beyond its ability to pay.

Fifthly, instead of penalizing efficiency, Congress should look forward to lightening the load of taxes on profits by supplementing Federal income with a general sales tax, modelled after the successful Canadian system. A five per cent manufacturers' tax would yield an enormous revenue even during subnormal periods.

IF CONGRESS would scornfully reject the administration's ill-considered program and substitute a plan along the lines which leading economists advocate, business would receive an enormous psychological and actual stimulus.

Unless Congress has the initiative and imagination to buck the economic trend IT WILL BE CAUGHT IN THE VICIOUS CIRCLE.

If poor business necessitates added taxation, then HIGHER TAXES WILL TEND TO MAKE BUSINESS STILL POORER.

On the other hand, if Congress follows the advice of scientific economists and acts to improve the general employment and business situation, then the government will be able to exact higher revenues without additionally burdening the people.

The situation is in the hands of the Democratic Congress and the result will be the test of the Democracy's ability to govern wisely and well.

PEOPLE

Who Interest You and What They Are Doing

Mrs. E. L. Doheny, Jr., to Wed Financier

Beverly Hills, Cal., Feb. 11 (AP)—Formal announcement has been made of the engagement of Mrs. Lucy Smith Doheny, widow of E. L. Doheny, Jr., to Leigh M. Battson, Los Angeles and San Francisco financier.

Mrs. Doheny

The prospective bridegroom was divorced by his first wife in Reno in 1928. Shortly after he was divorced, Battson was reported engaged to Muriel Vanderbilt Church, who had previously divorced Frederick Church.

Mrs. Doheny was widowed in February, 1929. Her husband was shot and killed by his secretary, who later committed suicide in a fit of insanity. She is the mother of five children. Doheny was the son of the dean of Western oil producers.

Civilization May Be Lost in Next War, Says Dr. Butler

New York, Feb. 11—Dr. Nicholas Murray Butler painted a gloomy picture of the world's future unless all nations renounce war as an instrument of national policy.

Nicholas Murray Butler

"Civilization may yet be destroyed in what is almost the twinkling of an eye," he declared at a meeting, "unless the world devises some means of peace maintenance without the accoutrements of war."

With airships and poison gases at the disposal of combatants, he said, "another war would be far more destructive than the Great War showed itself to be."

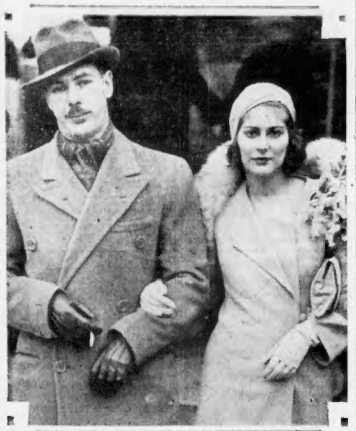
WRITERS KIDNAPED AND KICKED OUT OF KENTUCKY COAL FIELD

KIDNAPED AGAIN—BY LOVE



Charles M. Rosenthal has been "kidnaped" again. But the "racketeer" was no other than Dan Cupid. The man who was released after payment of $50,000 last summer, was married to Miss Lorna Fried of Lawrence, L. I. The couple are shown after the wedding in New York. They do not plan to send their kidnaper to jail this time. (I.N.R. photo.)

Marine Officer Calls Jap Revolver Bluff--- Put Those Guns Away!

Shanghai, Feb. 11 (INS)—At the time the Japanese bombs landed on the marines' billet today, a company of marines, in charge of Lieut. John Cook of Kentucky, and stationed in defense of the post, was assembled at the gate of the mill being photographed.

Had the bomb landed 100 yards north it undoubtedly would have wiped out 100 or more American marines.

At the time of the bombing other marines were within a few feet of the building, which was wrecked. They said they clearly saw the Japanese airplane release the bombs, some of the marines even asserting the Japanese "made no mistake," intending the bombs for this mill.

Others believe the bombs were intended for Chinese a few hundred yards across the creek, where, at all times of day, large crowds of women and children refugees are heading toward Markham Road bridge to enter the settlement through the marine lines.

Three Japanese naval officers arrived, demanding permission of the young lieutenant commanding the marines to inspect the damage.

Upon entering the office of the marine lieutenant, all three Japanese officers had revolvers in hand and their fingers on the triggers, the gun muzzles actually within a few feet of the American's chest.

Lieut. Cook's first curt words were:

"Put those guns away."

Three armed marine sentries who escorted the Japanese through the mill were instructed to see that they kept their pistols in their holsters.

Girl Sleuths Trap Nurse 'Raffles' in City Hospital

SOLVE SERIES OF MYSTERY THEFTS

Stolen Bottle of Wine Plays Important Part in Exposure of Culprit

A City Hospital student nurse has been exposed as a "Raffles" by girl detectives who mingled with students and maids in the hospital for two weeks seeking to solve mysterious thefts, it was learned today.

A bottle of wine, said to have been traced to her room from the quarters of another student nurse, played an important part in her exposure, it is understood. Lingerie and other missing articles were afterwards found in a closet in her room.

As yet no complaint has been made to the police and Miss G. M. Currier, superintendent of nurses, denied that anybody had been expelled, although, according to other attaches of the hospital, the girl in question had been dismissed from the nurses' school.

Placing of several hundred student nurses and maids under scrutiny was a radical move considered necessary by the hospital authorities in order to halt the series of thefts.

Miss Currier admitted that an investigation of thefts was going on, but denied that any action had as yet been taken. She said that every institution encounters a similar situation at one time or another.

Discovery by some of the students that detectives were among them caused considerable excitement, and for several days efforts have been made on all sides to learn who they were.

Whiskey 'Deposited' in Bank; It's Safe

Chicago, Feb. 11 (AP)—Josiah Mower's whiskey is safe. He keeps it in a vault in a loop bank.

The liquor was a matter of argument in the divorce suit of his wife Francenia. She was granted a divorce and a half interest for life in Mower's $200,000 properties, but it was agreed that the whiskey couldn't be turned over to Mrs. Mower because its transportation would be a technical violation of dry laws.

American Rancher in Mexico "Lost"

Mexico City, Feb. 10—American Consul W. P. Blocker reported that H. P. Taylor, American rancher, had been missing from his ranch near Casas Grandes, Chihuahua, since Jan. 27.

Taylor, in company with a Chinese, left Casas Grandes for Chihuahua City in an automobile. It is feared he might have been lost in the semi-desert area.

ICE-COATED STREETS TAKE TOLL IN DEATH AND INJURY

James P. Arthur, 25, of Eden st., Chelsea, was crushed to death when this load piled on top of him at the railroad bridge on Pope's Hill rd., Dorchester. His truck skidded on the ice-coated pavement and he became the sixth fatality due to ice and snow and uncleaned streets. (Staff photos.)

Many persons were injured, several fatally, as a result of the poor conditions of the streets and sidewalks of Greater Boston. But accidents were not all confined to sidewalks and streets. Edward Keane, of Charlestown, was walking on a ramp in a Charlestown playground. He slipped on ice and is at City Hospital with a broken ankle.

PREY OF PURSE SNATCHERS

MRS. IDA RAYMOND MISS BETTY MELLON

Handbag thieves made a mother and daughter day of it when they seized the purse of Mrs. Ida Raymond and then stole the purse of her daughter, Miss Betty Mellon. Both are of 11 Wardman rd., Roxbury. Their handbags contained only small sums.

ICE GETS MANY NEW VICTIMS

Among today's accident victims were:

CITY HOSPITAL

HARRINGTON, Mrs. Ella, 70, 54 Clarendon st., Back Bay. Fractured leg.

McMANUS, Mrs. Elizabeth, 54, widow, Meaks st., South Boston. Cuts and bruises.

YOUNG, Mrs. Elizabeth, 72, widow, Norway st., Back Bay, employe of the Christian Science Church. Fractured right thigh.

ERBSON, Miss Emma, 50, 37 Upton st., South End. Contusions of back.

HAYMARKET RELIEF

GARDNER, Mrs. Mary, 57, 38 Cook st., Charlestown. Sprained arm.

BRUNO, Sebastian, 42, 499 Salem st., Medford. Head injuries.

DI MORI, John, 21 Sewall st., Somerville. Arm injuries.

LINCOLN, Arthur, Stoughton st. pl., Dorchester. Head bruises.

Fopa, Walter, 34 Medford st., Chelsea, head injuries.

EAST BOSTON RELIEF

JOHNSON, Miss Josephine, 102 Cambridge ave., Cambridge. Abrasions, face and body.

CARNEY, James, 280 Saratoga st., East Boston. Fractured right ankle.

OTHER ACCIDENTS

GILLIS, Margaret, 9, 18 Reservoir ave., Revere. Treated by school physician.

McCULLOCH, Alexander, 75, Orange st., Chelsea. Dislocated shoulder. Chelsea Memorial Hospital.

WALSH, Miss Marion, Main st., Malden. One of three suffering injuries when two autos and a taxicab collided in North Shore rd., Revere. The others being:

McCARTHY, Miss Helen, Highland ave., Somerville.

GRIFFIN, Jeremiah, 67, Sachem st., Revere.

KULDELL, Miss Ethelyn, Wellesley Farmham. Newton Hospital. Possible fracture of skull. In auto of George Hamman, Harvard junior, struck by a trolley car in Wellesley.

BOY'S DAD ASKS 'THIRD DEGREE'

Desperate to find his son and another missing Harvard student, Joseph Stewart of Garden City, Kan., offered himself to a police "third degree" today.

Stewart is aiding police in a search for Floyd Stewart and Nathaniel Jones, both of whom disappeared from a Harvard dormitory in the early morning of January 31.

"I've told the police everything I thought might give them a clue," the distracted father said today.

"But there may be points that would help that I didn't even think to tell them.

"I would like to have the police put me through a third degree, fire questions at me—and they might bring out some point that will find my boy."

Investigators learned today that young Jones, whose home is in Billerica, aroused Stewart from his sleep on the morning of the disappearance after Jones left a party of friends.

Stewart, they said, slipped his outer clothing over pajamas and left in that dress with Jones that morning.

BODY IS FISHED FROM HARBOR

After an all-night search, the body of Steve Morgan, 29, of 230 Meridian st., East Boston, who slipped and fell into Boston Harbor from a pipe line when he attempted to walk from East Boston Airport to a sand-sucker, was found today by harbor police.

Late last night Morgan and Frank Bradley, 90 Princeton st., East Boston, both employed aboard a sand-sucker working on enlargement of the air field in East Boston, missed the row boat which makes hourly trips from shore to the lighter.

They began walking to the lighter on the pipeline and when about 200 feet from shore, Morgan slipped into the water. Bradley jumped in to rescue him but because of fog and darkness was unable to see him.

Morgan's body was identified by his brother, Chester.

COLL BURIED AT 'BARGAIN RATE'

New York, Feb. 11 (INS)—Vincent Coll, last of the killers to meet a killer's death, jolted through the thin fog that clung damply over the Bronx in the early hours today. He was packed in a cheap casket.

A chill dew clung to the five small wreaths that shipped and jolted on the coffin top. Three cabs with ten mourners rumbled behind.

The funeral cost $270, the advertised cheap rate.

If anyone had bothered to take the lead out of his worthless body most likely they would have found that the killers who shot him down in a drug store telephone booth last Monday had used bargain-sale bullets from a second-hand gun.

Even the underworld couldn't be bothered to give Coll a swell funeral. If they had been left the choice his friends might have thought a sack and a lead weight good enough for that "mad dog." But decent burial incompulsory, so the late Mr. Coll was put away with as little fuss and as little expense as possible.

SLUGGED WITH CAR JACK BY 'ABDUCTORS'

Fourteen Writers Railroaded Out of Town After Arrest as "Trouble Makers"

Knoxville, Tenn., Feb. 11—Allan Taub and Waldo Frank, two of 14 writers and journalists "abducted" by Pineville (Ky.) business men, arrived here early today, suffering the effects of a severe beating.

Frank had been beaten about the face and head and his skull was swathed in bandages. Taub's eyes were blackened, his nose was cut and swollen, and his face and head bruised and lacerated.

Taub and Frank are members of the writers' relief committee for striking Kentucky coal miners.

Their wounds had been dressed by Dr. Elsie Reid Mitchell, woman physician and writer, a member of the committee and one of those kidnaped.

BEATEN WITH JACK

Taub said he and Frank were ordered to get out of the kidnapers' car, when the Tennessee line was crossed. He said the abductors then slugged them. He believed they used a car jack.

The story of the kidnaping as related by the authors differs from the version given out by the police at Pineville.

Senator Alben W. Barclay was apprised by telephone of the affair and announced from Washington that he would take action if Governor Ruby Laffoon failed to make an immediate investigation.

Taub, a New York attorney, and other writers who took food and supplies to Bell County miners were arrested in their hotel rooms in Pineville and charged with disorderly conduct. After being arraigned in police court, where the charges were dismissed, Taub and Frank say there were all "kidnaped."

TWO LEFT IN JAIL

The writers left two of their group in jail. They were Harold Hickerson and Doris Parks, who were arrested on open charges when they addressed a mass meeting of striking miners, despite warnings of County Attorney Walter Smith.

Others arrested during the day and night were 19 men charged with disorderly conduct after a raid on the headquarters of the National Miners' Union and three youths arrested in a raid on a house where communistic literature was found.

Mayor J. M. Brooks, addressing the writers before they were run out of the county, told them their visits here "only stir up trouble and excite miners so that bloodshed may result."

He advised the writers never to return, and his advice was supported by city and county officials present at the arraignment.

Writers included in the exodus, besides Frank and Taub, were Malcolm Cowley, Edmund Wilson, Mary Heaton Vorse, Polly Boyden, Benjamin Leider, Dr. Elsie Reid Mitchell, John Henry Hammon, Linton Oak, Quincy Howe and A. M. Max.

Fair Skaters Winning Ice Honors in Olympic Tryouts on Lake Placid

GARNER GAINING STRENGTH IN CAPITOL

Washington, Feb. 11—The presidential stock of Speaker John N. Garner of Texas soared to new heights today when it was learned that anti-Roosevelt leaders were turning to him as the man best able to block the New York governor in the battle for the Democratic nomination.

Garner's elevation from the "native son" status occurred rapidly following Alfred E. Smith's statement of his "receptive candidacy" and the announcement by Jouett Shouse, national executive chairman, calling for the election of uninstructed delegates.

SEEKING DELEGATES

The chances of blocking the nomination of Governor Franklin D. Roosevelt of New York appeared to lay as much, if not more, in the movement for Garner as in the candidacy of Smith. Although Garner, it is understood, will not become an active candidate, his friends are beginning to organize to obtain the election of delegates favorable to his nomination.

Garner's candidacy will be launched at a meeting of Democrats in San Antonio, Tex., Feb. 22. His friends believe that he will enter the convention with the support of two state delegations, Texas with 46 votes and Louisiana with 20.

SUPPORT IN HOUSE

Garner's friends also intend to seek the delegates from Arizona and New Mexico, each of which will have six votes in the convention. These states are now claimed for Gov. Roosevelt.

Many Democratic colleagues in the House are urging the election of Garner delegates in their congressional districts, each district being entitled to two.

100 P.C. More Tax on N. Y. Incomes

Albany, Feb. 11 (INS)—A bill proposing an increase of 100 per cent on personal income taxes awaited action of the Assembly today. It has been passed by the Senate by a vote of 43 to 8.

Gov. Roosevelt recommended the income tax boost to help wipe out the state's $124,000,000 deficit.

Earlier in the day the Senate passed a bill increasing the stock transfer tax from two cents to four cents and boosting the gasoline tax from two cents to three cents.

Agreement Planned to Defer Debt Parley

Paris, Feb. 11 (AP)—An agreement between France and England on a formula for adjourning the reparations problem until June probably will be announced within the next day or so, the Foreign Office said today.

It was indicated the formula will explain why the Lausanne conference was adjourned last month.

Sen. Lewis on Ballot

Springfield, Ill., Feb. 11 (INS)—A petition placing United States Senator James Hamilton Lewis of Illinois on the state's presidential preferential primary ballot was filed with the secretary of state today.

SHOUSE'S MOVE CALLED RAP AT ROOSEVELT

Washington, Feb. 11 (US)—Chairman Jouette Shouse of the Democratic executive committee stirred up a hornet's nest today among the pro-Roosevelt forces by his unique plan for unpledged delegates to the Democratic national convention.

Supporters of Governor Roosevelt as well as many Democratic leaders inclined toward other candidates accepted the Shouse statement as an anti-Roosevelt move and by an official of the Democratic national committee at that.

While Shouse conceded that his idea was directed toward an ideal condition in the convention, whereby delegates would be free to vote for the candidate of the greatest ability and availability, he declined to explain or elaborate his statement.

The two chief Roosevelt advocates in Congress—Senators Wheeler of Montana and Dill of Washington—were vigorous in their denunciation of Shouse's statement. Others were more mild, but they expressed surprise that Shouse should take such a stand at this time.

In fact, the general opinion among Democratic leaders was that the Democratic national committee has assumed the leadership in the movement to "stop" Roosevelt. They are not sure, however, where the sympathies of the officials of the committee lie regarding a candidate.

Meanwhile, word was passed among Democratic leaders in Congress that despite Al Smith's statement that he is not a "candidate" for the presidential nomination, he will do nothing to prevent his friends in any state from picking delegations instructed for his nomination.

LIGGETT FIRM IN 15 MILLION SUIT

Los Angeles, Feb. 11 (AP)—Conspiracy to wreck the Owl Drug Company is charged in a suit filed in superior court by W. W. Hundman, a stockholder, in behalf of the concern. Hundman demanded receivership, declaring that otherwise the company is threatened with insolvency.

The suit is directed at the United Drug Company, Louis K. Liggett Co. and Drug, Inc., which allegedly acquired most of the common stock of the Owl firm beginning about January 1, 1930. It asks damages of $15,000,000 and an accounting of funds.

Ex-Gov. Byrd Arrives to Meet 'Al' Smith

New York, Feb. 11 (AP)—Former Gov. Harry F. Byrd, Virginia's favorite son in the lists for the Democratic presidential nomination, arrived in New York today to see former governor Alfred E. Smith and James A. Farley, chairm of the Democratic state committee and Gov. Roosevelt's unofficial campaign manager.

Byrd is the guest of Col. Henry Breckinridge, assistant secretary of war in the Wilson administration and close friend of Col. Charles A. Lindbergh.

Disarmament

Miss Emily Goodling, of Frederick, Md., has been awarded first prize in national editorial contest on the subject of disarmament. (International Newsreel photo.)

OPEN EVENINGS TILL 9

GOV. ROOSEVELT FACES PROBE

Albany, N. Y., Feb. 11 (INS)—Gov. Franklin D. Roosevelt's path to the Democratic presidential nomination, already beset by former Gov. Al Smith's brown derby, was made more difficult today by a Republican resolution creating a legislative committee to "tear the lid" off Roosevelt's administration of New York's State government.

A sweeping investigation of every state department, including Roosevelt's own office, is provided in the resolution jammed through the Senate by the Republicans over vigorous protest of the Democrats.

The Assembly will adopt the resolution next week and the investigation will get under way early in March, as soon as the Legislature adjourns.

It will be in full swing just at a time when Roosevelt is in the midst of his pre-convention campaign for the presidential nomination.

The Republican move to investigate the state government came with bomb-like suddenness to both Roosevelt and the Democratic legislators.

While the Senate Democrats resorted to every parliamentary maneuver they were unable to prevent adoption of the resolution. The vote was 27 to 21.

Wed 5 Times, All Bad

Los Angeles, Feb. 11 (INS)—"Good men are hard to find but I'm still looking for one," Mrs. Ortenca Walker declared today in obtaining a divorce from her fifth husband.

Personality Ranks First in Route to Heart of Co-Ed

Chicago, Feb. 11 (AP)—It's the personality route that leads to a co-ed's heart.

Personality ranked first in the list of male attributes listed by 12 women campus leaders at the University of Chicago.

Intelligence, athletic ability, good looks, conversation, dancing ability were next in the order named.

LEADS VERMONT SMITH FIGHT

Burlington, Vt., Feb. 11 (AP)—James E. Kennedy of Essex Junction, an old hand at politics and one of Vermont's leading Democrats, will follow the leadership of Alfred E. Smith.

Kennedy, who served as a national committeeman from 1916 to 1920, announced himself a candidate for delegate to the Democratic national convention and condemned the action of the Democratic state committee in endorsing the candidacy of Gov. Roosevelt.

"The privilege of deciding on a candidate for President belongs to the rank and file of the party," he said, "and I'm going out and fight for our rights."

Lon Chaney's Son Signs

Hollywood, Cal., Feb. 11 (AP)—There will be another Chaney in the movies, but he will not be known as "Lon, Jr." Creighton Chaney, son of the late Lon Chaney, signed a contract with Radio Pictures on his 25th birthday anniversary yesterday.

"I've smoked LUCKIES for three years"

A TINY LITTLE FOX

Sidney Fox is just a fraction of an inch under five feet and weighs all of ninety-four pounds. In her first movie picture, Sidney occupied the star's dressing room. She clicked immediately in UNIVERSAL'S "Strictly Dishonorable" and slays 'em in "MURDERS IN THE RUE MORGUE." Sidney has smoked LUCKIES three years. She's not only been kind to her throat, but also kind to the makers of LUCKY STRIKE in donating that friendly statement.

"I've smoked LUCKIES for three years. I've tried almost every other brand and found that LUCKIES are truly the only cigarettes that do not hurt my throat. Talking pictures make it even more important for an actress to keep her throat in perfect condition. And I think the new Cellophane tab is slick."

Sidney Fox

"It's toasted"

Your Throat Protection — against irritation — against cough
And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN ON LUCKY STRIKE—60 modern minutes with the world's finest dance orchestras and Walter Winchell, whose gossip of today becomes the news of tomorrow, every Tuesday, Thursday and Saturday evening over N. B. C. networks.

SENATE FACES SHOWDOWN ON DIRECT RELIEF

Washington, Feb. 11 (AP)—Uncertainty hung over the Senate today as it squared away for a vote on the most controversial issue of the session, direct relief for the suffering of the unemployed.

After a spectacular debate yesterday between Borah of Idaho and Fess, the administration stalwart from Ohio, the assurance of those who were so confident of defeating plans to spend from $375,000,000 to twice that sum in aid to the jobless, had noticeably lessened. But beaner side, nor the in-between ners, who sought to avoid "direct" aid while spending the money in job-producing fashion, were ready to concede defeat.

BORAH STIRS SENATE

Borah stirred the Senate as it has not been moved in years with an excitingly vivid demand for aid to the people now. Fess struck back, phrase for phrase, expounding again the oft-repeated Hoover principle that jobless aid is a local problem, that federal help is a dole.

Borah waved all this aside, holding fast to the point that there is a crisis requiring unprecedented effort to control. His voice thundered as he pronounced:

"A government which will not protect those who protect it, is flying a flag which is a dirty rag, contaminating the air in which it flies."

NEW DEBATE EXPECTED

A renewal of debate was expected at the session's outset, with the first vote, if reached today, on the Democratic proposal for a $750,000,000 combined road construction and loan to states plan.

This is the principal alternative offered to head off the LaFollette-Costigan $375,000,000 bill for outright disbursement to states handling relief work.

RUSSIA WOULD ABOLISH ARMS

Geneva, Feb. 11—Russia is looking with anxious eyes upon the Sino-Japanese hostilities in Manchuria and Shanghai, Maxim Litvinoff, Soviet commissar for foreign affairs, told the disarmament conference today, but nevertheless is willing to abolish armaments if other powers take the same step.

Litvinoff's speech followed that of Paul Hymans, Belgian foreign minister, who said Belgium supported the French program for an international army to preserve world peace.

Litvinoff declared the French plan was "impractical."

"Universal and total" disarmament he said is the only "infallible solution" of the problem of organizing peace, averting war and assuring security to the nations of the world.

The Soviet proposal for total disarmament was a reiteration of that made by Russia to the preparatory commission on disarmament. It was rejected by that body.

Former Head of Derry Schools Dead

Isaac H. Jones, former superintendent of schools at Derry, N. H., is dead in his 100th year at the home of his daughter, Miss Annie L. Jones, 4 Lincoln st., Lynn.

He was formerly a teacher in the schools of Cincinnati and New York city. He was the oldest living alumnus of Pinkerton Academy at Derry.

B. C. Debaters Meet U. of C. Team Tonight

The Fulton Debating Society of Boston College will meet the University of California team at the Hotel Commander, in Cambridge, in a debate sponsored by the B. C. Club of Cambridge, this evening at 8 o'clock.

POPE GIVES DUCE ROYAL HONORS IN FIRST MEETING

Continued From First Page

wore the insignia of the Order of the Golden Spur, to which he was recently admitted by Pope Pius.

Leaving the room, Mussolini beamed smiles of apparent satisfaction with the meeting.

Afterwards the Premier's suite, which included Minister of Justice Rocco and Count De Vecchi, Italian ambassador to the Holy See, were admitted to the Pope's presence.

RECEIVED LIKE ROYALTY

As in the case of receptions to royalty, Governor of Vatican City Serafini and counselor-general of Vatican City, Marquis Pacelli, met Mussolini at the door of the library when he arrived and ushered him into the presence of the Pontiff.

Because of the impending reception of Il Duce, the Pope had suspended all other audiences for this morning, and also suspended the usual procedure in force when receiving visits from the chiefs of a government.

After the audience and the attendant ceremonies were over, Mussolini, accompanied by Counsellor Pacelli, went to St. Peter's Church.

Great solemnity and colorful pageantry marked the proceedings, generally regarded as harmoniously welding the Vatican and the Quirinal, after a long-drawn-out feud from the moment Mussolini reached the boundary of Vatican City.

There was a salute by a picket of Swiss guards.

SEDARIS LINE PATH.

In the St. Damascus courtyard, Mussolini and his retinue were welcomed by a cape and sword chamberlain, who invited him to ascend the marble staircase. The path was lined by "Sedaris," attaches of the pontifical chamber, all dressed in bright red uniforms.

Mussolini himself wore the high uniform of a state minister, making an imposing figure as he went toward the audience with the Pope.

Reaching Clementine Hall, the premier's party was met by Monsignor Caccia and other dignitaries, who constituted themselves an escort on the way to the Pope's library.

Ten more rooms were traversed and all thronged by Swiss guard, Papal gendarmes, pickets of the Palatine guard and the Noble guards. All extended their characteristic salutes to the eminent visitors.

IN LITTLE THORNE HALL.

In the Hall of the Little Throne, Mussolini's retinue was asked to wait while Il Duce himself was conducted to the library where Pope Pius XI awaited him.

A double red damask curtain and another of moorish design were drawn after Mussolini had entered the library, and shut the two from the view of all those present.

No one will ever know what these two said to each other, or whether the meeting was purely a formal one or was made the occasion for a candid exchange of views.

Following the audience with the Pope, the Premier presented to the Pontiff those who had come with him. Afterward, Mussolini talked for 20 minutes with Counselor Pacelli in a room on a floor below that on which he had talked with the Pope.

Immediately after the motor cars with the Premier's party left Vatican City, Cardinal Pacelli went to the Palazzo Venezia to return the Mussolini call.

THIRD VISIT TO VATICAN.

Mussolini has been twice before publicly in Vatican City. He went there June 6, 1929, for the exchange of ratifications of the treaties and to hand over the voucher for $92,000,000 to compensate the Pope for loss of property and income during the 58-year hostility.

Again Mussolini went to St. Peter's April 24, 1930. Rome's birthday, but more important then, the marriage day of his daughter Edda and Galeazzo Ciano, son of the present minister of communications. Mussolini, like others of the party of 15, crossed himself with holy water, kissed the toe of St. Peter's statue and knelt at the altar. As he entered and left, tens of thousands, massed on either side, gave him the Fascist salute.

ALL ITALY CELEBRATES

The third anniversary of the signing of the Lateran treaty between Italy and the Vatican was celebrated today throughout Italy as a new national holiday.

Stores were closed and the tricolor hung from government buildings. In the Vatican the Swiss guards and Papal gendarmes were in full uniform, and the Papal flag of yellow and white hung from the medieval structures.

The peace between the papacy and the kingdom secured by the Lateran Treaty of 1929 was rudely shattered last summer and then cemented by more recent events.

The rupture came over the Fascist conflict with the Catholic Action Society because of the society's alleged political activities.

This was smoothed over by the accord of September. The Catholic Action agreed to accept no leaders who were not pleasing to the Fascists, to keep out of politics and to decentralize; that is, to come under the authority of diocesan bishops instead of the central authority in Rome. In return the Fascists permitted the Catholic action clubs to re-open.

Several weeks ago the Pope gave further evidence of the reconciliation by decorating Mussolini with the Order of the Golden Spur, and Foreign Minister Dino Grandi with the Order of Pius IX.

DEERFOOT FARM SAUSAGE

Preferred by those who enjoy the best

DEERFOOT has made its reputation on *quality*. The finest cuts of roasting pork are used. To conserve the flavor, the meat is shopped instead of ground. Deliciously seasoned. "Fresh from the farm in New England."

A DIVISION OF NATIONAL DAIRY

FLAVOR in every golden drop

The same unequaled flavor and superior quality that have made it the standard seasoning for 68 years, improves the taste of almost everything you eat.

CONFERENCE IN LABOR FIGHT

Acting Mayor Edward C. Gallagher today moved to prevent a strike in the cloak and dress industry, which would involve more than 3500 men and women.

He has called a conference at 10:30 tomorrow morning at City Hall with representatives of the joint board of the International Ladies' Garment Workers' Union and representatives of the Dress Manufacturers' Association.

Jacob Halpern, international vice-president of the I. L. G. W. U., has accepted the invitation. He called a special meeting of the joint board to select a committee to accompany him.

RITCHIE IN PLEA FOR BIGGER ARMY, NAVY

Baltimore, Feb. 11 (AP)—Gov. Albert C. Ritchie today called on the United States to maintain adequate armed forces to protect the nation in the face of a world giving every indication of preparing for another war.

Standing at the foot of the first monument erected in honor of George Washington, Maryland's Democratic presidential candidate issued his plea over a nation wide radio system in opening his state's celebration of the Washington bicentennial.

Declaring the armed forces of the nation are far below proportion of the national defense act, he pleaded not to weaken them further.

"A military system adequate for our national defense threatens nobody, but it does assure safety to our people and possession, due regard for our self respect and neutrality and our effectiveness as a factor for world peace," he said.

"If anyone doubts the need of an adequate navy, let him remember the World War could not have been won without the British and American fleets. Let him look to the Far East, and wonder if tomorrow or the day after the lives and safety of Americans may not rest solely on blue jackets.

"Our army is at an irreducible minimum, far below that provided by law.

"By all means, let the nations of the world meet at Geneva to consider disarmament. Let our representatives there find out on what theory European countries think they cannot afford to pay their just debts to us, while they can pay huge sums on armaments which are an incentive to future wars.

"We see a world which has just emerged from the most destructive war in history giving every indication of preparing for another one."

JAP MARINES LANDING AT SHANGHAI

Latest photo from Shanghai shows Japanese marines landing from cruisers anchored in river just before the attack on the Chapei section of the city. Note machine guns mounted on docks. This photo was rushed to San Francisco by airplane and ship and transmitted from there to Boston by International Newsreel photo.

U. S. WARNED OF WAR TANGLE

By HOBART C. MONTEE
International News Service Staff Correspondent

Washington, Feb. 11 (INS)—A demand that the U. S. government evacuate its citizens from Shanghai at the earliest possible moment appeared gaining in momentum in Congress today.

Representations already have been made to Secretary of State Stimson by Senator Borah (R.) of Idaho and other members of Congress who have called attention to the danger of the United States being embroiled in a war in the Far East if American citizens should be killed in the spread of the Sino-Japanese fighting.

Administration officials admit the imminent possibility of the war being carried into the International Settlement. The Japanese are massing huge forces for a concerted drive on the Chinese troops, both at Woosung and in the Chapei district.

Military experts believe the strategy of the Japanese is to drive down on the Chapei district to catch the Chinese defenders between the American troops and the Japanese.

The Chinese then may attempt to break through the American lines into the settlement as an avenue of escape. If the Americans resist they may be embroiled in the war. If they were to permit thousands of armed Chinese troops to pour into the settlement, a catastrophe might result.

Shidehara Near Death in Japan

Tokio, Feb. 11 (US)—A serious malady today brought Baron Kijuro Shidehara, former foreign minister, and last of a powerful group of statesmen who advocated amicable relations with the United States, close to death.

Baron Shidehara is suffering from cerebral anemia. Physicians described his condition as "most critical." His illness was not disclosed until yesterday.

JAPS KILL 51 REFUGEES

Shanghai, Feb. 11 (AP)—Charges that Japanese aerial bombers killed 51 Chinese flood refugees, men, women and children, in a refugee camp in Chapei last week were filed today with Japanese Consul-General Murai by Sir John Hope-Simpson, director of the National Flood Relief Commission.

The bombardments, Sir John said, occurred Feb. 5, 6 and 7.

In the first raid, he said, a woman and a boy were killed and four other Chinese, one of whom died, were wounded.

Next day, he said, the planes again dropped bombs, killing 48, many of them women, and mostly patients in the camp hospital. The planes returned twice on February 7, he said, and bombed the camp, but the refugees had been evacuated the night before.

"This bombing was worse than a crime," the statement said, "It was folly. It could not possibly have had any military advantage for the Japanese."

Auto Taxes Unpaid

Automobile owners owe the town of Wakefield $9756.99 in unpaid excise taxes, town officials say. Last year's unpaid excise taxes were more than double those of the previous year.

PRIEST ARRANGES TRUCE

By MORRIS J. HARRIS
Copyright, 1932, by the Associated Press

Shanghai, China, Feb. 11 (AP)—A four-hour truce, from 8 a. m. to noon tomorrow, to permit foreigners to take non-combatants out of Chapei, was arranged by a French priest today as both the Chinese and Japanese continued to dig in for a major engagement along the Chapei-Woosung battle line.

Hostilities in Chapei will come to a halt to permit 30 foreigners bearing white flags to get into the Chinese native city. Under a Japanese escort they will carry out women and children and wounded found trapped in that shell-torn no man's land.

Father Jacquinot of St. Francis Xavier's College was credited with effecting the truce, the first cessation of hostilities in the zone. It was believed many citizens were still trapped there, survivors of the almost two-weeks of constant bombardment.

The French priest lost an arm at Verdun and holds a medal for heroism in that World War engagement.

'Red' Long, Waltham Star, to Wed in Maine

Lewiston, Me., Feb. 11—Ralph H. "Red" Long of Waltham, Mass., a junior at Bates College and All-Maine guard on the football team, today filed intentions to marry Isabelle Conley Worcester of Mt. Desert Island, a former classmate at the college.

Long was a football star at Waltham High.

JAP ADMIRAL APOLOGIZES

Tokyo, Feb. 11 (AP)—Admiral Kichisaburo Nomura, Japanese naval commander at Shanghai visited United States marine headquarters there immediately after the bombing of the marines' billet in a settlement cotton mill today and expressed his regret over the incident, the navy office announced.

Minister of the navy Admiral Osumi also issued a statement in which he said he regretted profoundly the aviators' error which, he said, will be thoroughly investigated and punishment administered to those blamable.

The reports of the incident received here indicated the bombing plane took off from one of the aircraft carriers

SALES TAX PLAN GAINS FAVOR AS VOTE NEARS

Washington, Feb. 11 (INS)—The House ways and means committee today prepared to choose between a manufacturers' sales tax and reenactment of war-time stamp and excises as a means of rounding out a $1,240,000,000 tax increase progra.

Committee sentiment turned strongly to the sales tax following a discussion behind closed doors.

All tentative tax plans of the Democratic majority had been upset by the revised treasury estimates, showing that $1,240,000,000 instead of $920,000,000, was needed to carry out the budget balancing plan.

Having virtually determined that not more than one-third this amount can be raised by income taxes, the committee sought other means of raising nearly $800,000,000.

A one per cent manufacturers' sales tax, similar to that in Canada, would produce $800,000,000 a year, it is estimated, if there are no exemptions.

The sales tax, called "a penless tax" in Canada, was being urged not only because of the revenue but because it would spread the burden.

The Treasury estimated revenue from a five per cent automobile tax at $121,000,000 on November figures and $100,000,000 on February figures. A similar drop from $135,000,000 to $110,000,000 on the proposed admissions tax was reported. Cigarette tax estimates were unchanged.

BEST CONTRACT HANDS

A series of selections by bridge stars of the best illustrations in their careers of precise bidding and excellent play. No. 1—Shepard Barclay.

New York, Feb. 11 (AP)—One of the bridge master's greatest thrills, whatever the result of a hand, is the correct deduction, immediately after the dummy is down, of the number of cards of each suit held by partners and opponents. In a duplicate tournament Shepard Barclay and partners once had top score for a particular board because his ability at card reading enabled him to make a better defense.

The hand:

NORTH
♠—Q J 10 9 4 2
♡—8
◇—7
♣—A K 10 6

WEST	EAST
♠—K 8 6 3	♠—3
♡—10 7 5	♡—8 3 2
◇—Q J 3 2	◇—K 10
♣—9	♣—Q J 8 4 2

SOUTH (Dealer)
♠—A 7
♡—A K 6 4
◇—A 9 6 5 4
♣—7 3

Sound bid one no trump, his partner two and South then went to three, which became the contract. West and East did not bid.

West led the five of spades. It was obviously of the fourth highest of his best suit. Barclay noted the four and two of spades in he dummy and the three in his own hand. It was clear to him, therefore, that West had four spades since if West had a five card suit he would have led from that.

A look at the clubs in his own hand and dummy showed Barclay that the declarer had only two clubs. Ten clubs were in sight. If the declarer had all three missing clubs West would have none and necessarily would have had a five card suit and led from it. West therefore had only one club, four spades, four hearts and four diamonds. Declarer held two spades, four hearts, five diamonds and two clubs.

The first trick was won by south with the ace of spades. He led the seven, which was won by west with the king. West attacked the heart weakness in dummy, leading the five. Barclay played the nine spot to show his partner he had four hearts and would protect them and that west should protect diamonds if possible.

After dummy won the second trick with the queen of hearts four spades tricks were taken. Barclay discarding two clubs and the king and ten of diamonds. Dummy then cashed the ace and king of clubs and led to the south hand. South played the ace of diamonds and ace and king of hearts. On the last trick he had the six of hearts left. Barclay took the trick with the eight.

The declarer made five no trump. At all tables in the tournament except Barclay's six no trump was made by the holders of the north and south cards, including Barclay's partners in a team of four thus giving Barclay's team top score.

FORD'S NEW '8' TO BE SHOWN IN MARCH

Detroit, Feb. 11 (AP)—Henry Ford today confirmed reports that he is soon to bring out an improved four and a new eight cylinder car. He said the chases of the new models would be constructed to permit installation of either four or eight cylinder engines.

Mr. Ford in an interview confirmed reports that the new car would be of longer wheel base, lower hung chasses and heavier. Production will start this month, the first public showing to be early in March, he said.

Although Ford did not indicate what price changes if any would be involved, his confirmation of the reports definitely relieved the uncertainty that had existed in trade circles.

Many leading automobile executives have held there could be no definite upturn in the automobile industry until Ford's plans were disclosed.

The new line of Ford cars, it is understood, will consist of 10 models, all of which will continue in the low price field.

Ford expressed hope materials manufacturers would not "begin to raise prices" coincident with increasing activity upon the part of manufacturers.

"If American manufacturers do their utmost to start the wheels of industry and the material men begin to raise prices the whole effort may be throttled," he said. "In times like these everyone has to take some risk, make some sacrifice and even he willing for a time to do business without profit in order to start the normal processes of industry and business again."

Pope to Broadcast at 6 A. M. Tomorrow

Vatican City, Feb. 11 (AP)—Pope Pius will broadcast a message to the world tomorrow on the occasion of the tenth anniversary of his coronation. The celebration at St. Peter's also will be broadcast.

Nothing has been said about the nature of the pontifical message, but it probably will be in Latin and will go on the air about noon, (6 a. m., E. S. T.).

COLD DOESN'T INTERFERE WITH LECTURER

Speaking tonight in a warm theatre, and tomorrow in a damp, chilly hall. Traveling every day in drafty trains, out in all sorts of weather. Professional men and women catch colds, but they know how to throw them off!

Anyone can knock the worst cold—without "doping." Pape's Cold Compound does it—every time. It's in tablet form; no trouble to carry or to take. You stop sneezing. You stop coughing. Eyes cease to water; your nose doesn't run. All druggists, 35c.

WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food don't digest. It just decays in the bowels. Gas bloats you, your stomach is sour, you have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at all stores. © 1931 C. M. Co.

COLDS

RUB Musterole well into your chest and throat—almost instantly you feel easier. Repeat the Musterole-rub *once an hour for five hours* . . . what a glorious relief!

Those good old-fashioned cold remedies—oil of mustard, menthol, camphor are mixed with other valuable ingredients in Musterole to make it what doctors call a "*counter-irritant*" because it gets action and is not just a salve.

It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by many doctors and nurses. All druggists.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

MUSTEROLE
BETTER THAN A MUSTARD PLASTER

PILES

All suffering and discomfort stops at once — the minute Pyramid Pile Ointment is applied — or money back. Send guarantee in package. Ready tube 75c, or box 60c.

PAZO OINTMENT

PSORIASIS

is a stubborn skin disease. I suffered with it for years. Write R. S. Fyffe, Covington, Ky.

DOCTORS WOULD OUST BEVAN

Chicago, Feb. 11 (INS)—Testimony given last week before a Congressional committee by Dr. Arthur Dean Bevan, nationally known surgeon, today resulted in charges being filed with the ethical relations committee of the Chicago Medical Society.

The committee has power to recommend expulsion.

Dr. Bevan testified 90 per cent of liquor prescriptions were for bootlegging purposes, adding that the additional yearly income of $1200 is a temptation most physicians could not resist.

He is former president of the American Medical Association and chief of staff of Presbyterian Hospital.

3 ARE HELD IN FIEND SLAYING

Philadelphia, Feb 11 (AP)—The police manhunt for the fiend who kidnaped and killed seven-year-old Dorothy Lutz, led today to the arrests of two negroes.

Another man, Michael Mantycha, who lives less than 100 yards from where the girl resided, was arrested last night at his home. He was taken into custody after a woman reported he had been loitering around the unoccupied house in which Dorothy's body was found Monday.

Burglars Carry Off Safe Containing $50

Burglars entered a restaurant at 578 Columbia rd., Dorchester, by forcing a rear window and carried off a small safe containing $50 to $60.

The break was discovered by Patrolman Raymond Clifford of the Dudley st. station while patrolling his beat.

Police secured a number of fingerprints and these are being checked with records at headquarters.

Geneva Spoils All Our Wars

—By ARTHUR "BUGS" BAER—

Now we're back again in Geneva listening to the pesecifiers directing international affairs by remote control.

The diplomats want to do away with the horors of warfare, including second lieutenants and army underwear.

France, England and Germany agree to discard big tanks. The smaller ones are faster anyway.

There will be no more poison gas. The gin-fissolas and the aromatic-gasorkas will come to grips and breathe on each other.

Those deadly spurs are also ruled off the turf. They scratch the desks in the war office.

You cannot drop a mest ball in your soup. That violates the treaty of depth bombs.

No more bacteriological straing. That means raising a young germ to hate the enemy. From now on, the cootie must be neutral.

You cannot poison a well, bomb a hospital or burn an orphan asylum.

All of which will make war unattractive by robbing it of its picturesque romance and hallowed glory.

(Copyright, 1932. Distributed by Universal Service, Inc.)

SOCIETY FOLK STILL TALKING ABOUT CHARITY-POVERTY BALL COSTUMES

JOHN TAYLOR LILLA DRAPER EDMUND FAULKNER — *LILLA DRAPER had plenty of ex corts at the Charity-Poverty Ball held at the Hotel Somerset Tuesd ay night, John Taylor and Edmund Faulkner among them.*

BABETTE MORISON BOBBY JONES — *BABETTE MORISON and Bobby Jones had a grand time as they mingled among the hundreds who attended the ball.*

RICHARD LYMAN ELIZABETH WELLS — *ELIZABETH WELLS, charming bakery assistant, got plenty of help from Richard Lyman, clad in overalls.*

JANE BANCROFT RICHARD HEFF — *JANE BANCROFT and Richard Heff went strong for checkered garb and joined in the jamboree fun.*

Military Mode Latest for Children

By DOROTHY ROE

"New York, Feb. 11 (US)—I'll take what mother takes."

That's the decision of small daughter these days, when faced with the selection of a new spring wardrobe.

Children's clothes that have just arrived from Paris follow faithfully the military mode that dominates adult styles this season.

Broad shoulders, brass buttons, revers and epaulettes are seen in all the fashion headlines for the much-younger set.

The girly little girl of yore, with her ruffles and embroidery and sashes and curls has given way to a smartly tailored young lady whose small coats and frocks are designed with the same care as are mother's.

Tailored lines are seen in correct clothes for children.

Corduroy and velveteen have staged a comeback in children's spring coats, berets and two-piece play suits.

Instead of the traditional rabbits and chickens and ducky-daddles, children's clothes are adorned nowadays with military insignia and brass buttons.

Edison Memorial Is Held in Florida

Fort Myers, Fla., Feb. 11 (AP)—This little city where Thomas A. Edison made his winter home and carried on many of his most important experiments today held its first memorial service commemorating the inventor's birthday.

Two hundred school children prepared a bank of flowers to decorate the Edison monument in Evans Park, and Dr. Ludd M. Spivey, president of Southern College, was principal speaker at the exercises.

BEACON HILL

—by—

Betty Alden

TRUE STORY HOUR: ON FRIDAY EVENING MR. AND MRS. BEACON BOSTON, one of our oldest and dullest families, gave a dinner party for their debutante daughter, Beatrice, a wraith of her feminine ancestors. They asked five of the season's most attractive buds, which assured success of the affair for the six Harvard sophs for whom it was really given. It also assured the success of Beatrice at an ensuing ball—five compulsory partners—while the sixth was heard to murmur in the stag line which waited on Bea that he was not in the habit of paying for his dinner in private houses.

• • •

MR. AND MRS. NOT-QUITE-IT HAVE A BOX AT the opera for the season. They may be seen every evening with a group of guests from the f. f. p. b. (fine families of Boston). Mr. and Mrs. Not-Quite-in-It have done remarkably well in a short time—they were practically, in fact, entirely unknown a few years ago. With tenacity of purpose and a knowledge of human nature, they kept inviting those to their parties who just as persistently refused their invitations, but the lure of lavishness has been known to break down the resistance of greater than these. Now Mr. and Mrs. Not-Quite-in-It are showered with invitations from Mr. and Mrs. On-the-Fringe, which they as persistently refuse. Fascinating game.

• • •

Their Domicile Is Popular

YOUNG MR. AND MRS. CHARLES CHESTNUT ARE established in a charming house in Charles River sq. Their domicile is the rendezvous for the smart about-to-be-unmarried set. Husbands hurry away from business to look over the current market in advance and the cocktail hour is often prolonged into the breakfast hour.

• • •

A Little Error

MR. MAN - ABOUT - TOWN, one of the bees of Boston, was conspicuous the other evening for his attentions to a most attractive young lady. "At one particularly ardent moment he was tapped on the shoulder and asked to notice a glowering young man in a corner. He did—to discover that the above-mentioned was the attractive young lady's husband. Mr. Man-about-town suggested a discussion of the subject, which took place over many highballs. At one time he remarked to friend husband that he should be shot for taking such a lovely person out of circulation. Mr. Man-about-town told the judge the next morning that he remembers nothing further—and prefers NOT to be quoted.

• • •

A Quiet Party

MR. AND MRS. WEST CHESTNUT threw a quiet little party last Saturday night—their usual quiet party. Some excitement was provided for the guests when Mr. Gwladys Smith became annoyed with Mr. Pansy Jones for taking Mr. Brown's fiancee out for a bite of something and not returning for quite some time. The subsequent battle caused considerable damage to the West Chestnuts' crystal and glass, not to mention their reputation, which was already chipped. The combatants being summarily expelled, the evening went well until Mr. Gin-and-Bitters tipped over his highball onto the bridge table for the third time. He was reminded that it was getting late for helpless infants to be out and put everyone at their ease by leaving immediately—except his opponent at bridge, to whom he was indebted to the tune of about a hundred dollars. There will probably be a meeting of the Beacon Hill Clubbers to see what shall be done about it in case his memory fails to return with consciousness.

• • •

Indoor Horse Racing

BOSTON LIKE THE REST OF New England, seems to have gone completely horse-minded. From March 26 to April 2 there will be indoor horse racing at the Boston Arena, the meet featuring running, jumping and novelty horse races. The proceeds will go to the Burroughs Newsboys Fund founded by a boy who became a successful lawyer to provide shelter, food, clothing, medical treatment and recreation for Boston newsboys. Horse owners and breeders of greater Boston are evincing unusual interest.

Wells Memorial Institute to Benefit

The Junior League ballroom will be the scene of an original and unusual entertainment next Wednesday evening, Feb. 17, when a series of old-fashioned moving pictures are shown. This affair is for the benefit of the Wells Memorial Institute, and is entitled "Hits of the Past."

Included among the sponsors, who are also trustees of the institute, are Miss Peggy Hinckley, Miss Sylvia Warren and Miss Harriet White, and the Messrs. Chandler Bigelow, William Power Blodgett, Henry B. Cabot, Jr., Henry C. Everett, Jr., Arthur L. Hobson, Jr., John S. Parker, Henry Sargent and Robert G. Stone.

Several dinner parties will probably take place at the league preceding the movie, which begins at 8:30 o'clock. Tickets for it are on sale at the Dartmouth Book Stall.

Show for Children

The children of Junior League members will have the chance of seeing the Players' new production, "The Knave of Hearts," and "The Princess and the Pixies," two short fairy tales, on Saturday morning of this week, before they are taken on a round of hospitals to be shown in the children's wards.

Mrs. Charles Terry Collens (Eleanor Perkins), will direct the group of ushers, assisted by Miss Virginia Taylor and Miss Harriet White, and including Miss Mabel Bell, Miss Eleanor Fabyan, Miss Peggy Hinckley and Miss Jane Locke. The 13th, at 10:30 o'clock, in the Junior League ballroom, Zero Marlborough st.

In summer, however, they tour all the resorts, staying in each usually one day only, camping at night and then moving on to the next.

Saturday's one day show is sponsored by a number of interested women, headed by Mrs. Arthur A. Shurcliffe.

Springfield Couple Wed for 70 Years

Springfield, Feb. 11 (AP)—Mr. and Mrs. Frank Dumas today celebrated the 70th anniversary of their marriage. Natives of Canada, they have spent most of their lives in Malone, N. Y., where they still reside summers.

The last 10 years they have spent the winter months with a son-in-law and daughter here. Both are well and active. They have ten living children.

New York Library Gets Tikytt Psalter

New York, Feb. 11—The Tikytt Psalter, illuminated 14th Century book of the Lothian collection which was sold at auction for $81,000 by the American-Andersen art galleries, has been acquired for the New York Public Library.

BOOKS—and a Number of Things

By CHARLES HANSON TOWNE

WEEKLY GAZETTE

Monday, February 1st: Wakened, after a troubled sleep, feeling more wretched than ever before in my life, though the pain of my acute indigestion had subsided. My doctor could not account for this violent attack, neither could I, for I had not partaken of any food, such as lobster and ice-cream, to bring on so dreadful an illness; so I supposed, philosophically enough, that just as some people have brown eyes and others have blue, some of us are subject to certain maladies. And I let it go at that. Rose late, and got to my desk, but the doctor would not hear of my going out.

In the evening three friends came in, and Pearl prepared a dainty dinner, but I could not eat much of it, having no sense of taste. Then Florence Nash, the actress, said it would do me good to play a rubber or two of bridge; and so, with Bobby and Peggy Buechner and her, I tried it, and found that I felt better for the mental stimulation. They left early, and I fell into a peaceful slumber along about eleven o'clock.

• • •

Tuesday, Feb. 2d: My birthday, and it was snowing, and the groundhog would not see his shadow. But again I did not go outdoors, and only read and wrote and deplored the encroaching years, and vowed that hereafter I should go in for birthday control. Engrossed in the articles in Collier's Weekly, written by Gene Tunney, and knowing him as I do, I was not at all amazed that he expressed himself on paper so easily and well.

Restless all day at being confined in the house, and rejoicing when, in the evening, Gretchen and Tom Finletter, Marian Hall, Julia Weldon and Merton Powell came in to dine with me. And each bore beautiful gifts for me, and Pearl, my maid, had made a great birthday cake on which were 18 candles, and lighted a roaring fire.

• • •

Wednesday, Feb. 3: Awakened early, completely restored to health and strength, and worked diligently all morning. Then to a small luncheon at Elizabeth Mitchell's, and was much touched when a birthday cake was brought to the table, as I had no idea that anyone knew yesterday was my natal day. Downtown to my office, which I had missed sorely; and in the evening to a large dinner at Mrs. William Woodward's, and played contract for larger stakes than ever before, and came out victorious, much to my amazement. Home early, seeing Dorothy Draper to her door.

• • •

Thursday, February 4th: Arose with the lark, though I could hear none singing in our crowded city, and then to the Coffee House for lunch, craving the society of some of my old friends. In the evening, to dine at Polly Hare's, and Dick Knight came an hour late, but redeemed himself afterwards by playing excellent bridge. Saw Eunice Maynard safely home.

• • •

Friday, February 5th: Mary Canfield to lunch with me, and she told me of her recent trip to California, and I longed to go there again.

In the evening to Brook Kuser's, and Arthur Krock there, among others, and he told me that soon he will go to Washington as a special correspondent; and no one in New York will be more greatly missed. Played a new game, called Racketeer, with George Jean Nathan, Lillian Gish and the beautiful Mrs. Sears of Boston, and found myself most skilful at it.

• • •

Saturday, February 6th. At work all morning, until the piano tuner arrived, and I was driven out because of him. To lunch with Lady Vi, and then to hear Beatrice Lillie at the Palace Theater.

In the evening to dine with Fritz and Phoebe Aspinwall, and they showed me some photographs of their farm in Connecticut, and I grew wistfully sad thinking of the approaching spring, and wondered if I could find another "Shingle Blessedness" this year

COLE SLAW
**GOLDEN FRUIT TARTLETS

"WINNER WIENER ROAST"

1 large can tomatoes . . . 1 teaspoon sugar . . . 1 teaspoon onion (minced) . . . Few grates ground cloves . . . 1 tablespoons cheese . . . 26 Premium Soda Crackers (crumbled) . . . 6 tablespoons butter . . . 1 lb. frankfurters . . .

Boil together for five minutes tomatoes, sugar, onion, cloves and cheese, then add crackers and butter and continue cooking for 10 minutes longer. Meanwhile, broil frankfurters. Turn cracker tomato mixture into a buttered baking dish, arrange frankfurters on top and set in a hot oven (425° F.) until browned. 6 portions. Preparation—15 minutes.

**GOLDEN FRUIT TARTLETS

Line tart pans with a mixture made of 12 Uneeda Graham Crackers crumbled fine, ½ cup softened butter and 1 tablespoon sugar. Fill with the following mixture: Put 1 cup dried apricots through a sieve and mix with ½ cup sugar and 1 beaten egg yolk. Bake in hot oven (425° F.) 10 minutes. When cooked, top with meringue and return to slow oven (325° F.) to brown. 6 portions. Preparation—10 minutes.

How Does a Woman Champion Manage?

Women champions cannot have "off days." Day after day of practice and play, and matches that permit no postponements. Then how do they manage during these trying times when other women are sunk with pain? They meet these periodic emergencies with Midol, and they don't ever experience a twinge of periodic pain.

Harmless as it is, a Midol tablet blocks all possibility of periodic pain for hours at a stretch. It isn't a narcotic. But it acts in seven minutes. Just ask the druggist for Midol.

School Holds Big Kick for Mechanically-Minded Students in Roxbury

ROBERT KEAY LIBORIA MOSETTA

HAND-MADE GIFT FOR MOTHER
Moore Dodge, sixth grade pupil at the Dudley school, Roxbury, shows the table lamp he made for his mother in his manual training class.

EXHIBIT SAMPLES OF HANDIWORK
Robert Keay, eighth grade, goes in for tool making and turns out screwdrivers and other gadgets while Liboria Mosetta, seventh grade, who has a fondness for aviation, experiments with the subject by building model planes.

NEW ORNAMENT FOR HIS HOME
Harold Carlson, eighth grade, established himself firmly in the family's good graces by giving his mother this wrought iron lamp, made at school. (Staff photos.)

BOYS EXPERT CRAFTSMEN

It doesn't read right, but it's a fact that boys in the Dudley school, Roxbury, enjoy classes.

Well, maybe not arithmetic or history classes, but manual training classes are O. K. with them.

EXPERT CRAFTSMEN

William L. Phinney, principal, invited mothers to attend an exhibition of their children's handiwork and what they saw won many a boy an extra helping of dessert at dinner.

Table lamps, hat racks, steel tools, knives, boats, model airplanes, wooden chests and toys, all hand made by pupils of the sixth, seventh and eighth grades, were displayed.

REMODELS LAMP

Moore Dodge, 11 of the sixth grade, gave his mother a beautiful table lamp. Charles Vicker, 13, an eighth grade pupil, salvaged an old oil lamp from the cellar, took it to school with him, and now it's back on the parlor table as an electric lamp.

Harold Carlson, 13, an eighth grade pupil, had a wrought iron table lamp on display; Liboria Mosetta, 15, of the seventh grade, a model monoplane; Robert Keay, 13, an eighth grade pupil, displayed tools, and Joseph Staniford, 13, of the eighth grade, exhibited a coat rack.

George E. Crabtree, Alf Munnick and William R. Dougherty are the manual training instructors at the school.

Hospitals Urged for Women War Vets

Washington, Feb. 11—A woman member of Congress, Rep. Florence P. Kahn, on the military affairs committee, is asking a veterans' hospital for "disabled women veterans of all wars."

She introduced a bill yesterday for a 250-bed hospital to cost $1,000,000 in her own state—California—to treat women patients only.

MAN BANNED BY TWO COUNTRIES

Apparently destined to be another "man without a country," Sergei Volenkoff, a 24-year-old Russian, is being detained at the immigration station in East Boston, awaiting deportation. The young man arrived yesterday, a stowaway on the Norwegian steamer Horda.

He stowed away on the ship at Genoa, Dec. 17, and thereby piled up a lot of grief for Captain Garmann. To the commander's surprise, the authorities at the Russian port refused to permit Volenkoff to land there, and Captain Garmann had no alternative but to bring him back to the United States, only to have him barred here.

Now the problem is, whether Volenkoff stays indefinitely on board the Horda, or be allowed to land at some European port, possibly Genoa, whence he came. In any event, the authorities here have decreed that the youth cannot enter this country.

Mother of Victim to Control Estate

Despite the fact that her husband, John H. Conley of Somerville, opposed the appointment of his wife as administratrix of the estate of their daughter, Kathleen L. Conley, a Dedham high school student who was killed a year ago in an auto accident, Mrs. Catherine L. Conley of Dedham, the mother, was appointed by Judge Joseph R. McCoole in Norfolk Probate Court.

Store Manager Robbed of $25

Walter Holt, of 74 Regent st., Roxbury, a chain store manager, was held up while walking along Mt. Pleasant ave., Roxbury, last night, and robbed of $25. The robber displayed a revolver which he pressed into Holt's stomach to enforce his demand.

Salesman Held on Bad Check Charge

Charged with the theft of $15 by means of two worthless checks, Manuel Dias, 25, a salesman, of Highland ave., Somerville, was arrested by Special Officer George Mullen of Newton.

It is alleged that Dias presented the checks to Joseph Dooley, a Weston attorney, as loans, and that the latter cashed them at the drug store of Theodore Dangelmeyer in Auburndale.

Pilot and Student Killed in Crash

Muncie, Ind., Feb. 11 (U.P.)—Plunging from an altitude of 1000 feet, Paul Peters, 24, and Jacob Heaton, 22, were instantly killed in the crash of their plane near the Silver Fox Airport here late yesterday.

Peters had more than 900 hours flying to his credit and had been a pilot at the airport for two years. Heaton was a student pilot. Both lived at Yorktown, nearby.

STOAR OPEN 9 A.M. to 10 P.M.

NOW—Bout the stuff you're gointer get—CORSE there'll be NO SECONDS—CORSE No Sales are Final—CORSE you kin bring bak anything you don't want—CORSE there'll be No Mail or Phone Orders—and CORSE you gotter pay at the Desk coz there ain't No Extended Torture Here.

STOAR OPEN 9 A.M. to 10 P.M.

You miserable, miserly ole Skinflint,
You'd rob your mother if you owned a Mint—
Sandy Sugar and Wormy Meal
is what you think a good square deal;
You always try to have your weigh,
And make your customers overpay.

See tomorrer's paper for what yure gointer git!

Girl About Town

—By ALYCE SIEMENS—

Invitation:

I always wished you well, until I learned
You'd tried to do some knifing—then I burned.
But now, although you're but a hellish challice
Bubbling with the hot venom of your malice,
My flame is cooled and, sportsman-like, I cry,
"Come on and spurt your poison, little guy!
"Slink here and there, conniving, while you may,
"Before in your own spleen you boil away."
—Cam.

A Flurry of Finds

Louis Gobron, Tremont street barrister, wouldn't miss his trip to New York every fortnight to see his 85-year-old grandmother and eat her special brand of home-made ravioli . . . In passing, Louis' grandmother is remarkably modern and spry, and loves nothing better than an airplane ride . . . She flew from New York to Boston one day last summer . . . George Fuller, formerly of Dartmouth, and well known here as a real "catch," leaves Friday for Rochester, N. Y., to marry a former Simmons College girl, Corey Proford, on Saturday . . . George was having his final fling at the Grove Tuesday—and how he flung! . . . And talked! . . . Phil Melhado's idea of introducing a new arrival in the Hub to fun-about-town is by letting said new arrival ply his trade for Phil's entertainment . . . In other words, Phil was entertaining Cartoonist Samuel Merwin, Jr., one of the clubs Tuesday by letting Sam draw pictures for Phil's diversion! . . . Young Merwin is the famous writer's son, and you'll soon be seeing his drawings in this, your favorite sheet . . . Something should be done about Billy Golden-Pipes Payne's popularity with the Pretty Ones! . . . We hear that next week, while Billy is song-singing at the RKO-Boston he'll entertain the girls of the Billy Payne Isoteras Club on Monday, Peggy Childs and her Radcliffe '34 girl friends on Tuesday, and some misses from the Catherine Gibbs School on Wednesday . . . Since Billy is famous for being a Big Tease, it must be ribbing that makes a hit with the Pretty Ones these days.

And Why Not?

One of our native sons blooms forth verbally with this idea—that if future snowstorms are to be cleared away as leisurely as the last one, it might be a good idea for Mayor Curley to cease giving away shillalahs, and to start presenting alpenstocks to pedestrians instead.

Breadline Banter

Newton's John Nearr declares that two down-and-outers were standing in a breadline and one of them asked the other:

"Who you going to vote for next election?"

"Not going to vote for anyone," said the second d. and a.—"I'm going to put butter on my ballot and eat it."

Confident Child

We know a citizen whose family circle includes one small daughter and one hunting dog . . . The dog, being of the hunting breed, has been trained to lie down instantly when commanded to "Discharge" . . . The other day the citizen took his little daughter out to Franklin Park Zoo . . . He was a bit dubious, however, about taking her into the lion-house . . . Feared the big cats might terrify her and give her nightmares for weeks . . . Finally, however, he took a chance, and holding his wee offspring encouragingly by the hand he marched down the lion-house with her, stopping before the first cage, where a big and vindictive-looking fellow paced back and forth, tail lashing . . . The father looked down doubtfully at the little figure beside him . . . Ever was staring at the lion . . . After a moment, she pointed her finger at the animal . . . "Daringer!" she said, with all the poise in the world.

Saying It Briefly

Swampscott's star golfer, Ray Nies, returned recently from the South and found Sitting Around Boston so wearing that he has just left aboard the Deutschland for a tour of Germany . . . Jack Benny thinks a new batch of his material that on Saturday, when he leaves the show he's in, and the Stroud Twins replace him, Jack won't let them use the gags he's been tossing at the audiences . . . So they're busy right now writing material for themselves, and you hear it will be brand new! . . . It's only our idea, but we think that radio's Betty Cole sort of messed up her personality-type when she slapped her locks into a bun on her bonne . . . Ever since Teeps and Margie Lucille have been impersonating the Duncan Sisters, they've been uneasy lest Vivien and Rosetta might see them, as cantankerous stars sometimes do . . . So when the Duncan Sisters finally met them, and found on their necks with genial friendliness, it was a real relief to Teeps and Margie . . .

CHICAGO OPERA STARS REVIVE 'PARSIFAL'

THEATERS HAVE TREATS IN STORE FOR THEIR PATRONS

Madge Evans, Ina Claire and Joan Blondell in a scene from "The Greeks Had a Word for Them" which comes to Loew's State screen tomorrow.

Leona May Smith, world's best girl cornetist, will be on the Met stage tomorrow.

Charles Bickford and Helen Twelvetrees are featured in "Panama Flo" which will have its premiere tomorrow at RKO Keith's.

Wagner's "Parsifal" Given by Chicago Opera Stars

By MOSES SMITH

Wagner's "Parsifal" was produced last night at the Boston Opera House by the Chicago Civic Opera Company. It was the first performance here of Wagner's swan song in a decade, and the emaciated Wagnerite may therefore be pardoned for not writing a quite coherent review immediately after the final curtain.

For without going into detail at great length it can be said that this presentation struck fire, was given in the spirit in which (so far as we know) it was conceived by Wagner. There was the appropriately mystical atmosphere emanating not only from the singers on stage and the musicians below it, but also from the direction of the acting and, to an extent at least, from the settings.

Without writing an essay one can do little more than list the important singers. From the throng of principals Alexander Kipnis stood out like a Gothic cathedral. Rarely have we been privileged to hear such magnificent singing as he delivered in the role of Gurnemanz. Almost on the same level was Frida Leider, who contributed a brilliant portrayal of Kundry. Rene Maison, who has been ill for some time, appeared as Parsifal, and while we accept his characterization with reservation, it must be confessed that he has made great artistic strides in the past few years.

* * *

Hans Hermann Nissen made effective his briefer appearances as Amfortas, while Robert Ringling, substituting at short notice for Eduard Habich in the role of Klingsor, played like a veteran. It is a pity to have to lump in a single heap the rest of the principals, who were so necessary to the beauty of the performance. This applies equally to the maidens, so lovely to hear (and even to gaze upon!) in the enchanted garden of Klingsor.

The production, difficult to stage, moved without obvious creaks—a credit to any company. Naturally much of the responsibility for this was on the shoulders of the conductor, Egon Pollak.

Gayety Theater

Chick and Andy, recording and broadcasting stars, are a special attraction in the vaudeville at the Gayety today. On the screen are "X Marks the Spot," with Lew Cody, and "Pleasure," with Conway Tearle.

'Man I Killed' Held Over

"The Man I Killed," heart-stirring romantic drama, enters its second week at the Olympia and Uptown tomorrow. The producers used several film favorites to enhance the power of the story, among them Lionel Barrymore, Phillips Holmes.

The picture deals with life in a small town. Holmes is the hero, a former soldier who finds that love alone can wipe out the anguish which wartime horrors had brought to him.

Exeter Theater

Janet Gaynor and Charlie Farrell in "Delicious," and Jack Holt in "Maker of Men," are the attraction at the Exeter for the remainder of the week.

Boston Lassie Is Starred

As a special attraction in its stage presentation beginning tomorrow, the Metropolitan will feature Miss Leona May Smith, said to be the world's greatest girl cornet player. Miss Smith, who is a Boston girl, is a protege of Edwin Frank Goldman and for the past six years has been a pupil of Walter Smith.

Miss Smith first made a public appearance as a cornetist when she was nine years old. Now at the age of 16 she has won praise and plaudits from noted bandmasters in every part of the United States. At the age of 10 and until last year she appeared as "Big Brother's Trumpeter," under the direction of Bob Emery on the air.

Ray Marr Brings His Revue to Dudley Theater

Roxbury will see a local boy who made good, next Monday, Tuesday and Wednesday, when Ray Marr and his musical comedy revue opens at the Publix Dudley theater. For the first time in his career Marr will play in his home town, Roxbury. The company consists of 25 people and features Don Healy and His Georgians, former radio stars. The screen attraction will be Jack Holt in "Maker of Men."

"The Silent Witness" at Fenway, Modern

A story of love and courage is told in "The Silent Witness," mystery drama, to be on screen at the Fenway and Modern, Saturday. The role of a father who would sacrifice himself to save his son, who has become involved in the murder of a siren, is played by Lionel Atwill. A second feature is added, "My Wife's Relations."

George Laby Named Manager of New Paramount Theater

By HARLEIGH SCHULTZ

To Edward A. Zorn, district manager, and George Laby, who is to handle the destinies of the new house, goes the honor of having won the first applause to echo within the Paramount Theater. It happened yesterday when the pair happened in on a luncheon to introduce newspaper and film folk to the ins and outs of the latest Publix movie palace.

Official announcement was made at the time of Mr. Laby's being lifted from his post as manager at the Olympia to direct the new house. He will have as assistants Howard Shonting, who has done a splendid job superintending Publix ushers and service generally, and Ted Richmond. Harry Brown, Jr., is to handle the publicity. The theater is to be rushed to completion in time for the opening on the 25th of this month, with Marlene Dietrich in "Shanghai Express" to christen its screen.

The choice of executives looks good, for Mr. Laby is a skilled executive, thoroughly efficient. Mr. Brown is able as showman and publicity chief; he was born in show business, his father being a veteran theater man. He has done excellent work on the exploitation end, one of his premier efforts having been "The Vagabond King" premiere.

The theater is, of course, to be the last word in movie house construction and equipment. The work on it is being pushed night and day, and Publix officials guarantee it will open on the day and date specified. It should prove an attractive place for film lovers.

Movie Clock

Feature photoplays in the picture theaters and their approximate starting times today are as follows:

RKO KEITH BOSTON—"The Final Edition": a. m., 9:42; p. m., 12:45, 3:53, 7:01, 10:09.

LONE NON-DRINKER REAL MENACE TO SOCIETY

By GILBERT SELDES

HOW CAN THEY EXPECT us to keep our heads when we read, on the same day, that a Scottish beer, green in color, is gaining favor in Paris and that British distilleries have brought suit, in Germany, to compel a Germah to drop the name of "whiskey" from his product? If the depression keeps up we shall soon hear of Swedish spaghetti and become persuaded that the world is standing on its head. The green beer does not fascinate me so much as the British pretension to have exclusive rights on the name of whiskey. Their argument is that the special character of that drink depends on the British climate, and, unpatriotic as it may seem, I am inclined to agree with them. Not to put too fine a point upon the matter, I hold that the whiskey we call Scotch is the only palatable whiskey. I do not expect to show my face in Kentucky for several years.

Gilbert Seldes

One Irish Drink

My only deflection from the strict rule of Scotch was a service held over a bottle of John Jameson's Irish whiskey, which came to me from one of Dublin's most distinguished sons, Mr. James Joyce. It was not a tribute of friendship, but an exhibit in a trial. Mr. Joyce held that Irish whiskey was misunderstood and unappreciated, largely because the best blends or brands were not exported. He scoffed at my theory that the special smoke and the Irish result from their connection with peat. He set it forth as his considered opinion that the flavor came from the water used in manufacture, the water of the Liffey River, which runs through Dublin, a river charged with the alluvial deposits of all of Ireland, and, incidentally, a river to which Mr. Joyce was, at that time, dedicating his work. (He calls the Liffey "Annalivia Plurabelle," and good Irish whiskey he described as "Annalivia's fire-headed son.")

Rye and corn (Bourbon, if you prefer) are, to the drinker of Scotch, too aromatic. If they weren't intoxicating they would be good soda-fountain drinks. The devoted drinker of whiskey wants a taste which is not a flavor, and he gets this in Scotch. (He gets it also in good brandy, which means French brandy. What he suffers from is bad handling. Scotch, if it is good, can be drunk straight with satisfaction; but if it is diluted, it should be diluted with charged water, not with plain water. The reason is quite clear: plain water is actually a dilution; you are drinking Scotch and water, or weak Scotch. Whereas, charged water creates a new compound; something, mysterious to me, happens between the carbonate, or gas, and the liquor. The result, with a little ice, is very pleasant. It is sovereign against chills and depression of the spirit; it is the universal solvent of bad temper and the awkwardness of meeting strangers; and it is a good drink.

Not So Lonely

My steady complaint against prohibition is that it has taken our minds off the actual drink and made us think of secondary problems—getting the drink, paying for it, hiding it, testing it, and suffering from it. It has, however, done one thing: made drinking even more sociable than it ever was. Whether this is an advantage, I am not sure. In the early days we used to hear of the misery of the lonely drinker; to take a drink by yourself was considered a first step to a drunkard's grave, as bad as drinking before breakfast.

The point the critics just was that the moment a man has a drink he is no longer lonely. I do not mean that he is drunk and converses with imaginary friends; I mean simply that there is warmth and friendliness in the glass, and that the liquor binds him to the world of all drinking men. What is more, if a man lacks company he can do very well with a tall drink, not too strong; a cigarette and a newspaper. It is the grim, lonely non-drinker who is a menace to society.

At the suggestion of Bishop Manning the Franco-American Society has protested against an unfair reference in the amusing musical show, "Of Thee I Sing." As I have a good memory (and some of the text at hand in the current issue of The Theater Guild Magazine), I am a little bewildered. There is one allusion which may have annoyed the Franco-Americans, when the French Ambassador says he has just received another note from his country, and the President (of the United States) answers, "That's all right. We've got a lot of notes from your country, and some of them were due 10 years ago." And there is, of course, the song about a jilted sweetheart of the President who is defended by the French because "she's the illegitimate daughter of an illegitimate son of an illegitimate nephew of Napoleon."

Defenseless America

But what puzzles me is the indifference of the Franco-American Society to the rest of the show. Not only a political party (cunningly disguised so that you can take your pick), but the whole Congress of the United States, its Supreme court, its Chief Executive, and most pitiably, its assistant Chief Executive, the Vice-President, are treated with a contempt you could hardly call concealed. When they are not the objects of malicious satire (which in most of the time) they are still the butts of loud and common laughter. Against this the Franco-American resents the attack on one of our most cherished institutions degraded draws from Bishop Manning no moan. But a swift mocking laugh at the expense of France (and if the stories about he gold are true, she can afford it) moves him and his society to public action.

I trust that "Of Thee I Sing" will benefit by this publicity (although the show prospers and does not need advertisement) and that France, hearing of the action of the 100 Franco-Americans, will take heart. I hope that the Society of the Descendants of German Spies will look into Greta Garbo's "Mata Hari," and that the Sons and Lovers of Al Capone will investigate the gangsters in "Whistling in the Dark."

Maybe I'm Wrong (About Hollywood)

—By JOHN P. MEDBURY—

HOLLYWOOD, Feb. 11—An Eastern tourist was being shown through one of the studios here and expressed a desire to meet some stars. "I'll see what I can do for you," said the guide, "there's Harry Green, Monte Blue, Maurice Black, Alexander Gray, Joe E. Brown and Alice White, which one of these stars would you rather meet?" "Oh, it doesn't make any difference," answered the tourist, "I'm color blind."

Ten-Second Talkies

Character Man: Are you doing anything tomorrow afternoon?

Extra Girl: Yes. I'm going to my husband's funeral if it doesn't rain.

The Crack of the Day

The restaurant was unusually chilly and everybody was complaining to the head waiter about the place being cold. "It's terrible," said Bob Woolsey. "The only thing that keeps me warm is the heartburn that I get from the food."

Take It or Leave It

One-eyed Connolly is carrying his arm in a sling. He stopped on the boulevard to get a cigar and an Austin broke his wrist.

Movietown Meanderings

Archery ranges are all the vogue out here. Several unhappy wives are practising with the bow and arrow so that they can shoot their husbands without waking the children.

Lew Cody claims that man is a necessary evil. He says that if it weren't for men, the women wouldn't have anybody to marry. The sword-swallower out at M. G. M. is now eating sabers between meals as the doctor told him he needed more iron in his system.

A certain actor is rapidly losing all his hair. There's nothing inside his head for it to hang on to.

The Cocoanut Grove was so crowded the other evening that little Billy and a party of midgets ate their dinner in the bass drum.

A Hollywood man 101 years old is suing his wife for divorce. He claims there's no truth in the first hundred years being the hardest. He says the old year has been just as tough.

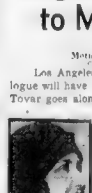
Douglas Fairbanks Takes Regular Cast With Him to Make Tahiti Film

By LOUELLA O. PARSONS

Motion Picture Editor International Service, Inc.

Copyright, 1932, by International Service, Inc.

Los Angeles, Feb. 11—The new Douglas Fairbanks travelogue will have a regular cast in addition to the natives, Lupita Tovar goes along as leading lady and William Farnum has all but decided to join the expedition and play a part. Seems to me everyone in Hollywood I know has tried to get Doug to take him along to Tahiti.



Louella O. Parsons

You can understand how excited Harry Ham was when Doug engaged him as co-director. He is in the Frank Joyce office and Frank, like a good sport, gave Harry leave of absence. He knows a lot about production, too, having been associated with Paramount and with First National in England.

And, last but not least, Eddie Sutherland is spending all his days at the dentist to see if he cannot get ready to sail along as director. Raoul Walsh was all set to go but alas and alack, his contract troubles with Fox stood in the way.

Mary Pickford accompanied Douglas Fairbanks to San Pedro today to wish the Invader luck. It sailed at 3 o'clock. We await the arrival of the Fairbanks party in Tahiti.

* * *

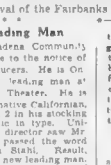
New Leading Man

Another Pasadena Community player has come to the notice of our movie producers. He is Onslow Stevens, leading man at the Community Theater. He is described as a native Californian, standing 6 feet, 2 in his stocking feet and athletic in type. Universal is casting director saw Mr. Stevens and passed the word along to John Stahl. Result, Universal has a new leading man. We will take a look and see if this new one is as interesting as they say at Universal City. Soon all the fans will be meeting the stars face to face with the number of personal appearances latest. The Duncan sisters are the latest to sign. They open at Los Angeles Paramount Theater February 18.

* * *

New Role for Doris

There is every reason to believe that eventually Doris Kenyon will cast her screen lot with the Fox Film Co. She and Milton Sills were both classmates of Richard Rowland and while Dick was the head of First National in Hollywood Doris and Milton were under contract to that company. Doris has already agreed to play the leading feminine role in "Young America," Frank Borzage's coming Opera. But she has an intention of going in her concert career. She's booked to sing in New York, March 18, 19 and 20 at three separate musicales, and since she is the only American who in any way approaches Raquel Meller in personality and impersonations her future in the concert field seems assured.

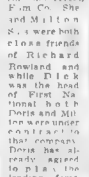


Doris Kenyon

* * *

Job for Christian Rub

Well, at last, Christian Rub has gotten himself a movie job. He plays in "The Trial of Vivian Ware." Who is Christian Rub? You wouldn't be asking if you write this column. If one reader has reported on the excellence of his performance as Krinkelein in Grand Hotel here in Los Angeles, so has a reader mentioned him to me. He makes his screen debut as an ordinary stage company to San Francisco. Here is a funny one. Zasu Pitts plays the role of a sob sister in "The Trial of Vivian Ware" for Fox. Lionel Atwill's first picture, "The Silent Witness," went over with a bang in New York, Baltimore and Philadelphia. These are the cities where he is well known and popular.



Zasu Pitts

* * *

Hollywood Chatter

Young Carl Laemmle has discovered a new gray hair. He blames it on worry over "Back Street." He hasn't been able to get a leading man for the picture. The tests of the men are excellent in the youthful sequence, but all of those good-looking boys fail to register age. The rain in Los Angeles has done more than help the gardens and flowers. It has caused the re-writing of new scenarios. Because it's been impossible to take exteriors many scenes have been changed from gardens to parlors. Some of the Lasky ranch sets were washed away, causing no end of inconvenience to Paramount for two pictures were in the making there. The "So Big" company gave Barbara Stanwyck a surprise today. She has been carrying a battered thermos bottle with coffee on the set every day and the company and William Wellman, the director, presented her with two nice shiny new thermos bottles in a case.

* * *

Snapshots of Hollywood

GRAHAM BAKER is taking an enforced rest in Hollywood Hospital. An operation will keep him there several weeks. Visiting in our town is MRS. MINNIE TODD and daughter, LOLA. MRS. TODD was formerly publicity head for Tiffany Studios and LOLA started in Universal features. They are at the Hollywood Knickerbocker. The Fox Company is giving EDWARD TINKER, new president, a royal banquet tomorrow night. DOROTHY MANNERS got in Jan writer, was the honor guest at a buffet supper given by DOROTHY DONNELL and GLADYS HALL. The other guests were the members of the Hollywood Women's Press Club. DOROTHY becomes the bride of WALTER RAMSEY, western editor of Modern Screen early in March. MRS. LIONEL BARRYMORE will give the spring styles the ones over in New York. She is leaving next week. There is a chance that "The Claw" will be made in Washington, in that case LIONEL will join IRENE in the big town. That's all today.

Lux for dishes —the big package does 6 weeks' dishes

"I'll tell you how I got the idea.

"I was telling the manager of a beauty shop what a terrible time I had with my hands because they were in soap and water so much.

"'Why don't you use Lux instead of ordinary soap?' she said. 'Many soaps contain harsh alkali that dries up the natural oils, but Lux is absolutely pure and very soothing. I can't tell the difference between the hands of a woman who uses Lux for dishes and those of a woman who has maids.'

"So I did—and my dear, it's wonderful. Now my hands are smooth as velvet—lovely and white. And it costs less than 1¢ a day."

Auto Gas Kills C. E. Harvey

Winnipeg, Man., Feb. 11—Charles E. Harvey, president of the Royal Canadian Golf Association in 1930, was found dead of monoxide poisoning on the floor of his garage.

THE VOICE OF BROADWAY

—BY LOUIS SOBOL—

With Love and Kisses!

The termination of the Vallee-Sobol, Brown-Sobol feuds deserves public recording. It appears to me since a careful compilation of statistics by my secretary reveals one Winchell enemies remaining and ten of them are headed for jail, reducing the active ranks to a bare seven. No man is worth his salt who can't claim at least half a dozen good, staunch, vindictive enemies.

Rudy Vallee and the Sobol fellow began sticking tongues out at each other a few months ago, when the prattling columnist, hinted at a rift in the relationship between the retiring millionaire and his bride, Fay Webb. It was a mild line, but an untrue one, according to Vallee. The gentlemanly thing for Sobol to have done was to have retracted the line in subsequent columns. This he failed to do. Instead he began jibing Vallee whenever he was short of a line or a paragraph. This is typical of Broadway columnists and Sobol is a typical Broadway columnist, neither worse nor better than his fellow-offenders. As a result, whenever the crooner and the paragrapher encountered each other in public places each tossed the cold snub at the other—Vallee's snubs always being 30 to 60 degrees colder than Mr. Sobol's. This unfortunate situation stood until Thursday night, when at a party thrown in honor of this modest scribe, who should walk in but Rudy, his coat opened, mouth wreathed in a broad smile, his proper hand extended as a signal of friendship. Vallee and Sobol shook hands—and it was Sobol who stammered, fidgeted nervously about on one foot and then the other, and finally blurted out, "Kinda wet out, ain't it?" The perfect apology—and Vallee graciously accepted it. Mr. Vallee and Mr. Sobol split a sandwich and shared the salt. Mr. Vallee then admitted that it was wet outside, but warm inside, that he liked Russ Columbo, admired Ring Crosby and loved Fay Webb. An epochal feud was over.

Coupled the time to record the complete end of the Lew Brown-Sobo quarrel. It commenced a few months ago when, a columnist to whose entrance I was invited by readers, we printing one from a Jew in Jersey who pointed to the fact that a 19-year-old—or perhaps he was 19 years old—lad name Fina who had written a ditty called "Mo Song" receiving $200 for the song had since become a terrific success according to the girls letter, and the boy wanted to know if he got outright. Now it so happens that Mo Song was the piece I was the Scandals, co-authored by Lew Brown and Ray Henderson but that don't occur to me at the time. Investigation revealed that the Fina song was some song, once again I did admit that in my column I did not. When upon word came to me that Lew Brown was hot on my trail, with blood in his eyes. A few days later I made more complete amends to Mr. Brown's indignation. He brought suit for $100,000 and won. I appealed the error, I understand, prevented from being a $100,000 suit.

No another enemy was added to the list and it was extremely embarrassing, because Lew Brown frequents the places I frequent and mingles with the groups with which I mingle. Furthermore, Mr. Brown has a keen sense of humor, besides being one of the world's ace lyricists, and a man with a sense of humor is a man to cultivate, if you are a columnist. Mr. Brown was closed to me as a source of original gags. I was obliged to sit by and gnash my teeth, while day after day in the columns of my contemporaries appeared choice quips and yarns credited to the Brown fellow. It was maddening—but the Sobol pride being what it is, prevented him from going up to the song writer and saying, "See here, you Brown, I've been wrong and I'm sorry, so let's forget about it and what do you know that's funny?"

It was Brown himself who taught me a lesson in graciousness. Early Friday morning after he had [illegible] hours at the Ziegfeld rehearsal—he and Ray Henderson and Mark Hellinger, you know are fashioning the opera for the glorious Brown dropped in for a second at the party. And came right to me and shook hands. "You hurt me, Louie," he said "when you printed that. It wasn't true. 'Mo Song' was one of the best numbers Henderson and I have turned out—we worked pretty hard on it—and [illegible] a lot to have you call it [illegible] miserable. Again I [illegible] and again I hurt [illegible] Forget it, and I'll [illegible] and I signed a [illegible] and we shook hands and I was [illegible] and I wasn't [illegible] that not only was I [illegible] but I wasn't [illegible] Now I can look right back at the [illegible] and write a paragraph of [illegible] Don't do that to me, Louie. You didn't mean to, [illegible] here. I know you don't [illegible] I'm going to run a [illegible] and strong [illegible] and [illegible] and [illegible] and

RELIEF DRIVE TOTAL NOW $2,852,238

With daily subscriptions dwindling on an average of $30,000 and almost $150,000 needed to reach the $3,000,000 quota, leaders in the united Boston unemployment relief campaign today appealed for cooperation from every source to make the drive successful.

It was pointed out that Boston has never yet failed as a city in any patriotic or civic campaign to raise funds to meet an emergency, and express belief that this drive, which they claim is a crisis drive, should not be for lack of interest and co-operation.

DONATIONS DROP

Receipts for yesterday amounted to only $51,021.21, the poorest total since the second day of the campaign. Starting out Monday with a total below the average, the daily donations continued to drop until they reached yesterday's figures. The contributions yesterday brought the grand total to $2,852,238.95.

The campaign committee stated that [illegible] had been [illegible] on a number of firms and individuals who were expected to do their share in the drive but have thus far failed to contribute. They insisted that contributions from these delinquent firms and individuals would bring forth all the money needed.

COMMITTEES PUSH WORK

The several committees have announced they will continue working until the quota is reached. The fining and dining is also continuing, its canvass and is adding new men to make its work widespread. Harvard and Tech students volunteered their services yesterday and their ranks will be bolstered today by volunteers from Boston University.

The special gifts and wards committees are also continuing their canvassing in the hope of reaching those who have not contributed.

The committee was gratified last night with reports of returns from various trade groups

EGG PRICES ON "TOBOGGAN"

Egg prices [illegible] to the lowest prices in 25 years today, some selling wholesale at 11½ cents a dozen.

The latter, however, were in carload lots.

As far as the individual is concerned, the low prices will not be felt until retailers dispose of the stock they now have.

New England prices were reported firmer than in many other sections of the country, including New York and Chicago. Best brown Nearby eggs from nearby brought prices in the high 20s, in wholesalers an average of 31 cents to jobbers and a markup of 35 to 37 cents to retailers.

The extremely low prices were quoted on eggs from Missouri and other Southwest and Western points and were due principally to unreasonable conditions that stained much of the production with a black mud that made them nearly unsalable.

HEIRESS WEDS PRINCE AGAIN

New York, Feb. 11 (US)—Prince and Princess Gizzanio Rospigliosi have been married, as they expressed it "for the third time in two months" by Supreme Court Justice Hatting in his chambers in the county courthouse.

The three-time bride is the former Marian A. Snowden, daughter of the late James H. Snowden, and is 19.

Vincent H. Rothwell, counsel to the prince and princess, said the prince and princess said **terday was confirmation of the religious and civil ceremonies performed in Rome. The validity of these ceremonies was in no way questioned nor involved. On the contrary, they were confirmed."**

1988 Cases of Flu in Country

Washington, Feb. 11—Public health officials said yesterday that 4988 cases of influenza were reported for this week, compared with 2853 last week. The flareup "may not be significant," Assistant Surgeon-General H. C. Williams said, but the figure is larger than that for this period of 1930 and 1929. It was no larger than last year's

Three Eligible for West Point Vacancy

Washington, Feb. 11—Rep. Frank H. Foss of Massachusetts has announced appointments for the military academy at West Point as follows: Robert Hall Stafford, Leominster, principal; Jack M. Lime, Fitchburg, first alternate, Alfred Felix Boeheneck, Gardner, second alternate.

Hired Horse Sold at Auction, Police Say

Providence, Feb. 11—John Petrucci, 18, was held by police today on the charge that he had hired a horse and buggy at a livery stable and sold the horse for $46 and the harness for $12 at an auction in the afternoon.

Haverhill Gets Loan

F L E E T W O O D

GRIST FOR GENIUS

Seldom in history have communities attained the commercial eminence enjoyed by the Italian cities of the Renaissance. The names of their merchant princes were names to conjure with, and more than one was accorded the title of "Magnificent." But who can name them now? Only a few are remembered—those few who befriended a Michelangelo, a Cellini or a Titian—who provided the marble, the bronze or even the sustenance without which these artists' works would have been impossible.

Modern business, also, achieves its crowning glory in its patronage of the arts and sciences. And today a shining example presents itself. Fleetwood . . . for years a name that has stood for the utmost in custom coachcraft . . . now shows the world a breadth of conception, a skill and a finesse never realized before it acquired its new facilities. Under the patronage of the Fisher Body Corporation, new fields of observation and research are opened up. New means for experiment are provided, new methods of operation are made possible, a new co-operation from chassis engineers is enjoyed.

Witness the result. Bodies that surpass all former Fleetwood creations are surrounding that hall-mark with a new prestige. And to the engineering advances in the new Cadillac V-Eights, V-Twelves, and V-Sixteens they are adding a reputation for unprecedented beauty, comfort and elegance.

THIS IS LIFE

DID STUDENTS JUST WALK OUT ON BUSINESS GIANTS WHO'VE FAILED THEM?

—By ROBERT E. ROGERS—

ROBERT E. ROGERS

I SEE BY THE PAPERS that the psychologists are coming into the search which is being made for those two men who are supposed to have disappeared from the Harvard School of Business Administration. They plan to read the mid-year examination books of the missing men, in order to find out whether the books exhibit any signs of mental disturbance which might possibly explain why the men should have taken French leave without, apparently, even a change of shirts.

If there were only one of them missing, I should be more alarmed. But when they are found missing in pairs, the experienced teacher is less inclined to worry. I remember well how a classmate of mine and a friend of his celebrated their mid-year examinations—or was it the April vacation?—by calmly taking the boat for Bermuda and remaining there while they jolly well felt like it. At least they took pains to miss the boat back. Eventually, the University revived the fine old 18th century custom of "rustication" and the boys spent their spring term in pleasant out-door life up in Concord by the rude bridge that arched the flood.

It is not impossible that these men's written examinations will show that the Harvard Graduate School of Business Administration so got on their nerves that they hastily routed out the old bus and drove straight for the western horizon and beyond, to where the Pacific steamers are, their bows pointed for the Chinese unpleasantness. What with the recent flood of books by young adventurers in the far places of the earth—I am told that Guy Murchie's son has just written a very interesting one—it is a wonder that our colleges are not volunteering en masse as soldiers of fortune in the Chinese service.

As I say, I can see how the Business School might get on their nerves. It must seem just a bit futile at present. The theory is that business is a science and that our great industrialists and bankers are the high priests, the grand panjandrums of that science. But their wizardry has gone cock-eyed, the djinnee no longer obey their spells, the magic wand with which Alexander H. Mellon smote the rock of national resources has been spirited away. It must be a bit difficult for young men, with the kind of inquiring, ironical and skeptical minds that young men now have, to swallow all the charts, graphs and statistics which must seem at present so curiously meaningless.

Many people who have never read examination papers will consider this newest appeal to the psychologists as so much horsplay. But not the expert. The experienced college teacher is fully aware that a fair number of his pupils do skate perilously close to the edge of mental or emotional instability.

Writing Shows Mental Quirk

In nine cases out of ten, this instability is not caused by overstudy, whatever fond mothers or adoring girl friends may think. This may be the tenth case, of course, although the fact that there are two of them makes it unlikely. The Business School men do work hard. Technology men pride themselves, in public, on having the hardest course in the world—and often get away with it. But I shall never forget the naive surprise with which a Technology graduate confessed to me that the Harvard Business School, for sheer, continuous, unadulterated hard work, beat anything that he had ever run up against.

If a man who has been doing good work during the term turns up with an examination book which is badly written, untidy, incoherent and incomplete, something may well be very badly wrong. There is a kind of handwriting—very different from the usual bad handwriting of the present school product—which is a sign of warning. It is the same kind of handwriting which I receive in a small percentage of the letters that come to me at the Boston Evening American. It is the sign of something gone a little askew in the mind.

Sometimes a man who has done good work in the term will sit impotent before his examination desk. It is not that he doesn't know the stuff. The trouble goes deeper. I had once a reasonably intelligent Jewish student who had been rendered abnormally self-conscious and shy by childish persecution. His difficulty took the form of an almost total inability to express himself freely on paper. The necessity of hiding and covering up his feelings for so long a time had produced an almost automatic inability to spill his thoughts on paper for the world to see.

Irresistible Impulse to Go

There is the man who simply cannot concentrate on the work he is supposed to do, while he will work twice as hard and even brilliantly on something not only irrelevant but irrational. I had a student once who flunked out because he insisted on spending all his time on astrology, on casting horoscopes for everyone with whom he came in contact. I say that he "insisted"; it was rather a kind of compulsion upon him.

So it is not impossible that something may be found in these examination papers which will throw light on the temperamenta of these men in the week or two just before they disappeared. But any abnormal condition, I should think, would leave many more signs behind it than these. Behavior and speech, their contact with their fellows, are even more eloquent than the written word. There seem to be no such other signs.

One is forced to the conclusion that either the boys have taken a sudden and irresponsible whim to go a-skylarking, as a relief from the endless boredom of business school science, or else that all suddenly and helplessly they met with that kind of accident that gives no warning and leaves no trace. In the increasing criminal anarchy of American life, that is, unfortunately, more probable than it used to be. We can only hope that in this latter surmise we are badly mistaken.

MURDER OF THE NIGHT CLUB LADY

New Thatcher Colt Detective Mystery

By Anthony Abbot

GREATER BOSTON NEWS

BOSTON EVENING AMERICAN

BOSTON, THURSDAY, FEBRUARY 11, 1935

SECOND SECTION

TWO MORE BANDITS HUNTED

Coast Guard in Race With Death

2 MORE SOUGHT IN ROUND UP OF BANDITS

Suspects Face Lineup Before Victims; Girls Seized in Raid Are Grilled

Digging into the haunts of the underworld, disguised detectives today sought still two more alleged members of the "stickup gang" which has held carnival in various sections of Boston for two months.

Their search was under way as five of the six men now under arrest as suspects stood in a police lineup at headquarters while a parade of 25 holdup victims scanned the line in an attempt to pick out the man or men who held them up.

SWOONS IN LINEUP

Herbert Morz a 27 escaped Dorchester prisoner whose apartment in Belvidere st. was raided yesterday by police, collapsed in the lineup a scant time after another suspect, Thomas Ward, 27, had dropped to the floor of the detention room.

Morgan who although unarmed, is said one of the worst bad men a prisoner ever has been given to the policemen in the line-up, came with a bloody head bandage a fresh cut and swollen black and blue eye with only one eye open.

After he was revived Capt. John M. Anderson and Sergt. James Crowley, both of the detective bureau tried to persuade him to go to City Hospital for examination of a gunshot wound on his head but Morgan insisted on going back into the lineup and he was thus being kept with.

FOUR OTHERS HELD

Thomas Richardson, who was in the apartment with Morgan and four girls but who escaped from the third-story window and was halted by a shot from the revolver of Capt. Anderson, was held in City Hospital, where he has been under observation, and also placed in the lineup.

The other four men being held are James McDonough, 20, of 9 F. Burke, both of Dorchester, who walked unsuspectingly into the apartment following the raid, and James Polato of Tudor st. and James Murphy, 20, of Newman st., both in South Boston, and were picked up last night.

GIRLS ARE QUIZZED

For questioning today the four South Boston girls, Mary Quarin 17 of Broadway, Rita Harney, 17 of Baxter st., Josephine Curran 21 of West Seventh st., and Anne McArdle, 19, of Gold st., all of South Boston, were brought to police headquarters from the House of Detention, where they spent the night.

It is believed by police that they may also know the two wanted members of the gang who are sought as participants in some of the 13 holdups declared to have been confessed by Morgan including the Elevated payroll holdup last week, and the hold-up in Elevated cashier at Savin Hill station on Tuesday.

QUIZZED IN GANG RAID

DETECTIVE JOYCE JOSEPHINE CURRAN

Josephine Curran of South Boston, one of girls seized in raid on bandit apartment in Belvidere st., Back Bay. She is shown with a detective on way to be questioned. Two youths nabbed in raid are held as suspects in a string of recent robberies. Three other girls were captured in raided house. (Staff photo.)

PATROL BOAT IN 150-MILE DASH TO SAVE MAN

Fisherman Injured at Sea Is Being Speeded to Hospital on Shore

A [illegible] was rushed today in the Coast Guard patrol boat [illegible] from a point off Cape Cod where a seriously injured fisherman was taken aboard the vessel from the fishing schooner [illegible] Fishermen's Union.

The boat, equipped for emergency operations, left the Coast Guard base at [illegible] today at 11:30 o'clock. It was expected to reach the scene of the accident about 5 o'clock this afternoon.

The name of the injured man was not announced by the Coast Guard officials, who refused to give out any information regarding the accident.

FIREMEN SPURN WAGE CUT

Whole Fire Company Is Ordered to Move

Chief David M. Hudson of Chelsea fire department today ordered the fire station at Cross and Park sts. abandoned on the apparatus [illegible] to open [illegible] Points [illegible]

Mass on at Cathedral

[illegible] Father [illegible] the Rt. Rev. James P. [illegible] John J. [illegible] Thomas [illegible]

11 RESCUED IN BURNING HOME

Eleven persons, including at [illegible] were rescued by [illegible] police and firemen [illegible] a fire which damaged [illegible] at 345 Mt. Auburn st., Watertown, [illegible] Mrs. Lennon [illegible] the [illegible] were [illegible] Mr. and Mrs. [illegible] Mr. and Mrs. [illegible] Mr. and Mrs.

SHOTS FIRED, 2 SEIZED IN BROOKLINE CHASE

TRUCK STOLEN, RADIO STORE ROBBED

Roxbury Youths Captured After Crash Held by Court in $5000 Each

Two Roxbury youths, state police say, stole a milk truck, broke into a Brookline radio shop and took a radio, were captured today near Brookline-Boston line after a long chase in which several shots were fired by police.

Taken to Brookline police quarters [illegible] were John S. McDonough of Lawrence and James J. [illegible] of Cheverus ave., Roxbury.

They pleaded not guilty to charges of arson, of the larceny and breaking and entering the radio shop when arraigned before Judge Robins in the Brookline court. They were held in $5000 each and the cases continued to February 19.

POLICE GIVE CHASE

Police say the pair broke into a Arcola St. [illegible] Sunday morning, making away with [illegible] radio. From there they drove to Dane street in Newton and stopped [illegible] Washington st. [illegible] Brookline police station, where they [illegible] a radio.

Patrolman Archie Shea, on [illegible] heard the truck and called [illegible] the men. The youths jumped into the truck and started away.

FIRED IN CHASE

The officers gave chase on foot and fired several shots at the truck, turned into Brookline ave. near Boston and Albany railroad bridge.

The truck skidded and crashed into a pole, the [illegible] and bottles of milk being scattered. The youths abandoned the truck and started to flee on foot. [illegible] soon captured. McDonough was overhauled near the Boston line and compelled to surrender at gunpoint.

VIOLETS MOST POPULAR VALENTINE NOW

THE BLACK HAND

Men, Women, Children, Babies
Are warned to keep an eye on ya.
You try to put on lots of rugs,
Be[illegible] we've placed you—mongst the FLOWERS

The old time valentine which has passed out. An example of the foolish valentine is also shown

Mary Coakley, one of Boston's prettiest girls, is showing the most popular idea now in valentines—violets in a heart shaped box.

COLLEGE BRIDE SAYS EDSON DESERTED

Consul Official Left 8 Months After Marriage in 1928, She Asserts

Andrew Warden Edson, former Cambridge man, now an official of the U. S. consular service in the Chinese war zone, has a domestic war on his hands as well, it was revealed with the filing of a divorce action here by his wife, Mrs. Katherine Kline Edson, whom he married after a college romance.

The suit was entered in Suffolk Probate Court by Atty. Curtis H. Waterman, and it charges Edson with desertion only eight months after the wedding.

STATIONED AT TIENTSIN

Edson's home is in Meriden Conn., and his bride was a native of Belmont. Edson is now stationed at Tientsin, according to the papers filed in court, and Mrs. Edson is living in Boston.

They were married at Newcastle N. Y., in June, 1928, and Mrs. Edson charges that her husband deserted her on Jan 25 1929, while they were living on Irving st., Cambridge.

The couple met while they were students at Cambridge. The bride then Miss Katherine Storm Kline, had come here from her family's home in Yakima, Wash., to specialize in chemistry at Radcliffe.

EDSON AN ATHLETE

Edson won high honors at Dartmouth, where he was a Phi Beta Kappa student. Because of him winning the honor of being the high scholarship man in his class he was made a member of Palaeopitus the college student governing council.

At Dartmouth he was a member of the ski team and of the cross country squad. After receiving his A. B. at Dartmouth he attended Harvard for two years and was given his A. M. degree. He then became an instructor at the Clark School at Hanover, N. H., and from there entered the consular service.

Because of the length of time it will take to give Edson notification of the divorce action, and to give him opportunity to fight the suit if he wishes, the hearing on the case will be delayed for several months.

Elks Leader

John R. Coen, Grand Exalted Ruler of the B. P. O. E., to whom a reception and banquet will be tendered next Wednesday evening at the Copley-Plaza Hotel. (Lainson photo.)

ELKS TO FETE EXALTED RULER

As is its usual custom, the Massachusetts Elks' Association will tender a reception and banquet to the Grand Exalted Ruler of the Order at the Copley Plaza Hotel on Wednesday evening, February 17.

The present holder of that high office is John R. Coen, a prominent attorney of Sterling, Colorado, who became a member of the Elks on October 16, 1911, joining Fort Morgan, Colorado Lodge.

Many of the Grand Lodge officials will accompany Coen to Boston. In addition, many of the Past Grand Exalted Rulers will be present, including J. Edgar Masters, now grand secretary; James R. Nicholson and John F. Malley.

The banquet at the Copley Plaza will start promptly at 6.30 p. m.

Edwin O. Childs, Past Exalted Ruler of Newton Lodge of Elks and former mayor of that city, will be the toastmaster. Among those who have been invited are Governor Ely, a member of Westfield Lodge of Elks; Mayor Curley of Boston, a member of Roxbury Lodge; U. S. Senators David I. Walsh and Marcus A. Coolidge, both members of Fitchburg Lodge, and others of equal prominence.

BARBARA WEEKS ESCAPES BEAST

Melrose and Wakefield [illegible] are relatives of Barbara Weeks, screen actress, [illegible] Hollywood today after [illegible] stated that he had been attacked by a leopard while making a [illegible] here.

He answered a [illegible] reassured the reassurance of the press dispatches that the beautiful screen [illegible] in the movies [illegible] seriously hurt.

She was rescuing [illegible] a wild animal when the [illegible] leaped on her, [illegible] gashes on her right leg. Jack Mulhall, [illegible] of those [illegible] to her rescue.

She was taken to a hospital and it was believed that her injury will keep her off the set for a week or more.

Miss Weeks [illegible] of Melrose Highlands many years. She attended the Roosevelt school there and the Franklin school. Her grandmother, Mrs. Elizabeth Greene, [illegible] in Wakefield.

Old Comic Valentines Vanish as Violets Gain in Favor

FOUND OUT

Comic valentines, which were once robust humor [illegible] affection have fallen from favor and now we find the comic sentiment expressed, comparatively, in the Kewpie doll and violets have gained in favor.

There is no comic valentine. Now [illegible] for a sock on the jaw talk [illegible] than a bashful [illegible].

Here's a valentine one on the [illegible] sale.

Comic valentines [illegible]

Attack and abuse. Oh, what shall we do?

They're not the [illegible] quite [illegible].

Please accept (unlikely) amongst [illegible]

A [illegible] and then yourself you [illegible]

*Now, try and find one today with a [illegible] or possibly [illegible] [illegible] [illegible]

Marry-Go-Round

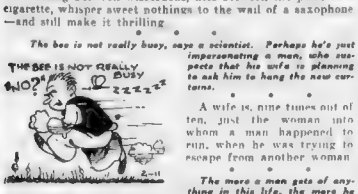
A 'GREAT LOVER' MUST BE VERSATILE TODAY

—By HELEN ROWLAND—

A "GREAT LOVER," in these days, is one who can do his courting between wisecracks, kiss between the puffs of a cigarette, whisper sweet nothings to the wail of a saxophone —and still make it thrilling.

• • •

The bee is not really busy, says a scientist. Perhaps he's just impersonating a man, who suspects that his wife is planning to ask him to hang the new curtains.



• • •

A wife is, nine times out of ten, just the woman into whom a man happened to run, when he was trying to escape from another woman.

• • •

The more a man gets of anything in this life, the more he wants—unless it happens to be hard work, children or the same woman's kisses.

• • •

The highest mark of esteem that a man can give a woman is to offer to be her friend—and it is also the most withering insult.

• • •

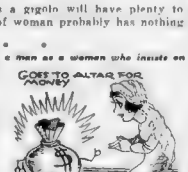
No matter how much good advice the psychologists may dish out about the proper age at which to marry, girls will go right on marrying when they get the chance—and men, when they can't escape it.

• • •

The woman who marries a gigolo will have plenty to worry about; but that kind of woman probably has nothing to worry WITH.

• • •

Nothing is so maddening to a man as a woman who insists on "forgiving" him, when he doesn't WANT to be forgiven—but just forgotten.



• • •

A woman goes to the altar for love, for money or just for adventure—but she always goes to Reno "for the climate."

• • •

There's no use going on fighting for a lost cause—or for a man's love, once it has begun to cool, to sag or to waver.

(Copyright, 1932, for the Boston Evening American)

Poverty, Not Man, Needs Reform

By ELSIE ROBINSON.

HERE'S a grand letter!

This letter should be laid before every rich man in America; before every politician; before every state or federal official; and a few sermons on it might not come amiss. Listen!

Dear Miss Robinson:

Every time I take up a paper nowadays I read criticisms of working people. Some ec nplain because workers are overpaid; because they are trying to hang on to the established "living wage" the had before the depression. Others complain because there are two wage earners in one family, and they would have the wife put out of her job.

They all analyze the worker's budget—coast him if he does not manage wisely; if he aspires to "more than is his due." And the man who gets $15 per week above his actual necessities, or who dares to spend that much on amusement and luxuries, is considered a criminal.

BUT WHAT ABOUT THE MAN WHO GETS $15,000,000 MORE THAN HE ACTUALLY NEEDS?

No one criticizes him or assumes the right to judge his expenditures. No one considers him a criminal because he has aspired to "more than is his due" or feels that his surplus should be shared with the unemployed and starving.

A million dollars is more than just "a living wage." It is power —great power over the lives of others. But the man who has that much can use it as he likes, without criticism. IT'S THE LITTLE FELLOW WITH HIS FIFTEEN DOLLAR SURPLUS WHO IS CRITICIZED AND ANALYZED AND HELD RESPONSIBLE.

N. H. SOUBS.

Royal Oak, Michigan.

And perhaps you'll say: "I'll bet he's a Socialist or a Red. He wants to divide the wealth—"

You're wrong. Those remarks are not socialistic or communistic. They are the plainest common sense.

Why should the man who MAKES the money be treated as a beggar, and the man who TAKES the money be treated as a conqueror?

If any man is to be held responsible for the way in which he spends his money, then ALL men are to be held responsible!

If it's a sin for the Little Fellow to squander $5 on a poker game, then how about the Big Fellow who squanders $5000 or $50,000 on his daughter's coming out party?

If it's wrong for Jim Mahoney's wife to keep her $20-a-week job, while Jim brings in his $25, THEN WHY ISN'T IT WRONG FOR PRACTICALLY ALL PUBLIC OFFICIALS TO PUT THEIR WIVES AND OTHER RELATIONS ON THE PUBLIC PAY ROLLS?

We will never save America by cutting a weekly nickel off the Murphy budget—yet most of our efforts are directed toward that end. We will never inspire men to be loyal to America to work for America, by tactics like that.

MAKE AMERICAN LIFE A RICHER ADVENTURE INSTEAD OF A SHABBIER ONE. STOP TRYING TO REFORM THE POOR MAN. REFORM HIS POVERTY INSTEAD.

(Copyright, 1932, for the Boston Evening American)

Daily Pattern

—By MARIAN MARTIN—

The Two-Toned Frock

PATTERN 9274

AN EXQUISITE interpretation of the two-color frock with details that are smart and extremely becoming.

Pattern 9274 is obtainable only in sizes 14 to 20 and 32 to 42. Size 16 requires 2¾ yards of 39-inch fabric, ⅞ of a yard contrasting.

To get a pattern of this model, send 15 cents in coins or stamps (coins preferred). Please write very plainly your name, address, style number and size of each pattern ordered.

Send for your copy of Marian Martin's new spring pattern catalog. This features 32 pages of the most delightful spring models, carefully selected for the woman who sews at home. A wide range of afternoon, evening and sports dresses, special stout models, house dresses, lingerie pajamas and kiddies' clothes is offered. All of the styles are not only smart, but practical and can be made very inexpensively. Price of catalog, 15 cents. Catalog and pattern together, 25 cents.

Address all orders to Boston Evening American Pattern Dept., 238 West 18th st., New York City.

The Beauty Box

ORDINARY OATMEAL is an ideal ingredient for bath bags; if a small quantity of powdered castile soap and almond meal are added, the bath bags are more effective. Make them of cheesecloth. Let them float in the bath water a few minutes before using. Very helpful for overcoming gooseflesh which makes some arms and legs unsightly,

MURDER OF THE NIGHT CLUB LADY

Colt Visits the Night Club

Continued from Page 1, 2nd Sec.

within that expanse of mirrors, crystals, jewels and lights. The shows were out, and the players had changed costumes and make-up to hurry here for the death of one year and the birth of another. The broad room was overcrowded with table parties, except for a center oval of waxed oak, cleared for dancers. On a low platform at the rear wall, a troupe of boys with pale, elderly faces, blew and scraped the mumbo-jumbo of jazz upon their strings and brass. In the warm air drifted the smells of women, powder and perfume and perspiration blending with tobacco smoke.

As we hesitated, the lumpy figure of Merle K. Dougherty appeared lumbering rapidly toward us. The District Attorney was one of Colt's oldest and most unreasonable friends—a stout and noisy but competent man, with dangling jowls, a mop of red curls, and protruding blue eyes that always seemed indignant and alarmed.

"Thatcher, I know how you dislike all this," apologized Dougherty, panting as he shook hands, "but tonight, old man, you've got to trust me. This way!"

Through narrow twisting lanes of skylarking show-folk the District Attorney led us with confident tread. As he had boasted, his table was on the edge of the dance floor. We sat down, Colt's grave eyes taking in the scene with one swift and lustrous glance. It was a jovial assemblage, and the excitement was palpably rising with the approach of the midnight hour.

"Well, Dougherty?"

In the Commissioner's question there was an over-tone of skeptical challenge.

"I'll come right to the point, Thatcher," promised Dougherty. "During the past two months, I have personally been conducting a highly secret criminal investigation."

"Jewel robberies!" stated Colt quietly.

Dougherty's eyes suddenly rolled upward.

"Who told you anything about that?" he demanded.

"Not the District Attorney," replied Thatcher Colt, mild reproof in his voice.

The Commissioner had long felt that the functions of the police were too often usurped by the district attorneys, not only in New York, but in many other American cities. Recently Colt's objection was given eminent support by the Wickersham Law Enforcement Commission, which condemned such interference.

"How much do you know about my investigation?" pouted Dougherty.

"We'll compare notes later. Go ahead!"

"Anyway, I don't have to tell you how many big jewel robberies have been pulled off in the last few months. The total runs into staggering figures. The insurance companies are on my neck—and yours. The thieves force their way into houses and apartments disguised as delivery men, mechanics—all sorts of ruses. Now, Thatcher, those jewel thieves are certainly in cahoots with somebody higher up—somebody who hob-nobs with the swells and plans the jobs!"

"Have you found a clue to this mysterious personality?"

Thatcher Colt's expression was amiable and interested; not by a flicker of an eyelid did he betray that the Headquarters jewel squad had been searching for the brains of the gem thieves for many exciting weeks, and were now ready to ask for the indictment of a downtown insurance broker and seven fellow-conspirators.

"Well, Thatcher," grinned Dougherty, "I think I have found the higher-up."

(Copyright, 1932, by Covici-Friede, Inc.)

A thrill in the next installment when Colt sees the mysterious Carewe woman.

WORTH WALKING FROCK

Fashioned of Lightweight Woolen

—SKETCHED IN PARIS—

The Worth frock sketched is of light weight woolen with a fine, knotted weave in navy blue. The wide revers and deep collar of beige crepe suggest the Directoire period.

Minestrone as Cooked in Naples

By MARTHA LEE

AT LEAST once a week I rush counter to the wind and hie me to a favorite Italian restaurant for my quota of delicious minestrone, made with flavorful vegetables and herbs grandest Neapolitan. Minestrone delicously warmed on a grass with peppers and salt pepper, spaghetti with tomato sauce and spinach with cheese [illegible] is delicious.

The minestrone to [illegible] ed to the Lenten season and [illegible] hearty nutriment at minimum expense. It is a one dish meal served with plenty of grated Romano or Parmesan cheese and Italian bread [illegible] side.

Here's a minestrone recipe from Naples:

MINESTRONE

1 cup dried peas or beans; 8 medium (or 3½ cups) diced carrots; 2 cups diced potatoes; 4 cups diced celery stalks and leaves; ½ small white cabbage, shredded; ½ cup minced onion; 1 clove garlic, minced; 1 small bunch of parsley; 4 quarts boiling water; 2 tsps. salt; 2 tbsps. olive or salad oil; grated cheese.

Pluck the leaves from the parsley. Add with the prepared vegetables, beans and salt to the boiling water. Cover and simmer 2 to 3 hours. Then add the olive oil. Serve a dish of grated cheese with the soup at serving. Serves 8 to 10. If you are not an Italian soup, get the large round peas and substitute them for the beans sometimes.

Daily True Story

The Surest Way

SOFT MUSIC drifted out of the ballroom, where the country club's fall dance was in full swing. The lights were dimmer than usual, for this one was a waltz.

[illegible] Norton [illegible] at the door[illegible] was peering in and trying to pick out Eleanor Sprague. Her search, [illegible]ver, soon brought [illegible] to more than one of the dancers, going past [illegible] Tom was in a hurry [illegible] for Eleanor.

Tom [illegible] [illegible] [illegible]

ED LEWIS AND GARDEN FLOOR FLATTEN GARIBALDI

BOSTON EVENING AMERICAN SPORTS

FANNING

By GEORGE UNDERWOOD

"We Want Big Fites." Heuser the Hurricane. Tonight's Big Grunt. | *New Larruping Lith. Saturday's Carnival. Who Threw Overalls?*

Rambling Along Ahead and in Wake of News

Jimmy Johnston acted by Jim Farley the N. Y. Boxing Boss plans six big outdoor Gotham shows . . . He starts off with a light weight title scrap between Tony Canzoneri and Billy Petrolle. And will follow with the Sharkey-Schmeling classic . . . Then he wants to put Jimmy McLarnin vs. whoever happens to be leading the welterweight merry-go-round at the time, toss Ernie Schaaf against Primo Carnera and for September feature Jack Sharkey and Jack Dempsey . . . Great! . . . But what is Boston doing? . . . We have the fighters—the three greatest in the world . . . We have the arenas . . . But how about the fights? . . . Boston is the greatest sports city in the world . . . Isn't it time Boston got some of the real fistic plums? . . . If Boxing Commissioner Dan. Kelly, and Dick Dunn, the Garden impresario, only would go in a few huddles Boston might harpoon some of the big fistic fish . . . They're tossing Commissioner Kelly a banquet up in Worcester . . . Can't Kelly help toss the Bay State boxing patrons a few real scraps? . . . No harm in trying Dan, anyway . . . "We want Big Fites" . . . That's our slogan

Adolph Heuser—"Hurricane Heine" Boston's latest fistic sensation, wants to look out for George Manley's right when they put up their dukes in Cleveland tonight . . . The Denver scrapper can sock a bit, too . . . He's second in the N. B. A.'s light heavyweight rating . . . If Hurricane Heine takes" Manley the Boston Dutchman will be in line for a light heavy title bout with Maxey Rosenbloom . . . That's one fight which should be staged right in Boston . . . Go after it, matchmakers! . . . Hurricane Heine has boxoffice "it" . . . Jack Dempsey will be on the same card in Cleveland tonight . . . Don't know whether Jack is to box or referee . . . Speaking of Jack, the Old Man Killer continues to bowl over the palookas and with the 10-ounce gloves, too . . . The gangs that try to make it out Jack is a candidate of the Old Men's Home may have to eat their words yet . . . Dempsey at 50 will be better than most of the pugs in their prime. . . . Back to Heuser. Isn't the green German boy being rushed along a bit fast? . . . He may need a few more fights under his belt before tackling experienced fighters like Manley

HEUSER

Jack Conway strikes his blooming lyre and sings about tonight's Big Grunt between Don George and Bibber McCoy . . . Don is a favorite of ours, too . . . The former Michigan football star goes out at the gong and wrestles until he or his opponent is pinned to the mat . . . But for pure and unadulterated action, tonight, give us the Bad Man of the Mat, Charlie Strack, vs. Lee Wykoff . . . That pair is likely to pull the building apart as well as themselves . . . When Charlie and Lee tangle up it will be no place for a minister's son . . . When Strack and Wykoff begin their wrecking and demolishing it means war . . . Call out the Marines!

Fellows who know their fistic onions tell us if any Boston collegian makes good at the manly art of scrambling ears it isn't going to be Al Grayson, the Harvard art student or Johnny Dixon, the former B. C. football captain. The collegian the wise ones are watching closely is big, strapping 6-foot, 2-inch, 195-pound Joe Uzdavinis of Northeastern. When Joe was in Haverhill High his parents wouldn't let him play football despite pleas of coaches and undergraduates. His folks didn't know Joe had broken into boxing until recently, but apparently have resigned themselves to the fact their baby—they're always babies to Pa and Ma—can take care of himself. Big Joe has been taking care of all his opponents as well. He comes of the same Lithuanian fighting stock as Jack Sharkey, and Jack is his hero. At a corresponding stage of their careers, Jack Sharkey looked no more promising than does Uzdavinis. We're going down to the University Club lunch in the Garden tomorrow night along with a flock of others just to look over the big Northeastern athlete. We have a hunch that in the new Larruping Lith there may a champion in the making

UZDAVINIS

What will make the B. A. A. meet a banner one will be the flock of California athletes. It will be Boston's first and only opportunity of seeing the Western wonders. They haven't forgotten the sweetness either. Mary Carew will lead a flock of fleet Dianas on the boards. The dinky Arena track will not make for record-wrecking performances but you'll see some great races. We personally want to get a good peek at Leo Lermond. He was close enough to Gene Venzke in last week's figure fracturing mile to warrant the assumption the Nahant Flyer himself may do some time toppling before the summer season is o'er. By speaking of Venzke, the Mercury Footer starts in the Baxter Mile a week from next Saturday, and it wouldn't be at all surprising to see him shave something off his own recently created world's indoor figures. Lermond is likely to be in there pushing him, and—mayhap, beating him.

MARY CAREW

The riddle of who threw the overalls in Mrs. Murphy's chowder, or who hit Billy Patterson, is easy alongside of finding out exactly who "beaned" Young Kloby the afternoon of his mill with Eddie Shevlin . . . A couple of yawns ago we said it was Eddie's brother . . . But Billie Henderson sits down and, in an endeavor to prove it wasn't, writes four typewritten pages . . . Beats all what some people can find to do with their time . . . We had to look twice to be sure the foreign entries in the Winter Olympics were not the Fordham football team . . . Tom Reilly says an elephant never forgets and, in proof, points out Jess Willard declares Jack Dempsey can come back.

M'COY PERILS DON'S LOOKS AT ARENA

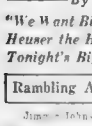
Jack Conway and Pretty Girl Pick George to Win

Just to please that pretty girl on the cigar counter at a Back Bay hotel I'm picking Ed Don George to win from Bibber McCoy at the Arena tonight," said Jack Conway. "She tells me Ed is her preacher and cream. Oh, well! Folks are only young once."

Conway increased his winning average when Stranzler Lewis defeated Gino Garibaldi at the Garden. Jack's 1932 record follows:

W	L	P.C.
11	2	.846

Perhaps there is some wrestler who carries around more gool looks than Ed Don George but if such is the case he hasn't appeared in a Boston ring . . .



Imagine how these cuties will feel as Bibber McCoy, just a rough boy from Cambridge, tries to ruin Don's map when they mingle in a flesh hunt, best two falls out of three, at a Paul Bowser show at the Arena tonight . . .

Before Bibber puts his best head to work that George would be sure to finish even in the second day of the Hardcome Gus—Leipzig show he gets through the ring he'll

George One of Best Wrestlers of World

George usually carries a copy of a moving picture magazine around with him . . .

Incidentally, George is just as great a wrestler as he is handsome. You can name the fellows who can lick him on the fingers of a one-armed man who has had three of his good digits shot off . . .

George won the heavyweight championship from Gus Sonnenberg. He laughed at Gus' butting tactics and took the title from him . . .

Then he lost the championship mule George a better wrestler. He became the most deadly creature on the mat. He ate up rival grapplers much like a healthy youngster runs a box of animal crackers . . .

Now they have Bibber in the other corner ready to rip George to threads. McCoy recently came from Al Morelli and makes no secret of the fact he plans to put the kibosh on George's neck. Such a happening would be to those beautiful babies in Hollywood what the world would then start chasing Bibber . . .

Farmer McLeod Snips at Pat Mckay

Farmer George McLeod, who doesn't make any secret of the fact he believes he can lick DeGlane and Browning will try to prove he is entitled to a big shot when he whirls into action against Pat McKay of Memphis in the semifinal McLeod has gone places with his flying head scissors. McKay would do well to grease back of his ears tonight as that McLeod's spurs won't hold . . .

Chas. Strack, probably the toughest bird in the wrestling game, will appear in the feature preliminary. Nobody has asked Bowser to permit them to pinch hit for Lee Wykoff of St. Louis . . .

Count Zbyszoff will take on George Lasha, while Al Morelli will try to knock off Tommy Texis . . .

Complete Card at Arena Tonight

MAIN EVENT

(Finish match, best two in three falls.)

Ed Don George, former champion, vs. Bob "Bibber" McCoy, Holy Cross.

SEMIWINDUP

(One-fall match, 30-minute limit.)

George Lasha, town farmer, vs. Pat McKay, Memphis.

PRELIMINARIES

Charlie Strack, Oklahoma A & M., vs. Lee Wykoff, St. Louis University.

Count Zbyszoff, Ukrania, vs. George LaSan, Canada.

Jake Patterson, Syracuse University, vs. Harold Weaver, University of Chicago.

Al Feuerbach, Dorchester, vs. Pats" Carmichael, William and Mary.

Al Morelli, Boston College, vs. Tommy Texis, Greece.

Al Beveridge, Boston, vs. Charlie Hansen, Swedish champion.

John Grandovich, Russia, vs. Nick Yilch, Serbia.

Eddie Elsen, Denmark, vs. Lloyd Stuart, Boston.

A CLOSEUP OF BIBBER'S PLAYMATE

EVER SINCE HE MET DE GLANE AT THE CROSSCUP SHOW, GEORGE HAS BEEN SEEKING ANOTHER TITLE CHANCE

FLYING TACKLES DON'T SEEM TO HAVE ANY EFFECT ON GEORGE. THE MAN POSSESSES AN IRON STOMACH

A handsome guy is ED DON GEORGE, former world's heavyweight wrestling champion, but as rough and tough as they make 'em. Bibber McCoy is likely to find that out when they go to the mat at the Arena tonight.

'Bull' Durham Signs With Sox; May Be Ace of Corps

The signed contract of Ed "Bull" Durham, young right-handed pitcher, was received at the Red Sox office today, according to an announcement by Secretary Hy Mason.

Durham, after starring as a relief pitcher during the early part of last season, became one of Manager John Collins' most effective starting flingers. He is counted upon to prove one of the team's mound aces during the coming campaign.

WILD DIVES TO CONCRETE QUELL GINO

By JACK CONWAY

If Gino Garibaldi is ever going to get anywhere in the gentle art of wrestling the promoters will have to put netting outside of the ring in order to keep the Italian heavyweight from tumbling out on stone floors.

Of course some friendly entrepreneur might solve Gino's perplexing problem by placing a tank of water on each of the four sides of the ring. If this were done, Garibaldi would not injure himself when he went skyrocketing through the ropes . . .

I did not wish to make this latter suggestion to Toots Mondt, matchmaker at the Boston Garden. Toots, like every other promoter, sees angry merely at the mention of the word water. Like other old-time mat heroes, Toots probably figures that too many of the present day crop of grapplers go into the water without any water even being around . . .

Strangler Weakening When Gino Takes Flight

It was probably just as well for Stranzler Lewis that Gino insisted upon making reckless tackles, which eventually sent him crashing through the ropes to the floor of the Garden. It appeared that the Stranzler had a severe cold and was beginning to show signs of being tired when Gino went shooting through the ropes . . .

Garibaldi was in poor condition when he returned in action. Stranzler looked through his bag of tricks and found that the faithful headlock was still in working order. He applied it three times, and the final grip was enough to put Gino out of the picture. The time of the fall was 34 minutes 5 seconds . . .

The big fellows remained in the ring during the five-minute rest period. Both appeared tired, while Gino complained of a pain in his back. I suppose that even a wrestler's back is not stout enough to win an argument with a stone floor . . .

Garibaldi was a weak looking person when he returned. Stranzler Lewis didn't find it necessary to call his headlock into play to win. He used a half nelson and body hold to score the winning fall in 40 seconds . . .

Ray Steele of California gave Al O'Shocker of Salt Lake City a lesson in wrestling etiquette. Pat insisted upon punching Steele on the kisser. He thumped Steele through the ropes, and then chased him through the front rows . . .

Steele was the first back into the ring. His pride had been injured by O'Shocker's crude methods, and so he pinched up and slammed him to the canvas for the winning fall in 17m. 45s. Steele isn't the kind of a fellow to be trifled with by anybody . . .

Looks as if Ray will be the Stranzler's opponent at the Garden a week from next Wednesday night.

BOBSLEDDERS WASHED OUT

Lake Placid, N. Y., Feb 11 (AP) A heavy downpour of rain today after a sixteen-mile to semi-ra caused postponement of the four-man bobsled competition on the Mt. Van Hoevenberg course.

The snow packed in huge drifts on slopes of the last few days, was rapidly melting under the downpour of rain, and the outdoor hockey arena and Olympic skating course was turned to slush from a steady rain.

Olympic authorities were hopeful the sled runs, only other event on the days official program could be held this afternoon as scheduled, but there was little promise even of that, with the rain continuing.

An exhibition hockey game between a combined team of United States and Canadian Olympic players and the Lake Placid Club team scheduled for the indoor rink tonight and is not affected by the weather.

Winchester Miss Gets Third Award

Lake Placid, Feb 11—Sonia Henie of Norway, won another Oscar for figure skating championship here defeating the strong field by a wide margin.

An Austrian, Fritzi Burger was second, Maribel Vinson of Winchester, Mass., U. S. entrant took third. Constance Samuel of Canada was fourth, and Vivi Ann Hulten of Sweden, fifth.

Miss Henie's exhibition was one of the greatest ever given in solo ice work. She cut her name into the Olympic records with a beautiful succession of free figures.

The U. S. hockey team continued its win streak by defeating Germany, 8-0. The home club showed its best hockey to date.

Garrison and Chase were the standouts of the U. S. team.

Y. M. H. A. Five Host to Hyde Shoe Team

At the Boston Y. M. H. A. gym Seavee at., the Hyde Shoe outfit of the Greater Boston League will attempt to stop Capt. Johnny Fox and his Y. M. H. A. boys.

With Frankie Neal, Meeker Kawaguller, the two Lytches, Leo Clancy and Izzy Katz in the lineup, the Hydes are a formidable array.

Boston Y. M. H. A. will send Capt. Johnny Fox, Flo Cubell, Bill Feinberg, Harry Greenblatt, Nate Shrair, Nate Hurwitz and George Gordon on the floor.

20 Entrants for N. E. Sled Dog Races

Laconia, N. H., Feb. 11—The New England Sled Dog Club champion ship races here tomorrow, Saturday and Sunday, already has attracted an entry list of 20.

MR. BOSTON

By JACK CONWAY

MARTY KILLILEA, who piloted Johnny Wilson from the Morning Glories of Charlestown into the middleweight championship of the world, tells me he has taken over the management of Joe Delmont.

The latter is a welterweight and won the junior nationals, international, Golden Gloves and New England honors before quitting the amateur ranks.

Wilson was the first Boston fighter to get the big jack in New York. Tex Rickard paid Johnny $18,500 when he successfully defended his title against Mike O'Dowd over the 15-round route on St. Patricks Day night in 1921.

I went over on the train to New York with Wilson and Killilea. The mid-dleweight boss had a bad left duke, but he wouldn't think of asking for a postponement.

Mr. Boston

He wanted to see what $48,500 looked like.

Bill Farnsworth, acting for the New York American Christmas Fund, authorized me to offer Wilson a $60,000 guarantee and Harry Greb's end of the purse, figured to be worth $25,000, for a title shot with the Pittsburgh Windmill. The offer was turned down. Wilson later dropped his title to Greb. The bout was lost in the ballyhoo of the Dempsey-Firpo jam, and Johnny only collected $15,000.

I always thought the high spot of Wilson's career was when he knocked out Jock Malone at Braves Field. Wilson went into that bout with the town on his back, but he gritted his teeth and fought his way into the clear . . .

JOE MCARTHY of South Boston had Tommy Robson scrapping with Chick West at the old Commercial Club when Killilea first crashed into the boxing game. Robson was supposed to make 145 pounds, but could not get anywhere near this notch. The weighing in was hooked for George Beyers . . .

B. U. Frosh-Exeter Hockey Clash Off

The scheduled hockey game between the Boston University freshmen and Exeter has been indefinitely postponed. The Terrier management received word this morning that the Exeter rink is in poor shape and a game today would be impossible . . .

The Terrier cubs, with one of the greatest outfits in the history of the school have had hard luck all year. This is the fifth game they have been unable to play because of inclement weather.

Gym in the West End.

"Got a job for you," McCarthy told Killilea who barely weighed 142 pounds at the time. "Come along."

Joe entered Revere's Gym and immediately put the lights out of commission. An old kerosene lamp was brought forth . . .

Neither Wilson nor his manager had ever seen Robson, and they didn't know what he was all about when Killilea weighed in for Tommy . . .

That night McCarthy left a towel over Robson's head until the gong sounded for the opening of the first round. West's eyes popped out of his head when he got a peek at Tommy. The latter weighed 155 pounds, and won by a knockout . . .

McCarthy Great Friend to Telephone Company

McCARTHY, a former blacksmith, entered the fight game as a boxer. After he suffered a couple of quick knockouts, he got smart, and became a manager. Joe used to tell me he had to win with the first punch, or he would fall down from exhaustion.

Joe later became matchmaker for the Faneuil Club which was run by Dan Carroll and Johnny Mahoney.

One day Mahoney rushed into the club's office highly excited.

"Joe," he cried, "Our telephone bill for the month is $500. Go easy on that 'phone or we'll be in the bankruptcy court."

Joe picked up the receiver and asked for the toll operator.

"Get me Ned Lewis in the Garrett Building in Chicago," he said.

You can still hear the echo from Joe's yell as Mahoney closed the door of a safe on one of McCarthys' feet which was broken at the time.

Even a Colonel Loses His Patience

COL. BOB MCKIRDY lost five pounds as he listened to Eddie Mack, his matchmaker in the Commercial Club talk for 15 minutes about trivial matters with Jim Daugherty during a 'phone call from Boston to Portland, Ore. Mack ended up by signing George Godfrey to meet Jack Sharkey.

JOHNNY BUCKLEY probably uses the telephone more than any man in Boston. He calls Chicago and California much like the ordinary person does one of his suburban friends.

ALL OUT FOR HUNTER MILE

By GEORGE UNDERWOOD

When the clerk of the course calls "All out for the Hunter Mile" at the B. A. A. meet in the Arena on Saturday night a corking field of milers will go to the barrier, even if Gene Venzke, the Record Wrecker, will be among the missing.

Leo Lermond who finished six yards in the wake of the figure fracturing Swede at Providence might have caught him if Jim Crowley hadn't cut in heroes and allowed Leo to get the jump before Leo knew that was happening, will have another 415-miler Orval Martin of the George Lermond Los Angeles A. C., to beat. Paul Kanaly, Earl Cahalan and Matt Bisks, Bart Sullivan's Holy Cross protege all are strong enough to be dangerous . . .

Marty Killilea

George Lermond, the West Pointer, brother to Leo, has entered the 5000 meters special and with Gus Moore also facing the barrier Joe McCluskey is going to have his troubles. Lermond won the 5000-meter race in the Newark K. of C. games last Monday night and is all set to surprise the Fordham Flyer . . .

The sprint races have attracted the cream of the country's dashers, including George Simpson, Ira Singer and "Hank" Bruder. In the hurdles Monty Wells will have to fly the fences in figure fracturing form to beat Bob Maxwell and Dick Pomeroy of the Los Angeles A. C., Jack Collier, the old Brunonian, and Arthur MacDonnell of Holy Cross, who is coming along fast . . .

George Spitz, the world's greatest highjumper, will be seen in his specialty, and the other field events are replete with stars. History always is made at the B. A. A. meets. Saturday's big carnival will be in keeping with the reputation and traditions of New England's great athletic club.

St. Joe's Amateur Ring Show Feb. 20

Bill Cuddy will have his St. Joseph's T. A. S. amateurs back in the ring Saturday night, February 20, when he holds the first elimination tournament of his Diamond Ring series. Classes will include 112, 126, 135, 147, 160 and 175 pounds, all open . . .

The tournament will be run along the lines of the recent Golden Glove series Cuddy staged.

Leo Pinetsky Flings Pair in Brief Bouts

Leo Pinetski of Poland, who likes his opponents a little but well done, ate nine or 10 slices and then trotted into the ring with two different opponents. The Polish giant, six feet eight inches tall and weighing 250 pounds, tossed Don De Laun of France in 2m. 20s. by using a body lift and slam. Leo worked some throwing on Max Maxos, Greek heavyweight, in 4m 45s with a body lift and slam . . .

George Zybrisak of Detroit used a headlock to win from Jack Schaeffer of Cambridge in 11m. 53s. A kick out of watching Jack Washburn of Los Angeles flatten Paul Harper of Houston in 10m. 45s. What was the winning hold? A couple of right-hand belts to the jaw which knocked Harper as cold as a bill collector's conscience . . .

The crowd booed merrily when Cyclone Burns failed to disqualify Washburn. Of course punching isn't just the right thing to do in a mat contest, but then the boys and girls like their wrestling rough . . .

George Kotsonaros Greek heavyweight in the amateur ranks, Jack and Fred Grobmier of Lynn went 10 minutes to a draw . . .

Eddie Burns failed to disqualify Joe Simkus in 10 min. 18 sec . . .

Kolo Kwariani of Russia didn't have much trouble pinning Frank Spears of Georgia Tech in 18 min 53 sec. with a half nelson and crotch hold . . .

Dick Shikat of Germany knocked off Sailor Jack Lewis in 7 min. 38 sec. with a body lift and slam . . .

A crowd of 7500 fans attended the show . . .

Providence Y Mat Team Meets Newton

The Newton Y. M. C. A. wrestling team will take part in a meet with the Providence Y. M. C. A. this spring and next season. Newton won easily from Providence earlier in the season in the Rhode Island City.

YOST SAYS OFFICIALS CAN MAKE GAME SAFE

NOTED COACH DEFENDS FOOTBALL

Ann Arbor, Mich., Feb. 11 (AP)—An investigation conducted by Fielding H. Yost, athletic director at University of Michigan, has disclosed that of 43 deaths charged against football last fall only 22 actually resulted from the game.

Yost investigated each death and has submitted a report to E. K. Hall chairman of the football rules committee, for its meeting at Hanover, N. H., which opens Friday.

Of the 21 reported deaths which Mr. Yost believes should not be charged to football, two were caused by pneumonia, one by infantile paralysis, one by kidney disease, one by appendicitis, one by typhoid fever, six by infections and one by heart disease. One boy was injured while wrestling, another was struck by a truck. One boy was found alive and well, and another who was reported dead was found never to have existed.

Only Seven College Players Died of Injuries

The 22 who died following actual participation in football games were classified as seven college players, seven from high schools, and eight "sand-lot" or unorganized players.

Causes of death were given as follows: Fracture of cervical vertebrae, eight; cerebral hemorrhage, four; peritonitis, four; coronary embolism, fracture of skull, ruptured spleen, concussion of brain, one each. Two deaths were reported from unknown causes.

"It is proper," the report says, "that football should be cleared of the responsibility for the deaths improperly charged against it. At the same time, it is also fitting that football take stock of itself to see what risks may be eliminated and what safeguards may be raised to prevent deaths in the near future."

Only One Death Due to Roughness

Only one report of a football death suggested that roughness was a contributory cause of injury.

Yost offers four suggestions to make the game safer:

"All equipment should be designed not only for the protection of the wearer, but also with consideration for the safety of the opponent.

"Players should be impressed with the great importance of paying immediate attention to cuts, abrasions and other avenues of infection.

"Great attention should be paid by officials to improper use of knees and hands.

"Officials who will penalize unnecessary roughness."

Dempsey to Meet K. O. Christner Here

Cleveland, Feb. 11 (AP)—Another of Jack Dempsey's barnstorming bouts will top off a fight card here tonight with K. O. Christner of Akron as his opponent.

Although the Manassa mauler was the favorite to win, Christner, the "Akron rubber man," will be a dangerous opponent for the fourground go.

Hockey Giggles

By BILL GRIMES

Before entering the N. H. L., one of the present day stars was the victim of practical jokers during the days he was playing in a mid-Western league.

One season a manager of one of the Pacific Coast league teams, who is now piloting a big time club, made a practice of signing girls' names to weekly notes to this star, asking for autographed pictures. As the star was laboring under the impression that he was a shiek, he never failed to accede to the requests.

By the time the season closed, the manager was in possession of a truck-load of autographed pictures of the star.

Not satisfied with his quest for pictures, the same manager attempted to further complicate matters by persistently endeavoring to get this player to jump his contract and join one of the Pacific Coast clubs.

The steamup had been so thorough that the player was ready and willing to do anything which would get him out of the busy league. So, he finally agreed to dye his hair, advancing the opinion that the fans would never recognize him as a peroxide blond.

When the kidding reached this stage, the manager felt that he had reached the limit and there was called off negotiations. Put to this day the player does not know that he was taken for a couple of rides. Due to his innocence and his unfailing belief that he was the shiek of hockey, he

Boston spares—Klein, Chapman, Oliver, Galbraith, Jerpea, Boyd, Pratt, Owen. Maroon spares—McVicar, Starr, Stewart, Brydson, Smith, Phillips.

By BILL GRIMES

From the viewpoint of the contesting teams the outcome of the Bruins-Maroons' game at the Boston Garden tonight is one of the most important of the season.

If the Bruins win they jump into third place, for they are only one point back of the Falcons, who are idle this evening, while a win for the House of Cleghorn will put the Maroons on even terms with the Americans.

The Bruins and Maroons have been floundering around in last place of their respective divisions for weeks, despite the fact that neither club is by any means the weakest in its section.

A week ago in New York, the Bruins hung up their second victory in more than a month by shutting out the Americans and then after a setback by Toronto, they came back and tipped over the Rangers.

The Bruins and Maroons will hop to it this evening as they did in the good old knock-down and drag-out days. When they are playing a game of hockey they know little about. They have been trying to lead the public to believe that they are as proficient at scientific hockey as they were when they indulged in rugged play which won them the titles. Battling Bruins and Mauling Maroons.

Eddie Shore and Lionel Hitchman are two of the outstanding defense men in the National Hockey League when they are allowed to play according to Hoyle and with proper protection. It is not necessary to hold any brief for Tiny Thompson.

Eddie Shore, Marty Barry and Dede Klein were somewhat hung up in the Ranger game, but they will be on deck this evening. The Maroons will have Hooley Smith back in the lineup after an enforced absence due to three major penalties.

Today's Selections and Scratches

HAVANA SCRATCHES

1—Wire Walker, Georgia Lily, Chilly Maid, Principalits.
3—Perfect Gal, Ruby Dear, Pandia.
5—Pernoel.
6—Cedar Crest, St. Relief, Imperial Ar, Captain's Daughter.
5—Cabana, Loyola, Ray Ruddy, Granite Dust, Broken Sound, Spectre.
7—McCulloch, Heithroun.

Shires to Report at St. Petersburg With Braves' Batterymen

Judge Emil Fuchs and Manager Bill McKechnie of the Braves are in town from Pittsburgh where they were at the funeral of Barney Dreyfuss.

McKechnie came to confer with Judge Fuchs regarding the spring training trip.

Art Shires wants to report to camp with the battery men, and has been given permission to do so.

Ball Players Give Up Aerial Flights

Chicago, Feb. 11 (AP)—Amer[illegible] Association clubs have given up their threats to travel by air next season.

Thomas Jefferson Hickey president of the class AA Baseball League today said that the railroads had offered an attractive reduction in rates, which had been accepted.

The threat to travel in the clouds was made by the league solely to get such a reduction in railroad rates at first although air transport club owners were strong for the proposal regardless of lower rates. The Columbia team made several aerial trips last season and was a keen sponsor of the plan.

B. U. NINE MINUS MENTOR

Boston University's election of a varsity baseball captain for the coming season, scheduled to take place this afternoon, has been postponed. As the lettermen were not [illegible] fired and as a result the election will not take place until next week.

In [illegible] the Terriers started indoor practice but the middle of February, but this year, due to the shifting of athletic policy the authorities have neglected to name their coach for the coming season and as a result, practice may be late in getting under way.

Joe Gilmore

It is expected that Joe Gilmore who has directed the locals to two successful diamond seasons, will again be responsible.

CUBS LOSE TO REDS, 1 TO 0

Providence, Feb. 11—Rhode Island's fighting Reds were too much for the Bruins Cubs here in a wild Can-Am hockey war, as the Reds won, 1-0.

Twenty penalties, including three majors, were handed out by Referees Carl Jacobs and Bill Stewart. The officials were the same who worked in the riotous game of last Saturday night in Boston, when flying fists and bottles enlivened the contest.

For once the referees were popular. They drew a big hand when they skated on the ice for the start of the game.

Gus Rivers' goal in the second frame, on a great solo sprint the length of the rink, provided the Reds with the narrow margin.

Rivers stick-handled through the entire Boston team to beat Jerry Jackson with a back-hand shot.

With the penalty box crowded through the game, a total of ten being by Bill Beveridge, in the Providence nets, and Jackson in front of the Boston cage, kept the score down.

Roger Cormier of the Reds, and Frank Boyd and Bud Cook of the Cubs drew the majors. Cormier was banished for five minutes for cutting Max Sutherland with a high stick.

Schoolboy Slants

By GEORGE W. GRIMM

They'll have to go a long way to find a better basketball player than Larry Matson, forward on the Brockton high school five. He scored 28 points the other evening against New Bedford Vocational with 12 successful shots from the floor and four fouls.

Watertown high's prospects for the rest of the season on the track look bad with the loss of 1000-yarder Jimmy Thurber because of ineligibility.

Thurber was not only an almost sure winner in the 1000-yard event, which he won at the Northeastern interscholastics, but also anchorman on the relay team.

Huntington Schools track team is expected to beat Newton for the B. A. A. title at the Arena on Saturday afternoon. Callahan in the 300, Ellis in the 600, Jackson in the 1000, Capt. Kersey in the dash and Zaita in the shotput are all strong members of Win Marling's Huntington team.

Manager Dick Dunn, unsuccessful in his attempt to get a New York indoor schoolboy hockey team to visit the Boston Garden on Feb. 22, has arranged for a visit from a Providence group.

LaSalle Prep, Cranston high, Providence high, East Providence high and Hope St. high will contribute players to the all-star sextet from Providence.

There will also be another game on the bill with Framingham high playing Quincy high. Framingham played Norwood on the Exeter-Andover program last Saturday and won, 7-0. Some of the fans said that Framingham's sextet looked like a stronger outfit than either of the academies.

The Greater Boston team will be picked at a meeting of officials at the Manger on Saturday morning. About 12 of the best pucksters in the loop will be selected and they will be equipped with special uniforms by the Boston Garden.

Charles Gore, once of Lasell school and former State outdoor half-mile champion, will be wearing the colors of Worcester Academy in the 1000 at the Unicorn games on Saturday.

Fly-paper Mitts, Shoes Used for Joiners

The new member would be blindfolded and his hand and feet covered with fly-paper, after which he would be escorted out to the college cemetery. Following a series of stunts among the tombstones, his mask would be removed and he would discover his initiators engaged in a crap game.

Then, before he could make up his mind just what it was all about, he would hear a shout, "Hands up, in the name of the law," and the dice manipulators would start running. He, of course, would join in the flight and the laugh would come from watching his efforts trying to make progress with his hands and feet encased in fly-paper.

A certain new member became so frightened he knocked over several head stones and reached home with his clothes in shreds. That mishap quieted the boys down for a spell, but it took a wild-eyed yarder from a neighboring town to bring the prank to an end.

This particular member went through his initiation without a murmer. He took it very seriously.

Town Barber Took Loss Without a Murmur

The next morning he stepped into the barber shop and had a shave, haircut, shampoo, massage and when he got up from the chair he told the barber, whom he had seen among the initiates the night before, to charge it. Which said barber did, after one look at his burly customer.

Owners of other stores, however, knowing nothing and caring less about the "union," demanded cash from the stranger and he proceeded to wreck a few of the town's best-known mercantile establishments.

Thus the "union" disappeared from Italy.

All this while, Art was starring

as an all-around athlete in high school and, upon completion of his course, he began one of the most amazing college careers in the history of American education.

That's tomorrow's story

Art and Pals Kept Town Residents on Jump

This is the fifth of a series of highlights in the career of Arthur, the Great Shires, colorful new first baseman of the Braves, written by Joe Cashman, baseball expert of the Boston Evening American. Other installments will follow daily. Watch for them!

By JOE CASHMAN

"Joining the Union," the favorite prank of Art Shires and his boyhood companions, was an idea of an older brother of the Braves' new first sacker, who was also a ball player and later became a manager in the Texas League.

The boys would hunt up a gullible newcomer to Italy and in form him that if he joined the union he wouldn't have to pay cash for anything he wanted. He could charge everything to the union, pay the gang later and get 50 per cent off his local debts.

There were no entrance fee or dues. All one had to do to become a member in good standing was to go through a "simple" initiation ceremony. It was not to be wondered at, therefore, that the majority approached, readily agreed to join.

Then the fun began.

GERMAINE IN WIN OVER ALI

Ted Germaine, South Boston, pinned Ali Baba twice to win the feature bout of the Massachusetts Wrestling Association show at the Shubert Theater.

Ali Baba, pretending to salaam, would come out of his bows with flying tackles to floor Germaine. The first fall went to Ali Baba after 18 minutes, 43 seconds.

Baba hit the canvas in 13 minutes 29 seconds. Germaine won the third fall after 9 minutes and 21 seconds.

The semifinal between Fred Rino New York, and Sam Gardner Villanova, ended in a draw.

Other results:

Charles Pintus, Hartford, and Bill Rabbas, Watertown, Mass., draw; Art Flynn, Lawrence, defeated Al Whiting, Texas, flying tackle, 8m., 4s.; George Limousis, Chicago, defeated Angelo Constantinople, Greece, flying tackle, 10m.; Bill Dolan, Dedham, and Rocky Stone, 15m. draw; Marcel Sevas, Nice, France, and Jim Mercer, Canada, 15m. draw; Rabbi Selmo, Turkey, defeated Jack Morgan, Tufts, back fall, 12m. 7s.

Seattle Swimmers Claim New Record

Everett, Wash., Feb. 11 (AP)—A new American record of three minutes, 47 1-5 seconds, for the 300 yard women's medley relay swim, was claimed today by the Washington Athletic Club women's team, of Seattle, headed by Helene Madison.

The team, made up of Dawn Gibson, back stroke; Neva Whaley, breast stroke, and Miss Madison free style, bettered the old mark here last night, with Miss Madison covering her 100 yards in 60 3-5 seconds.

The official record, three minutes, 49 seconds, is held by the New York Women's Swimming Association.

Faber Signs 19th Time With White Sox

Chicago, Feb. 11 (AP)—When Urban "Red" Faber first started to toss baseballs the sages of Cascade, Ia., advised him not to jump around from job to job too much. So "Red" took the advice to heart.

Today he turned in his signed contract for his 19th straight season as pitcher for the White Sox, a new record.

Faber, spit ball artist, will be 44 years old next September.

Barnes, Pole Vault Champ, on the Jump

Los Angeles, Feb. 11 (AP)—Lee Barnes, holder of the world pole vault record, has decided to forget about retiring from competition for at least another year. Barnes announced today he will train for the Olympics and take part in meets this spring with the Los Angeles Athletic Club.

Fight Result

At Clarksburg, W. Va.—Dick Powell, Ohio, d. Greg Stanton, Ohio, dec.

CHAMP STUCK BY WRONG WAX

Lake Placid, N. Y., Feb. 11 (US)—The wrong wax, not lack of technique, is what lost the 18-kilometer ski championship for Nels Evenson, Norway and its defending champion, Johan Grottumsbraaten.

Sven Litterstrom

The most important part of skiing is the wax you put on your skis. A fair-to-middlin skier carries a few kinds in his kit and can tell the name of any by its smell.

The Norwegians got the wrong scent and Sven Litterstrom of Sweden, who got the right one, came home as the new champion in 1 hour, 23 minutes and 7 seconds, scooting down twisting, snow-packed paths with nary a snowflake sticking to his skis.

The new snow was soft. Norwegians waxed in preparation for hard snow.

By the time they reached Mount Whitney, 12 kilometers out on the course, the snow began clinging to their skis. The Norwegian plugged on. At the end Grottumsbraaten collapsed.

100 Report for M. I. T. Crew Work

Mass. Tech rowing season was opened at the Tech Boat House with 100 men reporting to Head Coach Bill Haines.

The Daily Dozen

By MYLES T. McSWEENEY

It appears that although Jack Dorval needs a haircut, he balks at getting a Schaaf.

Schaaf is as dangerous as a blonde hair on a newlywed's coat.

If Schaaf keeps up knocking persons out, the only way he'll be able to get a fight will be for him to get married.

And we'll bet 10 to one on the wife.

All heavyweights weigh about 112 pounds after Lohengrin's wedding march.

Heavyweights, after the knot is tied, weigh 16 ounces lighter than a straw hat. Which weighs about a half a pound.

John Gillooly, one of our smart sports writers, whispered the following note: "Tom Hasty, former Boston College comedian, will appear at the Majestic Theater on Friday night, Feb. 26. His friends plan to give him a big welcome."

"Gil," said we in our most succulent tones, "this is not a sport note. How can we use it?"

"Well," said Gil, "Hasty used to run for the street cars."

Hoo Kee, Gil.

Not that we care particularly, but where is the game warden?

Jack Dempsey is going to fight Kingfish Levinsky.

Between Levinsky and a dead haddock, the haddock, our bet says, will look more alive after three rounds.

Wrestlers from the Lynn Y. M. C. A. will grapple with the Boston Y. M. C. A. matmen at the Huntington ave. branch tonight at 7:30 o'clock.

Financial News, Stocks, Bonds and Comment

GIBSON PLANS TO MAKE DIRECTORS DIRECT

By B. C. Forbes

"DIRECTORS SHOULD direct." You've often heard that. Harvey D. Gibson who has been coming to the front more than any other New York banker, who raised more than $18,000,000 for unemployment relief, who greatly pleased the financial world by taking over the control of the Manufacturers' Trust, and who has just absorbed another large bank, giving his institution total resources exceeding half a billion dollars, tells me of a novel plan he is to introduce to see that his directors take an active interest in actually directing.

Instead of the customary monthly meeting, his board will meet once a week, thus doing away with a lot of committee meetings.

He is to pay each of his forty directors $1200 a year—provided he attends every meeting.

To encourage them to attend, absentees will be "docked" their fee.

For money which did from directors who do not attend meetings will be distributed as extra compensation to the directors who do attend.

Precedent Proves Plan Works

Said Mr. Gibson to me:

"I want working directors. After the regular business has been disposed of at board meetings, half an hour will be devoted to going over specific accounts and specific 'prospects.' Certain directors will be allotted certain accounts to go after. At the following meeting they will report on what they have done.

"Naturally, our 40 directors, all men of importance and influence, have many affiliations and many friendships. Altogether the 40 touch business at a great many points. By having them actively working to build up accounts, we should be able to develop deposits vigorously."

Mr. Gibson's bank, the old-established Fifth Avenue bank had a somewhat similar plan for rewarding directors attending meetings. The day of the historic 1888 blizzard was a directors' meeting day. Each director figured that none of the others would brave the terrific storm and that he, by attending, would pocket the fees of all the others. The extraordinary result was that every director showed up!

In these trying days it is refreshing to find one chief executive—like Harvey Gibson—who is heroically bucking the tide and accomplishing notable results.

Little Lesson for New Yorkers

Here is the inspiring story of a concern that has been able successfully to overcome adverse conditions, hold more business, increase its working force and improve its profits:

Out in Denver, Colorado, a financial gentleman whose hobby was the idea of introducing into this country investment trusts along the lines of British trusts he had carefully studied. His offerings met a most gratifying response.

Thus encouraged, he decided to invade the financial center of the country. Opening a tiny office in New York, he began to operate. There was little competition in those days. Consequently, his pioneer efforts proved fruitful.

The "Wall Street Crash" brought a deluge of every conceivable scrap of so-called investment trusts. Some were sponsored by the biggest in the financial world, some by the lowest fly-by-night fakers. The wreckage since the panic has been shocking.

Yet what has been the record of this man from Denver?

Since the 1929 crash he has increased his total forces over 50 per cent. Salaries have been increased, not reduced. A Christmas bonus has been paid right along. Two new offices have been opened.

This quiet-looking banker, whose office is a veritable Napoleonic museum, is Calvin Bullock, revered by other less-successful promoters of investment trusts and respected for the integrity and ability he has consistently exercised.

Yes, once in a while a man blows into New York and teaches New York how to do it.

(Copyright 1932 by B. C. Forbes)

POLITICAL NEWS

CONFER ON TURNPIKE

Conferences are now underway between Brookline officials and the state Department of Public Works in regard to the section of the Boston-Worcester turnpike to be built in that town. With the joint interest of Rep. Albert F. Bigelow, chairman of the House Ways and Means Committee, Sen. Erland F. Fish, floor leader of the Senate, and Gen. Richard K. Hale, associate public works commissioner, all from Brookline, the town will not see the protection in the deal

SAVE MONEY

Members of the western delegation in the Legislature, who reside in an uptown hotel during the session, have solved the transportation problem in the State House matter as long as they are concerned. From Dalrymple brings the rate down a the 10-cent individual fare charged by no Boston

TOGA FOR DEWOLF

Noticing that DeWitt C. DeWolf, secretary to Governor Ely, always wears his overcoat as a cape in his excursions between the State House and the Bellevue Hotel, where he resides, several members of the House are talking about presenting him with a garment resembling the Roman toga

$50,000 ADDITION

City Councillor David Brackman, of Ward 12, Roxbury, says that the trustees of the George Robert White Fund have agreed to construct an addition to the health unit at Dawn at and Blue Hill ave., his district, at a cost of $50,000. Days says he has been promised funds for construction on the addition which will be called for within two weeks.

TO HONOR LINCOLN

City officials are to conduct an Abraham Lincoln memorial program over Station WAAB at 9:30 o'clock tonight. William L. Anderson, assistant secretary to Mayor Curley, will preside. Asst. Dist. Atty. Daniel F. Gillen will be the principal speaker of the evening, and John J. Shaughnessy another of the Mayor's secretaries, will sing a group of patriotic songs. William L. Anderson, Jr., will read Lincoln's Gettysburg Address.

GLEASON STILL IN RACE

City Councillor Richard D. Gleason, of Ward 9, Roxbury, announced today that rumors to the effect he has decided to withdraw from the campaign for election as sheriff of Suffolk county don't go. true. "Dick" says that he is not worried over the candidacies of his other Republican men for that office They are former Fire Commissioner Theodore A. Glynn, who is conducting an active campaign, although he has not made formal announcement of his candidacy as such, and Edward Richard Sennott. Dowd, of Ward 8, whose candidacy was announced in this column several months ago, who formally declared himself this week.

URGE TO RUN

Col. George Gilbody, former city councillor, is another of those whose friends are urging that they run for elective office as democrats in the coming Democratic National convention on the state ticket. George is very well known throughout the Commonwealth and is active in Yankee Division veterans affairs.

$17,045,500 Gold Shipped to Europe

New York, Feb 11—Gold amounting to $17,045,500 was withdrawn at the Federal Reserve Bank yesterday for export to Europe. Of the total $16,701,900 went to France, $200,000 to Germany, $100,000 to Holland, $40,000 to Switzerland and $40 to Belgium

Report of $1,070,200 from Canada and $575,000 from India and an increase of $100,000 in foreign earmark constituted the remaining items in the day's movement of the metal.

Grains Are Higher in Chicago Market

Chicago, Feb 11 (AP) Parallel to upturns in Wall Street securities grain markets scored a brisk early advance today. Credit expansion moves at Washington were a stimulus to active buying of grain future deliveries, wheat especially.

Opening ¾-2 higher, wheat afterward held near the initial gains. Corn started ¾-1¼ up and subsequently rose further.

Cotton Steady in New York Market

New York, Feb 11 (AP)—Cotton was steady today, 1 point off to 2 points up on overnight selling orders which were absorbed later by trade buying and covering. May sold at 6.53.

STATE ST. Hears:

That speculative forces put out their feelers on the long side, while conservatives held to their sideline position. The news was decidedly adverse, yet the selling element was unable to force an open break through the old lows. While it is not expected constructive interests will become aggressive until after the holidays, it is thought they will attempt to drive the weaker short following to cover.

Analyzing the News

A glance at Wednesday's news dispatches reveals the obstacles facing the bullish element. At the same time it shows the bears to be frightfully backward in capitalizing news that favors their operations. In the first place there were [illegible] of [illegible] of government's deficit when house with large Germanreported. Also there were revenue estimates which hint at a greater government loan than expected. Steel tonnage fell to a new depression low, and Eastman Kodak failed to pay the extra, which may lead conservatives to part of the regular disbursement.

It is hardly to wonder that a few professionals persist in trying the bull side when such news as the above is without sufficient weight to bring on selling that would definitely establish new lows on the accepted averages. If nothing more than a drift through old lows develops they will continue to pick up Chrysler, Nash, Bendix, United Aircraft and other favorites

Gillette

Buying which might be termed the best, is reported in Gillette. The stock has moved steadily forward at a time when the rest of the list could do little in either direction. The bond issue floated this company put out to compete the merger last year is said to have been substantially reduced. Obviously this indicates that the general financial condition is excellent, actual manufacturing operations are said to be running near end orders and the willow fig to the year's end sufficiently to suggest a dividend. This has been spoken of here before and there is every reason, on this occasion of bursement of about one dollar, in the opinion of usually informed brokers.

At present, however, the investment quality of Gillette would seem to lie with the bond issue. This bond, carrying a 5 per cent coupon, is due in 1940 and is selling around 85 on the "Big Curb."

Boardroom Briefs

Last December the status of the Telephone dividend was considered there from two different angles.

Both led to the belief that a regular would be declared in the first quarter of 1932. . . . There is no reason to change this opinion . . . in fact, unusually reliable interests tell this column to expect it, barring some unexpected Teutish economic happening. . . . The meeting is scheduled for next Wednesday . . . Some of the tension buying is imagined by the hops New York bankers will be able to bring on a 7-cent fare . . .

Selling of Consolidated Gas on rumors of a dividend cut seems too much like handing the inside about the stock talk to Mitch Miller on cover, for most astute observers.

J. G. Brill Co. Shows $997,666 Net Loss

J. G. Brill Co. for the year 1931 reports a net loss of $997,666 after expenses, depreciation, etc., as against a net loss of $43,728 in 1930. Income is compiled by the Brill Corp., a subsidiary of American Car & Foundry Co.

President

Frank W. Smith, president of the New York Edison Co., who has also been elected president of United Electric Light & Power Co. He succeeds Matthew S. Sloan, resigned in both presidencies.

EASTMAN HINTS U. S. MAY OWN RAILROADS

By FRANK H. MELOON

Joseph B. Eastman, Boston's representative on the Interstate Commerce Commission, hints that the United States government may yet own our railroads. He sees Uncle Sam as in the position of just one more "involuntary investor." Commissioner Eastman says he believes, however, that the rails will pull out of their present troubles. Nevertheless he states definitely:

"If we have any large number of receiverships, it may be the last straw so far as private ownership is concerned. The railroad situation at present is extremely critical."

• • •

Some in Wall and State Sts., lay the [illegible] to the [illegible] large measure to Federal interference. Even the "related" Fullerton case hardly changes blankets without asking consent of the Interstate Commerce Commission. The Bible says:

"No man can serve two masters."

American railroads are called on to serve the officials paid by the stockholders and also the set of officials at Washington. We think Mr. Eastman has been a good commissioner and find State St. opinion generally concurring with that view, but the I. C. C. as a whole has come far from satisfying New England interests.

• • •

Miss Elizabeth Humes, U. S. Trade Commissioner at Berlin, will be in Boston again Feb. 16, and possibly also on Feb. 17, to advise New England exporters and importers on trade conditions in Germany. Miss Humes will be at the Boston office of the U. S. Bureau of Foreign and Domestic Commerce, which is one away up in the 'teens at the reaches of the Custom House tower. When she chatted there with Asst. Secretary of Commerce Dr. Klein came back to Boston today.

Elizabeth Humes

• • •

Tomorrow: Lincoln's Birthday, will see New York and Boston Stock Exchanges closed, along with other security markets. Saturday's big markets will reopen. Saturday for the usual two-hour session. The New York Board of Governors, whose action sways all the others, decided to act negatively on a petition to extend the holiday by closing on Saturday. The negative action caused no cheers in State St. Practically no broker makes money through opening up his offices for two hours.

• • •

Current issue of the Pathfinder, nationally-circulated magazine from Washington, has an editor who doesn't mince news in this column; at least, he says:

"Toothpick sales in 1931 were splintered 6 per cent, we are advised by Frank H. Meloon, the Boston American's Financial Editor. However, he reports a Strong, Me., company preparing to use between 1100 and 1200 cords of white birch this year, as against 900 last, showing that the toothpick industry is 'picking up.' In other words, people are beginning to eat again."

• • •

We can add that Maine is mighty lucky to have industries to use up its hardwoods. Only soft wood has so far been expansively used for paper-making. Visiting lately on the frontier, we found this town hit by exhaustion of most of its soft woods. Formerly 3000 lumberwoodsmen came there in the winter to gather the tall harvest for the paper companies, and made industry hum. We asked Washington officials to see if any way could be found to use hardwoods for paper-making and later got some very fine samples of results they obtained. But the cost of making has not yet proved highly attractive.

Laundries' Profit Nets $1.61 a Share

Consolidated Laundries Corp. reports for 1931 net of $889,375 after depreciation, interest, federal taxes, etc., equivalent after dividend requirements on $7.50 preferred to $1.61 a share on 468,962 no-par shares of common, against $771,546 or $1.79 a share on 402,674 common shares in 1930.

Net for quarter ended December 31 was $168,212, against $233,762 in third quarter of 1930. Certain year-end adjustments adversely affected the last quarter of 1931.

Chain Belt Earns 70c a Share in 1931

Net profit of Chain Belt Co. and subsidiaries for 1931 was $83,043 after depreciation and Federal taxes, equal to 70 cents a share on 120,000 shares as against $314,711 or $4.29 a share in 1930. Current assets, including $1,199,833 cash and marketable securities, amounted to $2,821,603 and current liabilities $181,885, as against current assets of $2,908,883 and liabilities of $256,099 at the close of 1930.

Today's News of Live Stocks in Wall Street

TALK of a technical rally is the main bit of stock market conversation in board rooms today. The eve of a holiday in the past has been frequently picked as an opportune time for giving timid bears a scare.

American Can's Earnings Estimates

Estimates in Wall Street are that American Can earnings for 1931, which annual be published in about two weeks, will be around $5.50 a share. This compares with predictions in the latter part of last year of around $6 a share. While speculative interests have been talking pessimistically regarding the company's outlook for this year, it is noted that interests close to American Can are decidedly hopeful.

The extension of the consumption in what is termed the general line of the business, which is exclusive of the cans used for food products is pointed to as a factor having important influence for the future.

General American Tank Car Does Well

Railroad equipment has been unsatisfactory for several years, but General American Tank Car has been doing considerably better than any of its competitors. The big factor in the company is the diversification of its activities, which has permitted stability of earnings to an impressive degree during the period of general business depression and poor equipment buying by the carriers. In some quarters considerable is being said about operating efficiency, which has been an influence in the company's affairs for years.

Much Selling Is Seen in du Pont

Considerable selling has come into Du Pont several times since the reduction in General Motors dividend rate to a $2 a share annual basis, because of the fact that the company owns 3,341,200 shares of General Motors and its income has been correspondingly reduced. While the income of this is admitted in some quarters, there is a tendency among conservatives to regard some similar reduction in operations, which accounted for about 27 per cent of the company's total revenues in the past few years.

Du Pont is one of the three largest and best known units in the domestic chemical industry and manufactures a varied line of chemical products. The company was in a strong financial and liquid condition at the end of last year.

Endicott-Johnson Orders Increased

Interests close to Endicott-Johnson state that officials of the company consider the outlook quite encouraging at this time in that orders for shoes now being received are running ahead of the same time a year ago. There should be an improvement in orders for all the leading shoe manufacturers in the coming weeks, according to advices from authorities. They base this view on the fact that the Easter season is earlier than usual this year and retailers should be stocking shelves already for this seasonal business.

Some of the retailers have been slow in placing orders, but they are expected to become more active in the coming weeks in taking stocks from jobbers' hands.

A. T. T. Dividend Action Week Hence

Proximity of next Wednesday's meeting of American Telephone & Telegraph directors for dividend action finds opinion still pretty much divided on the outcome of that event. However, it is learned on semi-official authority that the management favors declaration of the regular quarterly payment of $2.25 a share at this time. Incidentally reports that the company has revised the employees' stock purchase plan to give $100 a share to current market as denied in responsible quarters. It is understood, however, that the Associated Utilities Co., which handles all the stock deals of the parent concern and its subsidiaries, is receiving an increasing amount of applications for the purchase of the shares.

Chrysler January Sales Worry Bears

Reports that the sales for January were within a few units of the same month a year ago is creating some nervousness among the short interest in the stock.

U. S. Steel Gets Big Tin Plate Contract

Talk that American Can had placed a large tin plate order with a subsidiary of the United States Steel Corporation accelerated activity covering the latter issue. The report of the contract involved a total of 400,000 tons of tin plate, deliverable to the purchaser as needed, and at a slight concession in price from current market levies for the product. Hope for an early turn in the steel industry was also aroused by Pittsburgh advices that sheet and strip prices might be advanced in the near future.

Consolidated Gas Estimates Revised

Latest estimates place Consolidated Gas earnings for 1931 around $4.95 a share.

N. Y. Central Loan Report

New York Central's president already has admitted the road is considering the advisability of approaching the Reconstruction Finance Corp. for a loan. It is understood that its initial application may involve an advance of approximately $7,000,000.

INSURANCE

Build Up Available Reserve for Old Age
Aim for Financial Independence
Temptation to Spend From Savings
Annuities More Widely Recognized

By FRANK F. LOOMIS

Hold on to your life insurance. Do not let your policy lapse.

The aim of life insurance is to provide for the replacement value of a man's earning power in the event of death and also to build up a reserve available to the insured when he reaches old age. It is the foundation of a thrift method system of income building through well-planned savings of earnings, until the goal of financial independence is reached.

Other methods of saving are often disappointing because the person saving the money cannot withstand the temptation to spend it for luxuries or current obligations or perhaps some luxury. If he invests in a life insurance policy, however, he will very rarely abandon his plan without a sacrifice to himself as well as to his dependents and he will keep his insurance in force if at all possible

• • •

People in all walks of life recently developed an understanding of the far-reaching effects of life insurance. More and more wealthy men are taking out large amounts in various forms in accordance with their own personal needs and business too.

The comfort and safety of annuities are being more widely recognized both for personal protection against the future and for business planning. Today there are many families that have little left besides their life insurance and under the present circumstances, it is more important than ever that this last safeguard against harm be kept in force.

Life insurance should be the first reserve created in a family's savings program and it should also be the very last reserve surrendered.

During the past two years many men have dropped their life insurance, or borrowed heavily on it in order to meet obligations that could be paid, or because they were unable to pay their premiums. Many policies have been surrendered for their cash value for the same reasons.

In some instances, it may have been absolutely necessary, but before letting his policy lapse the insured should, by all means, consult a representative of the company he is insured in as he may be able to point out a way by which his insurance can be saved.

• • •

After the original premium has been paid on a life insurance policy, the acquisition cost for securing the policy has also been paid and the policy increases in value each year.

The cash and loan values are available to the insured at any time and under extended insurance clause practically every policy will carry itself for the third year before the time it has been carried. Holders of life insurance policies are not always familiar with these clauses which may be taken advantage of to avoid the necessity of dropping insurance.

There are many dangers attending upon lapsing a policy. The insured might not be in proper physical condition when it was financially possible to take out new insurance. Also, the greater the age when application is made, the higher the premium. And the greatest danger of all is that your dependents are without the needed protection of your life insurance in the interim between the lapsing of your old policy and the purchasing of the new one.

If your premium on your life insurance policy is due and you cannot pay it, perhaps a policy loan for the premium will save the policy. Or perhaps a change to a semi-annual or quarterly premium rate can be arranged. If you will consult your agent, he will in all probabilities be able to solve your problem for you and enable you to keep your insurance in force.

• • •

The spendthrift family pays out its income with little regard to the future. It leaves the future to take care of itself. Provide for them now, to send the children to college somehow, if a great emergency should suddenly come, to provide somehow for the later years of the husband and the wife. In order to meet these aims and frequently more on the luxuries and enjoyments of the day. Then when trouble is encountered it is without resources. Such a family does not strike a balance between life's values which are real and necessary and durable and those of only temporary use or pleasure. Adequate life insurance is the one and only answer.

Boston balance	$16,000,000
Boston clearances	36,000,000

STOCKS RALLY VIGOROUSLY IN BOSTON

Stocks staged a vigorous rally in today's dealings on the Boston Stock Exchange with advances of from 1 to nearly 4 points being shown for leading issues. American Telephone gained well over 3 points at 114½. General Electric was up over 2 at 20¾.

Rails were strong with New Haven leading with a gain of over 2 points at 24¼. Pennsylvania and Atchison recorded gains of over a point. Boston & Providence was 2 points above its previous closing level.

Gillette was a point higher at 13 and gains of minor proportions were shown for Kreuger & Toll, United Shoe and First National Stores. Pigeon Sanford moved against the general trend and lowered a point to 15. Pond Creek Pocahontas was slightly lower.

Additional annual earnings statements made available during the past week bring the aggregate of comparable data of Standard Statistics Company to a total of 420 companies. Net income of these combined units amounted to $623,-879,000, as compared with $1,160,-870,000 in 1929, a decline of 45.3 per cent.

Utilities continue to occupy relatively the most favorable position, returns of 40 companies having registered a recession of only 6.9 per cent, as compared with the showing of identical units in the preceding year. Reports of 336 industrial companies showed a decline of 52.3 per cent, while 24 railroads experienced a drop of 57.9 per cent.

Sufficient representation is not yet at hand to warrant analysis by individual industrial groups, although as so far reported, it noteworthy that seven out of Standard Statistics' 26 regular classifications showed net deficits in view of the fact that late returns will show greater than average reductions in income, the company believes that aggregate corporate earnings for the year 1931 will prove to have been halved from those for the year before.

Safeway Stores, Inc., Sales Show a Gain

Safeway Stores, Inc., reporting for the first time upon basis of periods of four weeks, instead of upon the calendar month as heretofore, and including only continuing stores acquired during the past year had sales of $18,960,332 for the 4 weeks ended Jan. 30 last, as compared with $18,880,384 for the like 1931 period, a gain of 18½ per cents

SPECTATOR Says:

The industrial average slipped further down the price pendulum. The rail index, as measured by the Dow-Jones averages, broke its record of seven consecutive days of decline with a modest upturn.

Rails Bear Watching

The appearance of aggressive buying demand in the carrier division is a straw in the wind that will bear watching. Otherwise, the action of the rails is pertinent. Although the industrial averages in the Dow-Jones tabulation are still slightly above their previous low, the Standard Statistics industrial index has already penetrated into new low ground.

On the other hand, the current standing of the curbs is still a safe distance above the former lows, in both computations. . . . The rails are able to disregard any further outbreaks of liquidation that may develop in other sectors of the market from this point on, if they can produce confirmation of the theory currently expressed in many financial quarters, that the backbone of the major decline has been broken.

Aggressive Stimulation

Admitting that business indices fail to show any improvement to warrant such optimism as is current in stock prices, here is a growing belief among usually well posted observers that the [illegible] stimulation in the immediate future cannot be avoided.

It is held that, while it may take several weeks for special Government agencies to begin functioning, there is a definite program in the making, whether regarded as inflation, anti-deflation, or readjustment, which will serve to bring about a greater feeling of confidence in the business world.

NEW BUILDING IS PLANNED

Bids have been received at City Hall for the contract to build a Police Department building No. 4 and 5 on Berkeley st. and Warrenave., Boston, according to Brown's Letters, Inc., Construction Reports.

Lowest bid was submitted by Thomas C. Nolan of Boston, whose price was $239,660.

Other bids were: Rugo Construction, $243,221; J. A. Singarella, $243,-000; Bolduc & Savoie, $246,700; John B. Dolan, $254,000; John Bowen Co., $255,000; A. Piotti Co., $259,-272,000; S. Palmieri Const. Co., $166,000, $45,000, $123,000; D'Amore Constr. Co. $168,300, $46,000, $122,000; Coldwell & Hyde, Inc., $172,500, $371,000, $46,000, $126,000. Arthur Walsh 17,330, $49,973, $122,357; J. F. Fitzgerald, $172,500, $44,990, $127,960; C. B. Cunningham & Sons Constr. Co. $174,000, $44,700, $128,700; Matthew Cummings Co., $174,800, $45,000, $121,800; Bond Bros. 178,000, $45,885, $131,377.

Public Utility Corp. Shows 1931 Profit

Consolidated statement of Public Utility Holding Corp. of America, and its subsidiaries for the year ending December 31, 1931, shows a profit of $981,628 after expenses, interest, amortization, federal taxes and minority interests, but exclusive of $5,894,825 losses from sale of securities, which were charged directly to surplus or to reserves created from surplus. Stock dividends have not been included as income.

Write-downs of $41,210,702 in the value of securities to quoted market price were also made from value of investment in common stock of Indian Consumers Gas & Power Co., Ltd., which was carried at $1 were charged directly to surplus or to reserves created from surplus.

Shawinigan Water Reports a Deficit

Shawinigan Water & Power Co. for the year 1931 reported a profit of $4,130,438 after interest, depreciation, etc., but before federal taxes and in 1930. Deficit after dividends but before payment of income taxes was $740,625, as against a surplus of $426,946 in the previous year.

Northwestern R. R. Loadings Improve

New York, Feb. 11—Chicago & Northwestern System handled 29,294 cars on Tuesday which is low for this time of the year, but the best daily loadings since December 3, according to Fred W. Sargent, president, who said also that some slight gradual improvement was indicated by loadings.

SMART RALLY IS STAGED IN WALL ST.

New York, Feb. 11—A smart rally was staged in trading today on the New York Stock Exchange. It was slowed up for a time by quick profit-taking toward the end of the first hour but later resumed, the second period seeing new highs for the day on a number of pivotal shares.

Gains of 2 to a half dozen points or better were fairly numerous while the volatile Auburn Auto justified its reputation as a "bear trap" by quickly shooting up more than 13 points.

U. S. STEEL A LEADER

U. S. Steel was a leader, quickly mounting nearly 5 points. Issues up around 3 to 5 or more at the same time included Westinghouse Electric, Woolworth, Union Pacific, Atchison, Case, Eastman, American Tobacco, American Can, Consolidated Gas, Bethlehem, Lambert, Mack, Public Service of N. J., Electric Auto-Lite, American Telephone, General Electric, du Pont, Allied Chemical, Loew's, McKesport, New Haven and North American.

Norfolk & Western moved over 6 points. Coca Cola made a like gain. General Motors was up over 2 points.

Shorts were driven to cover by the Washington proposal to Congress the reimbursement basis of the Federal Reserve. One of the factors in the early January upturn in stocks was the report in authoritative banking quarters that the reserve was embarking upon a new effort of credit expansion in an effort to induce member banks to resume their normal loaning in furtherance of industry and trade.

GOLD WITHDRAWALS

Gold withdrawals to Europe, however, reducing the system's free gold to around $500,000,000, apparently delayed this program. The Washington proposal is designed to permit a more normal use of our large gold stocks, and increase the amount of free gold to a point at which we need be no fear of foreign withdrawals.

Indications of early production of new models by Ford Motor Co., together with American Can's placing of tinplate orders were hailed as giving a little brighter tone to the steel outlook.

In foreign exchanges, sterling stiffened at the start, opening ¼ of a cent higher at $3.43¾.

In January-start policy holders will receive the largest volume of net premiums ever written in any single month in the company's history, premiums amounted to $2,311,105, an increase of $301,808 over January, 1931.

The interstate commerce commission has open hearings Feb. 17 on the proposal to place railroad sinking companies and similar institutions under the jurisdiction of the I. C. C. Recommendations will be submitted in rewritten form Tuesday and a decision by the previous July on certain respects. The new bill would also forbid persons from acquiring control or merging railroad lines of more than two carriers are involved.

Harry Cohn, president of Columbia Pictures Corp., says the company has entirely paid off its bank loans, and that their recent peak amounted to $900,000.

CURB MARKET BEARS COVER

New York, Feb. 11 (INS)—The Curb Market staged a miniature bull market in forenoon dealings today, with heavy covering of shorts combined with urgent short-covering resulting in higher prices Novelty led the lists.

Commonwealth Edison led a brisk rebound in the utilities list with a run-up of 2¾ points to 105⅝. American Gas and Electric was 2¾ points at 34. Electric Bond and Share was 1¾ higher at 11¾; and gains of ½ point or more were chalked up by Surety Corp. priced favorites as American Superpower, Middle West Utilities and United Light and Power.

Cities Service pushed ahead to 8⅝ for a gain of ⅝.

Aluminum led a general rise in the specialty group with a jump of 5¼ points to 51½. Great Atlantic and Pacific stores went up 3⅞ points at 143½; Ford of Canada A was up 2¼ at 13⅜; Singer Manufacturing was 1½ points higher at 116½; and Cord Corporation showed a gain of almost a point at 6.

Oils were moderately improved, with Gulf up ¾ at 27; Standard of Indiana up ⅝ at 18¾; and up Standard of Kentucky nominally higher at 13¾.

National Bond & Share was in the forefront of a firm investment trust list, with a gain of 1¼ points at 21.

COOK-COOS

By TED COOK

And the fellow who used to go into business on a shoestring is now retiring from business on half-soles.

Advertisement

Dr. Praises Stomach Formula

"I have been having wonderful success with your ACIDINE in a number of stomach and liver cases," says Doctor L. T. Kuman, New Lexington, Ohio. "I will put your ACIDINE up against any medicine known to science for stomach and liver trouble."

End gas, stomach, heartburn, nausea, sleeplessness, headache resulting from acidity. Master guarantees ACIDINE ends your stomach trouble or money back. All druggists have ACIDINE.

If Mothers Only Knew

Thousands of Children Suffer from Worms, and Their Mothers do not know what the trouble is.

Signs of Worms are: Constipation, deranged stomach, swollen upper lip, offensive breath, hard and full stomach with pains, pale face, eyes heavy, short dry cough, grinding of the teeth, etc.

Mrs. E. W. Stephan, 31 Kenberma Road, Dorchester, Mass., wrote: — "My little girl's freedom from children's diseases, colds, constipation, etc., I attribute in a large measure to the use of Dr. True's Elixir."

Dr. True's Elixir

Laxative Worm Expeller

A pure herb medicine, not a harsh stimulator; natural relief from constipation.

Successfully Used for 81 Years

STOP BAD BREATH

Thousands of people afflicted with bad breath find quick relief through Dr. Edwards Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know.

Dr. Edwards Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

Olive Tablets bring no griping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound you will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c.

Try Lydia E. Pinkham's Vegetable Compound

Had bad dizzy spells

Afraid to leave house . . . feared awful dizziness would make her keel over. She needs Lydia E. Pinkham's Vegetable Compound in tablet form.

Advertisement

PILES

Piles are swollen veins which are sometimes tender to the lower end of your bowels. They may cause fistula, abscesses, ulcers and infection in the rectum. Don't let your condition go until you must have a surgical operation. But do not treat them with harsh painful medicines, some of which require the use of hard rubber or metal tubes. For hard things should never be put into the tender rectum except upon the advice of a physician. Ask your druggist for Unguentine Rectal Cones. They bring the same blessed comfort to piles that Unguentine brings to burns and cuts. They are soft, pleasant and easy to put in. They quickly relieve the burning, bleeding, paining, itching, swelling, tingling piles and help to prevent infection in the rectum. Ask your druggist for Unguentine Rectal Cones by name and get what you ask for.

BACKACHE?

Burning Sensure, getting to nights, backache—caused by Rental Midy, when due to kidney trouble. Checks the cause. Sold by druggists.

SANTAL MIDY — SANTAL CAPSULES MIDY — DE BEAUTE — CEVARIA

EVERY HOME SHOULD HAVE ONE!

Keeps Husband from Going Out Night After Night

At last the handy Amplified Celery Cruncher is available to every home. This new invention gives an absolute true-tone re-creation of a chamber of commerce banquet. Sit back and listen to the crunch, crunch, crunch! of celery. Turn the crank while listening to a dull speech over the radio. Close your eyes. You get the effect of a $1.50 banquet, without having to eat the cold storage chicken. Agents wanted.

YES, AND AGAIN THAT COP COMES ALONG, AND AGAIN I'VE GOT A BRICK IN MY HANDS —
FWA
FWA - AND FWA -

POPE'S BROADCAST OFF

Special Lincoln Tributes for Tomorrow

By N. F. T.

His Holiness, Pope Pius XI, will not broadcast from Rome tomorrow morning as per previous announcement and plans. Owing to the fact that the Vatican station, HVJ, was scheduled to go on the air at 6 a. m., National Broadcasting Company engineering experts declare that unfavorable atmospheric conditions will positively prevail at such time. Special tests were made between Rome and the United States yesterday and today. Successful reception would be utterly impossible, it was found.

• • •

Birthday tributes to the memory of Abraham Lincoln are featuring NBC and CBS network offerings tomorrow. Prominent citizens and government dignitaries, including President Hoover, will take part.

• • •

LINCOLN HIGHLIGHTS

President Hoover leads a procession of American notables who speak into microphones to fittingly commemorate the natal day of Abraham Lincoln. His address being made from the same room where the great Civil War leader issued the Emancipation Proclamation. Listeners hereabouts will hear the Chief Executive by dialing to WEEI at 10:30 tomorrow morning.

• • •

This time has been relinquished by The RKO Theater of the Air as a presidential courtesy and appropriate gesture of respect to the memory of Lincoln.

• • •

Earlier in the day brings the voice of Lieut.-Col. Ulysses S. Grant, 3d, grandson of the famed Union army commander. His word picture of The Lincoln Museum is featured between 2 and 2:30 over WNAC of Boston, originating in Ford's Theater, Washington, D. C.

• • •

BRITAIN JOINS AMERICA

Lady Simon, wife of the British foreign secretary, will deliver a discourse entitled "Slavery," her voice coming from London, England, at 4:30. Lady Simon's speech is likewise in honor of Abraham Lincoln and is aired through WAAB in Boston.

• • •

Then, at 2:30 (WBZ), the contribution of Mary Shipman Andrews is heard with the presentation of another Lincoln feature to be known as "A Perfect Tribute."

De Wolf Clinton De Wolf, secretary to Governor Ely and widely known orator, particularly on the life of Lincoln, offers his special eulogy (WBZ) at 6:30 tomorrow evening.

• • •

LOCAL LATHER

Well, well, well. Old WPAW of Pawtucket, R. I., signed off for the last night (8:30 p. m.) never to return . . . This veteran unit has consolidated with WPRO of Providence . . . It's Paul Oury of WPAW, directing the new setup . . . Mickey Alpert appears steadfastly confident of landing the much sought after Lucky Hour with Walter Winchell . . . Mick insists he's positively in for a ride on that "magic radio carpet" soon. Even so, radio editors are wagering one way and the other yesterday afternoon . . . His personal prestige would certainly seem to make selecting him a worth while move on the part of the cigarette makers . . . If Mickey could only have been a little mouse hiding close by, just to hear comments pro and con, he should have gone hot and cold alternately in rapid succession . . . Perhaps 'tis just as well . . . All the lads, as Ben Bernie would say, injected the Paramount, weekly Public footlight palaver, making ready to open (Feb. 28) on Washington st. Every station in the city will most likely broadcast the ceremony, as it promises to be a gala theatrical event . . . They're even saying Marlene Dietrich might be hurried Hubward in person to grace the occasion, also not unpleasant to anticipate at all . . . More about Lincoln's Birthday programs may be found in detail here tomorrow.

PERSONALITIES ON THE AIR

Billy Wallace, lightweight boxing crown contender, will be heard o'er WBZ at 10 tomorrow eve. Yep, heard in the role of guest tenor with Paul White-man's orch.

Tonight he fights Kid Wolf of Memphis. Between rounds he could entertain the patrons by singing "Waltz Me Around Again Wolfie."

And if he loses the fight he could appropriately render tomorrow "Starlight," "Moanin' Low," "Memphis Blues" and "Carry Me Back to Old Virginny."

CELEBRITIES and notables from all walks of life will be heard during the Boston Lyricure Club ball, Feb. 20, to be aired by WMCA, N. Y. . . . This station has turned down offers from others to relay the b'dcast but may retract. In which case WNAC might carry as it did the Chevalier testimonial several months ago . . . Mrs. Singlair Lewis is interviewed, WNAC at 8 tonight . . . The chap responsible for "Goodnight Sweetheart," Jimmy Campbell will sing it tonight, WEEI at 7:18 . . . Boston's Lillian Roth sings for Ruby tonight, WEEI at 8 . . . Little Jack Little will start a daily CBS act Mon. to be heard at the unseemly hour him) hr. of 9 a. m.

Bobo Daniels, who'll be NBCed Feb. 18, says singing helps to keep her slender.

Which will likely cause 5 million ladies to discard pots and pans in favor of microphones. But wait, ladies, think of Kate Smith.

WHEN you hear Alice Joy in a talkie short she'll be singing to the accompaniment of the bouncing ball . . . Mort Downey is sporting a shiner these days, the result HE says, of running afoul of an arclight . . . That gentle voice in the Caravan series belongs to Ted Bergman, formerly of Minute Dramas . . . Surprising but true that Graham McNamee up and b'dcast the DeMolay ball Sat., during which Tal Henry's orch. will be heard. And don't be surprised if Buddy Rogers is soloist . . . Toscanini won't be returning to the Sun. Philharmonic orch. p'grams for quite a while . . . Lee (WBZ) McCollum is writing a book, "Tales From the Sidewalks of Life" . . . Don Humbert and WEEI have parted for the time being.

Sales Tax Salvation of Budget Balancers

Budget balancers at Washington are face to face with a steadily diminishing national revenue and a STEADILY MOUNTING national deficit, whose true extent, although known at the national Capitol, has not yet been disclosed to the country.

It had been freely predicted by well-informed economists (AND IT IS NOW KNOWN AS A FACT) that the income tax would fail to yield anywhere near what it had been expected to produce, and that the falling off would stagger the nation.

It is now definitely known that the deficit is so greatly in excess of all previous Treasury announcements as to shock the taxpayers.

Sound statesmanship must now come to the aid of the budget balancers in seeking new sources of public income. AND THE ANSWER IS AT HAND—A SELECTED SALES TAX.

Economists the world over and well-informed legislators know that the nation must follow the lead of Canada, France, the Philippines and thirteen other foreign nations, and adopt a SELECTED SALES TAX.

It is the salvation of the sorely tried revenue raisers, a safe, sure, simple method, an impost easily collectable and the least painful, the least burdensome of all forms of taxation.

There is no valid argument against a selected sales tax. It has been investigated, studied, debated for years. Congress found some years ago that it would yield $400,000,000 yearly.

It is not an experiment nor an innovation, but a PROVED SUCCESS wherever tried.

In several States of the Union it is a valued source of revenue today. Wherever tried it has been accepted without complaint or hardship by the people.

From no other source could revenue be raised with comparable ease or equal abundance.

A sales tax imposed with discrimination upon selected classes of merchandise best able to support it has the crowning merit of all taxation, as it is INDIRECT, AND NOT FELT AS A BURDEN.

Congress faces the alternative of adopting a SELECTED SALES TAX or a mounting income tax levy which could not be collected and which would not produce the revenue expected of it.

There is a steadily growing demand that Congress adopt a selected sales tax as the LEAST BURDENSOME of all taxation.

Cities Sound, But Broke

Should Cut Expenses, Not Salaries

The financial condition of our Massachusetts communities is much stronger than the country as a whole.

Our per capita cost of government is $65, as compared to $68.80 for the cities of the entire country.

The new debt of our civic communities is $79.70 per person, as against $85.68, the average of the country.

These figures were the latest obtainable in a research conducted by the Massachusetts Institute of Technology.

They are especially refreshing because the cost of government, it would seem, should be much higher in Massachusetts where the health, clinical and other services rendered to the people by their cities have been much more fully developed.

But the fact that our per capita expense is lower is not the complete answer to the serious problem of city financing.

In some of our famous old cities we see employes getting along without their pay checks; we see citizens like Fred Dumaine reaching into their own pockets to supply the operating cash which even the banks will not loan in anticipation of tax collections.

Our business is not to make our ratio of expense favorable to cities elsewhere, but to make their financial condition firm and impregnable.

We expect our city officials to accomplish this end not by slashing the salaries of faithful public employes but by slashing away the needless expenses which burden the cities and hit the taxpayers a resounding wallop.

Graft in State Buying

There have been grave dishonesties in the purchase of State supplies, according to charges made to the Massachusetts Legislature by reputable citizens.

We saw abundant and nauseating evidence corroborative of those charges in the first audit of some of our State institutions by State Auditor Francis X. Hurley.

Moreover, we saw the disgusting example of little coteries of State employes and officials who formed private corporations among themselves and then patronized their own corporations in the purchase of materials and supplies for the State.

These men could not serve two masters. They gypped either themselves or the State. And the assumption can well be they were adroit enough to protect their own best interests.

The powers and duties of the State Auditor were clipped and impaired by the Legislature because of its dislike for Mr. Alonzo B. Cook when he held the office of State Auditor. In venting their anger upon Mr. Cook, the legislators created a new bureaucracy of appointive officials and vested in them the obligations which the people intended for their State Auditor, whom they elect.

The State Auditor is expected by the people to be the watchdog of the treasury. Give him back the power which has been stolen from him. If he is faithless to the performance of his duty, the people can throw him out by their votes.

Why Not Silence?

A surgeon in Chicago, Dr. Alex Hershfield, has developed a new technique in healing. He intends to prescribe from a "musical pharmacopeia" for not only mental illness but physical disorders as well.

For melancholia, a Wagner opera or a Sousa march is indicated. In nervous breakdowns he orders Grieg's songs and Beethoven's "Pathetique."

Victims of hit-and-run autoists, we suggest, might appreciate hearing "The Ride of the Valkyries." And those who had the misfortune to be spectators of a gang shooting might have their convalescence hastened by Tschaikowski's "1812 Overture" or the "Verdun Symphony" with percussive effects.

They might prefer silence, but it will at least serve to distract their attention awhile from personal matters.

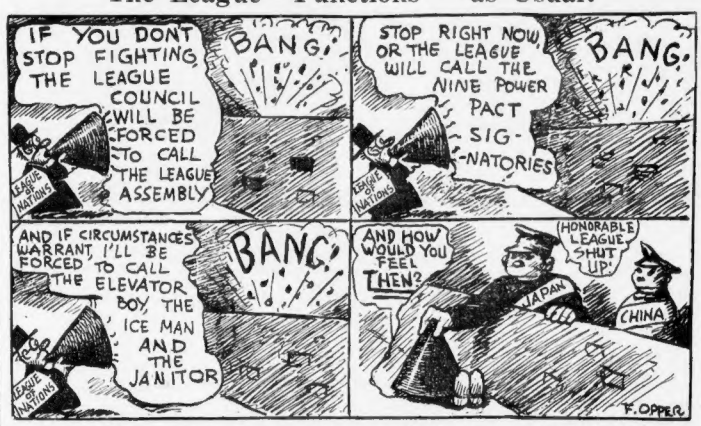
The League "Functions"—as Usual!



IF YOU DONT STOP FIGHTING THE LEAGUE COUNCIL WILL BE FORCED TO CALL THE LEAGUE ASSEMBLY
BANG!
LEAGUE OF NATIONS
STOP RIGHT NOW OR THE LEAGUE WILL CALL THE NINE POWER PACT SIG-NATORIES
BANG!
LEAGUE OF NATIONS
AND IF CIRCUMSTANCES WARRANT, I'LL BE FORCED TO CALL THE ELEVATOR BOY, THE ICE MAN AND THE JANITOR
BANG!
LEAGUE OF NATIONS
AND HOW WOULD YOU FEEL THEN?
HONORABLE LEAGUE SHUT UP!
JAPAN
CHINA
F. OPPER

What a jolly time the professional diplomats of the League of Nations have had "halting the hostilities" in the Far East! How effectively the League has functioned!

"There is no war," piously, these diplomats told the world in their best professional manner.

What magic in those few words!

There ARE air raids, naval bombardments, bayonet sorties, machine-gun forays, bombings and blastings, cannon roar on a sixteen-mile front in one sector, hundreds are killed, many hundreds are wounded, non-combatants, innocent women and children are shot down, communities laid waste, the countryside devastated, but THERE IS NO WAR.

The Chinese, the Japanese, the World Powers gathered under arms at Shanghai, watchfully waiting, may have other ideas on the subject but, always, from the League "There is no war."

What an asinine thing this League really is!

How grateful Americans should feel toward that "little group of wilful men" in the United States Senate who fired the nation with the WISDOM, the COURAGE and the PATRIOTISM to overwhelmingly reject American participation in the League!

New York Day by Day -:- By O. O. McIntyre

Versatile Personalities

NEW YORK, Feb. 11—If I were to name the most versatile of the amazing personalities in the metropolis, the choice would be Fulton Oursler. Yet, save in a literary circle, he is least known of the geniuses. Now 38, his accomplishments have taken place in the past nine years.

His beginning was as an obscure reporter on a Baltimore newspaper. To date he has written under five pseudonyms and authored the Anthony Abbot detective stories, the last of which was "About the Murder of a Night Club Lady." He visited a night club but once.

During the year he translated from the German—a $5 wonder book of magic. He is a member of the American Society of Magicians and Society of Psychic Research, and one of the five Americans who can perform India's disappearing rope trick. He aided Houdini in exposing fake mediums.

He wrote "Sandalwood" for Pauline Lord, "The Dreamer" for Glen Hunter, and "All the King's Men," for Grant Mitchell. At the moment he has a play under rehearsal under a nom de plume, and the exciting screen version of "The Spider," for Edmund Lowe, is from his pen.

Last fall he was working on three plays, one with John Erskine, at the same time and along with other duties exercising editorial supervision over a chain of cheaper magazines. He is slated for the presidency of the Authors' Club, founded by Mark Twain.

Oursler has a push-button brain which switches with wild enthusiasm from one thing to another without losing the art of concentration. Quick, fluent and moody, when he grows fatigued he pulls from a shelf a sailor-clad ventriloquist's dummy. He is a master ventriloquist.

* * *

He lives in a drab, mysterious four-storied house in West 70th street and is one of the most difficult men, outside of J. P. Morgan, in the city to reach by telephone. He rarely visits an office but labors in a large, library-like room on the third floor. The remainder of the house is cluttered with shadowy museum pieces.

* * *

It would seem Oursler contributes enough talent for one family, but he's only half of a talented duo. His wife is Grace Perkins, who played two years with Frank Bacon in "Lightnin'" and wrote such best sellers as "Angel Child," "Ex-Mistress," "Night Nurse," "Personal Maid" and "Boy Crazy."

* * *

Oursler, during the fantasia of his astounding career, once edited a musical journal and sponsored several text books for musical colleges. His interests in science and mythology are so keen he can discuss anything from Greek myths to the pathological and psychological motivation behind the present nudist craze.

* * *

Nearly six feet, dark, medium build and weighing 165 pounds; he has coal black hair, snapping black eyes and a remotely bright smile. Visitors may find him brooding before an open fireplace, like a dark cloud of wisdom, halting now and then to dictate swift memoranda to an ever-hovering secretary. Despite enchantment for the theater and literature, he is neve, at opening nights or literary roundups. On occasions he slips away to prowl around magic shops. There is about him in repose an auro of gentle bleakness—a scrupulous neurosis—relieved by brightly colored acts of grace.

* * *

At the Lambs they were discussing a New York bank postponing for one month payment of a huge Cuban government debt. "Then what?" asked Hal Skelly. Cracked Harry Silvey: "They'll probably send a couple of rhumba dancers instead."

* * *

An imported wrestler offered New York its stiffest pompadour, when he took a bow from the ringside the other night. "He looks like a prophylactic toothbrush suddenly scared by Harold Ross," Ring Lardner observed.

Words of the Wise Men

Eloquence may exist without a proportionable degree of wisdom.
—Burke.

The world is a beautiful book, but of little use to him who cannot read it.
—Goldoni.

First we flatter ourselves and then the flattery of others is sure of success. It awakens our self love within, a party which is ever ready to revolt from our better judgment and join the enemy without.
—Steele.

He who decides a case without hearing the other side, though he decide justly, cannot be considered just.
Seneca.

Daily Bible Text

"To him that overcometh, I will give him a white stone, and in the stone, a new name written."—Revelation, Ch. II, v. 17.

By Rev. Rudolph Anderson, Holy Name Church, Swampscott. Next text by Rev. Frank A. Stedman, St. Paul's Episcopal Church, Beachmont

AMERICA FIRST! WHY NOT?

By Claude G. Bowers

Author of "The Struggle for Democracy in America," "Founders of the Republic," "Jefferson and Democracy," "The Tragic Era" and other important works, now writing for the Boston Evening American.

WE ARE constantly being taken to task in America for not being internationalists, and for being stout nationalists. We wonder why no such propaganda or "educational campaign" appears in Europe.

It is true that no nation long can live unto itself; and we have the best evidence that nations by striking at other nations can only succeed in hurting themselves. We carried nationalism to extremes when we conceived the notion that we could erect an economic Chinese wall against trade from other nations and still have access to the markets of the exeluded countries.

Our tariff shows how we can hurt ourselves merely by trying to hurt all other nations.

It is also true that jingoism, chauvinism, self-glorification, splutter and fuss are out of date. These are stupid and dangerous.

But our internationlists appear impatient with such limitations.

Just what do our professional internationalists want America to do?

Will they be satisfied if we pay the debts of Europe?

* * *

Nationalism Is Not Dead

We hear that nationalism is dead—a thing of another age.

But where is it dead?

All through modern history France has been intensely national; her statesmen and rulers always concerned exclusively with France; and never in all history has the spirit of nationalism been an intense and fervent in France as it is today.

Never since the days of ancient Rome has Italy been so intensely nationalistic. It is the boast of Mussolini that he has reawakened an ardent spirit of nationalism. The whole purpose of his philosophy is to make Italians think wholly in terms of Italy.

Never in the memory of living man has England concentrated so exclusively upon England as she is today. Never has there been a time since Elizabeth that England thought more in terms of England than now. The overthrow of the Labor Ministry was brought about by the determination of the people to have a government that would legislate exclusively for England. She is now drawing within herself, taking her stand behind her own goods boxes as she has not done since the days of Bright.

The program in Spain is to create as intense, prideful devotion among the people for Spain—Spain first and Spain all the time.

Where is this weakening of the spirit of nationalism?

Where except in the United States?

* * *

Why the Clamor for Internationalism?

Over in Europe they call internationalists communists.

And Fascists nationalists.

And in Germany Fascists are predominating impressively over the communists. Germany has gone nationalist.

But even Russia is thinking primarily in terms of Russia; her idea of internationalism is for the world to be dominated from Moscow. It is the internationalism of Napoleon the Great.

Why, then, the clamor in America for internationalism? Is it the internationalism of the bankers that our internationalists have in mind?

International bankers are internationalists—ours would like to lift the burden of billions in debts from the people of Europe and saddle it on the people of their own country.

* * *

Wilson Put His Foot Down

Woodrow Wilson has been thought to have had an international outlook, but when the suggestion was made about the debts in his time he put his foot down.

Our internationalists tell us that our prosperity rests to a considerable extent on the restoration of prosperity in Europe, and that is true; and that is the reason it was stupid to build a tariff wall making it impossible for Europe to trade. But our internationalists are not making so much of that. They cling to the debts.

We loaned billions to Europe; and the nations of Europe used this money for their own benefit—for national, not international purposes. Some was used to strengthen national armies and navies; some to strengthen national industries.

Now it appears we are Shylocks injuring Europe by expecting to get the money back.

We sacrifice America to Europe—and that is "internationalism"?

And would France, England, Italy do it if conditions were reversed? Not in a million years.

* * *

American Children Are Starving

We have some sympathy with a sane international outlook, but we want no internationalism that sacrifices America and Americans. When children in Belgium were hungry we fed them; when French children were hungry we fed them; when German children were starving we fed them; when Russian children were without food we furnished it. Out of the American treasury!

But now that American children are starving, where are the tears for them? Statesmen who tearfully voted money from the treasury to feed the children of other nations are opposed to feeding starving children of America from the American treasury.

Too much internationalism!

Thirty-five years ago Theodore Roosevelt predicted that our republican institutions would be dead within fifty years—and that gives us fifteen more.

Isn't it time to seek a robust American leadership in Washington; to find men for power who think more in terms of America—and all America?

Just Folks

Age Talks to Youth

Old age whispered: "Youth, beware!
Love will lead you into care.
"When the glamour disappears
Lovers wake to sighs and tears.
"Love is duty, love is pain.
Sacrifice and loss and gain.

"Look at us, grown old and gray;
Would you fade the self-same way?
"Would you have your features wear
Such deep-graven lines of care?"

"Yes," said youth, "for that we pray.
We would fade the self-same way.
"All that you have known of care,
Pain and anguish we would share.

"And when grown as old as you
May we be as wrinkled, too."
